SUPERIOR COURT OF CALIFORNIA, COUNTY OF Sacramento

SHORT TITLE OF CASE:
AALN et al v. SMUD et al.

FORM INTERROGATORIES—GENERAL **Asking Party:** Plaintiffs AALN, Khoja, Ngyuen **Answering Party:** Sacramento Municipal Utility District **Set No.:** Two	CASE NUMBER: 22CECG01224

Sec. 1. Instructions to All Parties

(a) Interrogatories are written questions prepared by a party to an action that are sent to any other party in the action to be answered under oath. The interrogatories below are form interrogatories approved for use in civil cases.

(b) For time limitations, requirements for service on other parties, and other details, see Code of Civil Procedure sections 2030.010–2030.410 and the cases construing those sections.

(c) These form interrogatories do not change existing law relating to interrogatories nor do they affect an answering party's right to assert any privilege or make any objection.

Sec. 2. Instructions to the Asking Party

(a) These interrogatories are designed for optional use by parties in unlimited civil cases where the amount demanded exceeds $25,000. Separate interrogatories, Form *Interrogatories—Limited Civil Cases (Economic Litigation)* (form DISC-004), which have no subparts, are designed for use in limited civil cases where the amount demanded is $25,000 or less; however, those interrogatories may also be used in unlimited civil cases.

(b) Check the box next to each interrogatory that you want the answering party to answer. Use care in choosing those interrogatories that are applicable to the case.

(c) You may insert your own definition of **INCIDENT** in Section 4, but only where the action arises from a course of conduct or a series of events occurring over a period of time.

(d) The interrogatories in section 16.0, Defendant's Contentions–Personal Injury, should not be used until the defendant has had a reasonable opportunity to conduct an investigation or discovery of plaintiff's injuries and damages.

(e) Additional interrogatories may be attached.

Sec. 3. Instructions to the Answering Party

(a) An answer or other appropriate response must be given to each interrogatory checked by the asking party.

(b) As a general rule, within 30 days after you are served with these interrogatories, you must serve your responses on the asking party and serve copies of your responses on all other parties to the action who have appeared. See Code of Civil Procedure sections 2030.260–2030.270 for details.

(c) Each answer must be as complete and straightforward as the information reasonably available to you, including the information possessed by your attorneys or agents, permits. If an interrogatory cannot be answered completely, answer it to the extent possible.

(d) If you do not have enough personal knowledge to fully answer an interrogatory, say so, but make a reasonable and good faith effort to get the information by asking other persons or organizations, unless the information is equally available to the asking party.

(e) Whenever an interrogatory may be answered by referring to a document, the document may be attached as an exhibit to the response and referred to in the response. If the document has more than one page, refer to the page and section where the answer to the interrogatory can be found.

(f) Whenever an address and telephone number for the same person are requested in more than one interrogatory, you are required to furnish them in answering only the first interrogatory asking for that information.

(g) If you are asserting a privilege or making an objection to an interrogatory, you must specifically assert the privilege or state the objection in your written response.

(h) Your answers to these interrogatories must be verified, dated, and signed. You may wish to use the following form at the end of your answers:

I declare under penalty of perjury under the laws of the State of California that the foregoing answers are true and correct.

(Date) _____ *(SIGNATURE)*

Sec. 4. Definitions

Words in **BOLDFACE CAPITALS** in these interrogatories are defined as follows:

(a) *(Check one of the following):*

☐ (1) **INCIDENT** includes the circumstances and events surrounding the alleged accident, injury, or other occurrence or breach of contract giving rise to this action or proceeding.

☐ **(2) INCIDENT** means *(insert your definition here or on a separate, attached sheet labeled "Sec. 4(a)(2)"):*

(b) **YOU OR ANYONE ACTING ON YOUR BEHALF** includes you, your agents, your employees, your insurance companies, their agents, their employees, your attorneys, your accountants, your investigators, and anyone else acting on your behalf.

(c) **PERSON** includes a natural person, firm, association, organization, partnership, business, trust, limited liability company, corporation, or public entity.

(d) **DOCUMENT** means a writing, as defined in Evidence Code section 250, and includes the original or a copy of handwriting, typewriting, printing, photostats, photographs, electronically stored information, and every other means of recording upon any tangible thing and form of communicating or representation, including letters, words, pictures, sounds, or symbols, or combinations of them.

(e) **HEALTH CARE PROVIDER** includes any **PERSON** referred to in Code of Civil Procedure section 667.7(e)(3).

(f) **ADDRESS** means the street address, including the city, state, and zip code.

(a) the title;

(b) the date;

(c) the name, **ADDRESS,** and telephone number of the individual who prepared the report; and

(d) the name, **ADDRESS,** and telephone number of each **PERSON** who has the original or a copy.

14.0 Statutory or Regulatory Violations

☐ 14.1 Do **YOU OR ANYONE ACTING ON YOUR BEHALF** contend that any **PERSON** involved in the **INCIDENT** violated any statute, ordinance, or regulation and that the violation was a legal (proximate) cause of the **INCIDENT?** If so, identify the name, **ADDRESS,** and telephone number of each **PERSON** and the statute, ordinance, or regulation that was violated.

☐ 14.2 Was any **PERSON** cited or charged with a violation of any statute, ordinance, or regulation as a result of this **INCIDENT?** If so, for each **PERSON** state:

(a) the name, **ADDRESS,** and telephone number of the **PERSON;**

(b) the statute, ordinance, or regulation allegedly violated;

(c) whether the **PERSON** entered a plea in response to the citation or charge and, if so, the plea entered; and

(d) the name and **ADDRESS** of the court or administrative agency, names of the parties, and case number.

15.0 Denials and Special or Affirmative Defenses

☐ 15.1 Identify each denial of a material allegation and each special or affirmative defense in your pleadings and for each:

(a) state all facts upon which you base the denial or special or affirmative defense;

(b) state the names, **ADDRESSES,** and telephone numbers of all **PERSONS** who have knowledge of those facts; and

(c) identify all **DOCUMENTS** and other tangible things that support your denial or special or affirmative defense, and state the name, **ADDRESS,** and telephone number of the **PERSON** who has each **DOCUMENT.**

16.0 Defendant's Contentions—Personal Injury

☐ 16.1 Do you contend that any **PERSON,** other than you or plaintiff, contributed to the occurrence of the **INCIDENT** or the injuries or damages claimed by plaintiff? If so, for each **PERSON:**

(a) state the name, **ADDRESS,** and telephone number of the **PERSON;**

(b) state all facts upon which you base your contention;

(c) state the names, **ADDRESSES,** and telephone numbers of all **PERSONS** who have knowledge of the facts; and

(d) identify all **DOCUMENTS** and other tangible things that support your contention and state the name, **ADDRESS,** and telephone number of the **PERSON** who has each **DOCUMENT** or thing.

☐ 16.2 Do you contend that plaintiff was not injured in the **INCIDENT?** If so:

(a) state all facts upon which you base your contention;

☐ 20.6 Did the **INCIDENT** occur at an intersection? If so, describe all traffic control devices, signals, or signs at the intersection.

☐ 20.7 Was there a traffic signal facing you at the time of the **INCIDENT?** If so, state:

(a) your location when you first saw it;

(b) the color;

(c) the number of seconds it had been that color; and

(d) whether the color changed between the time you first saw it and the **INCIDENT.**

☐ 20.8 State how the **INCIDENT** occurred, giving the speed, direction, and location of each vehicle involved:

(a) just before the **INCIDENT;**

(b) at the time of the **INCIDENT;** and (c) just after the **INCIDENT.**

☐ 20.9 Do you have information that a malfunction or defect in a vehicle caused the **INCIDENT**? If so:

(a) identify the vehicle;

(b) identify each malfunction or defect;

(c) state the name, **ADDRESS,** and telephone number of each **PERSON** who is a witness to or has information about each malfunction or defect; and

(d) state the name, **ADDRESS,** and telephone number of each **PERSON** who has custody of each defective part.

☐ 20.10 Do you have information that any malfunction or defect in a vehicle contributed to the injuries sustained in the **INCIDENT?** If so:

(a) identify the vehicle;

(b) identify each malfunction or defect;

(c) state the name, **ADDRESS,** and telephone number of each **PERSON** who is a witness to or has information about each malfunction or defect; and

(d) state the name, **ADDRESS,** and telephone number of each **PERSON** who has custody of each defective part.

☐ 20.11 State the name, **ADDRESS,** and telephone number of each owner and each **PERSON** who has had possession since the **INCIDENT** of each vehicle involved in the **INCIDENT.**

PROPOUNDING PARTY: Plaintiffs, ASIAN AMERICAN LIBERATION NETWORK; KHURSHID KHOJA; ALFONSO NGUYEN

RESPONDING PARTY: Defendant, SACRAMENTO MUNICIPAL UTILITY DISTRICT

SET NO.: Two (2)

Pursuant to California Code of Civil Procedure sections 2030.210 *et seq.*, Defendant, SACRAMENTO MUNICIPAL UTILITY ("Defendant" and/or "Responding Party"), hereby responds to Form Interrogatories-General, Set Two propounded by Plaintiffs, ASIAN AMERICAN

LEWIS BRISBOIS BISGAARD & SMITH LLP ATTORNEYS AT LAW

LIBERATION NETWORK; KHURSHID KHOJA; ALFONSO NGUYEN (collectively "Plaintiffs" and/or "Propounding Party"), as follows:

RESPONSES TO FORM INTERROGATORIES-GENERAL, SET TWO

FORM INTERROGATORY NO. 17.1:

Is your response to each request for admission served with these interrogatories an unqualified admission? If not, for each response that is not an unqualified admission:

(a) state the number of the request;

(b) state all facts upon which you base your response;

(c) state the names, **ADDRESSES**, and telephone numbers of all **PERSON**S who have knowledge of those facts; and

(d) identify all **DOCUMENTS** and other tangible things that support your response and state the name, **ADDRESS**, and telephone number of the **PERSON** who has each **DOCUMENT** or thing.

RESPONSE TO FORM INTERROGATORY NO. 17.1:

Objection. Responding Party objects to this Interrogatory to the extent where a full and complete answer would be so overly burdensome so as to constitute oppression, due to the overly broad nature of a particular Request, the sheer number of responsive, facts, persons, or documents which may comprise a full and complete answer, or because a particular Request is so vague and ambiguous that the Request was unintelligible and therefore unanswerable, rendering a response to this Interrogatory impossible. Responding Party objects to this Interrogatory on the grounds that it is not reasonably calculated to lead to the discovery of admissible evidence.

Without waiving any foregoing objection, Responding Party responds as follows:

(a) **Request for Admission No. 5**

(b) That is not the title of the Document attached as Exhibit A. The correct title of Exhibit A is SD-16.

(c) Responding Party lacks information or personal knowledge sufficient to respond fully to this Interrogatory.

(d) Responding Party lacks information or personal knowledge sufficient to respond

fully to this Interrogatory.

(a) **Request for Admission No. 6**

(b) This Request is unclear regarding what sense Propounding Party means Responding Party "is governed." The Board is the legislative body of the district and sets forth high-level policies and guidance for the organization. The Board delegates to the Chief Executive Officer or General Manager many duties related to running the day-to-day operations of the utility. Responding Party lacks information or personal knowledge sufficient to respond fully to this Interrogatory.

(c) On information and belief, most SMUD employees. Responding Party lacks information or personal knowledge sufficient to respond fully to this Interrogatory.

(d) On information and belief, the MUD Act, numerous Board resolutions and agreements, Board Governance Process Policies, Board-staff Linkage Policies, Strategic Directives. Responding Party lacks information or personal knowledge sufficient to respond fully to this Interrogatory.

(a) **Request for Admission No. 8**

(b) Responding Party admits the Board of Directors can set forth high-level policy and that they issue Board Governance Process Policies, Board-Staff Linkage policies, and Strategic Directives. Responding Party denies to the extent this implies they created all of the policies of SMUD related to customer information. The Board is the legislative body of the district and sets forth high-level policies and guidance for the organization. The Board delegates to the Chief Executive Officer or General Manager many duties related to running the day-to-day operations of the utility. The General Manager or their designee approves most of Responding Party's policies related to customer information.

(c) On information and belief, most SMUD employees. Responding Party lacks information or personal knowledge sufficient to respond fully to this Interrogatory.

(d) On information and belief, the MUD Act, numerous Board resolutions and agreements, Board Governance Process Policies, Board-staff Linkage Policies, Strategic Directives. Responding Party lacks information or personal knowledge sufficient to respond fully to this Interrogatory.

(a) **Request for Admission No. 10**

(b) Responding Party does not dispute that this is a published document but denies that Exhibit B is a true or correct copy. The attached copy is missing a page.

(c) Responding Party lacks information or personal knowledge sufficient to respond fully to this Interrogatory.

(d) SMUD Document titled "Smart Sacramento."

(a) **Request for Admission No. 11**

(b) The Request is incomprehensible. The term Advanced Metering Infrastructure appears to have been given a definition that is not ascertainable because the definition references a page whereon no definition is actually given, a reference in a specially defined term renders a Request not full and complete in and of itself, and the Cal. Code of Civ. Proc. provides express provisions regarding formatting of specially defined terms.

(c) Responding Party lacks information or personal knowledge sufficient to respond fully to this Interrogatory.

(d) Responding Party lacks information or personal knowledge sufficient to respond fully to this Interrogatory.

(a) **Request for Admission No. 12**

(c) Responding Party lacks information or personal knowledge sufficient to respond fully to this Interrogatory.

(d) Responding Party lacks information or personal knowledge sufficient to respond fully to this Interrogatory.

(a) **Request for Admission No. 13**

(b) The undefined term "most" renders this Request unanswerable. More than half of

SMUD's customers have smart meters that are capable of communicating back to SMUD without a meter reader going out to read the meter

(c) Mike Vasquez and Tina Dorsette who may be contacted through counsel for Responding Party

(d) SMUD has data about smart meters but lacks information or personal knowledge sufficient to respond fully to this Interrogatory because the Request fails to identify which or what smart meters are relevant to the Request.

(a) **Request for Admission No. 14**

(b) The Request is incomprehensible. The undefined terms "transmit" and "to" are so vague and ambiguous that this Request is unintelligible and unanswerable. The terms can be interpreted at various levels of complexity. Technically, the statement is not correct, but generally, it may be. Technically, the meters do not transmit data directly to SMUD. The data gets to an access point which transmits the data to a head end server and SMUD gets data from the server

(c) Mike Vasquez, who may be contacted through counsel for Responding Party.

(d) SMUD has data about smart meters but lacks information or personal knowledge sufficient to respond fully to this Interrogatory because the Request fails to identify which or what smart meters are relevant to the Request.

(a) **Request for Admission No. 22**

(b) This Request is vague and ambiguous as to "confidential" and as to the context in which that is to be determined. "Confidential" can have many meanings – "confidential customer information" has even been given different special definitions across various discovery propounded in this Action, alone – and assumptions associated therewith. Propounding Party did not specify what is meant and Responding Party cannot be certain what is meant by "confidential." However, SMUD generally does not release account holder information and keeps that information from being disclosed except as needed, including as required by law or upon law enforcement request.

(c) There are too many SMUD employees to identify without significant burden, though Daniel Miller and Tracy Carlson, both of whom may be contacted by counsel for Responding Party, are examples.

(b) This Request is vague and ambiguous as to "confidential" and as to the context in which that is to be determined. "Confidential" can have many meanings – "confidential customer information" has even been given different special definitions across various discovery propounded in this Action, alone – and assumptions associated therewith. Propounding Party did not specify what is meant and Responding Party cannot be certain what is meant by "confidential." However, SMUD generally does not release account holder information and keeps that information from being disclosed except as needed, including as required by law or upon law enforcement request.

(c) There are too many SMUD employees to identify without significant burden, though Daniel Miller and Tracy Carlson, both of whom may be contacted by counsel for Responding Party, are examples.

SUPERIOR COURT OF CALIFORNIA, COUNTY OF Sacramento

SHORT TITLE OF CASE:
AALN et al v. SMUD et al.

FORM INTERROGATORIES—GENERAL **Asking Party:** Plaintiffs AALN, Khoja, Ngyuen **Answering Party:** Sacramento Municipal Utility District **Set No.:** Three	CASE NUMBER: 22CECG01224

Sec. 1. Instructions to All Parties

(a) Interrogatories are written questions prepared by a party to an action that are sent to any other party in the action to be answered under oath. The interrogatories below are form interrogatories approved for use in civil cases.

(b) For time limitations, requirements for service on other parties, and other details, see Code of Civil Procedure sections 2030.010–2030.410 and the cases construing those sections.

(c) These form interrogatories do not change existing law relating to interrogatories nor do they affect an answering party's right to assert any privilege or make any objection.

Sec. 2. Instructions to the Asking Party

(a) These interrogatories are designed for optional use by parties in unlimited civil cases where the amount demanded exceeds $25,000. Separate interrogatories, Form *Interrogatories—Limited Civil Cases (Economic Litigation)* (form DISC-004), which have no subparts, are designed for use in limited civil cases where the amount demanded is $25,000 or less; however, those interrogatories may also be used in unlimited civil cases.

(b) Check the box next to each interrogatory that you want the answering party to answer. Use care in choosing those interrogatories that are applicable to the case.

(c) You may insert your own definition of **INCIDENT** in Section 4, but only where the action arises from a course of conduct or a series of events occurring over a period of time.

(d) The interrogatories in section 16.0, Defendant's Contentions–Personal Injury, should not be used until the defendant has had a reasonable opportunity to conduct an investigation or discovery of plaintiff's injuries and damages.

(e) Additional interrogatories may be attached.

Sec. 3. Instructions to the Answering Party

(a) An answer or other appropriate response must be given to each interrogatory checked by the asking party.

(b) As a general rule, within 30 days after you are served with these interrogatories, you must serve your responses on the asking party and serve copies of your responses on all other parties to the action who have appeared. See Code of Civil Procedure sections 2030.260–2030.270 for details.

(c) Each answer must be as complete and straightforward as the information reasonably available to you, including the information possessed by your attorneys or agents, permits. If an interrogatory cannot be answered completely, answer it to the extent possible.

(d) If you do not have enough personal knowledge to fully answer an interrogatory, say so, but make a reasonable and good faith effort to get the information by asking other persons or organizations, unless the information is equally available to the asking party.

(e) Whenever an interrogatory may be answered by referring to a document, the document may be attached as an exhibit to the response and referred to in the response. If the document has more than one page, refer to the page and section where the answer to the interrogatory can be found.

(f) Whenever an address and telephone number for the same person are requested in more than one interrogatory, you are required to furnish them in answering only the first interrogatory asking for that information.

(g) If you are asserting a privilege or making an objection to an interrogatory, you must specifically assert the privilege or state the objection in your written response.

(h) Your answers to these interrogatories must be verified, dated, and signed. You may wish to use the following form at the end of your answers:

I declare under penalty of perjury under the laws of the State of California that the foregoing answers are true and correct.

(Date) _____ *(SIGNATURE)*

Sec. 4. Definitions

Words in **BOLDFACE CAPITALS** in these interrogatories are defined as follows:

(a) *(Check one of the following):*

☐ (1) **INCIDENT** includes the circumstances and events surrounding the alleged accident, injury, or other occurrence or breach of contract giving rise to this action or proceeding.

☐ **(2) INCIDENT** means *(insert your definition here or on a separate, attached sheet labeled "Sec. 4(a)(2)"):*

(b) YOU OR ANYONE ACTING ON YOUR BEHALF includes you, your agents, your employees, your insurance companies, their agents, their employees, your attorneys, your accountants, your investigators, and anyone else acting on your behalf.

(c) **PERSON** includes a natural person, firm, association, organization, partnership, business, trust, limited liability company, corporation, or public entity.

(d) **DOCUMENT** means a writing, as defined in Evidence Code section 250, and includes the original or a copy of handwriting, typewriting, printing, photostats, photographs, electronically stored information, and every other means of recording upon any tangible thing and form of communicating or representation, including letters, words, pictures, sounds, or symbols, or combinations of them.

(e) **HEALTH CARE PROVIDER** includes any **PERSON** referred to in Code of Civil Procedure section 667.7(e)(3).

(f) **ADDRESS** means the street address, including the city, state, and zip code.

(a) a description of the complaint or injury;

(b) the dates it began and ended; and

(c) the name, **ADDRESS,** and telephone number of each **HEALTH CARE PROVIDER** whom you consulted or who examined or treated you.

☐ 10.2 List all physical, mental, and emotional disabilities you had immediately before the **INCIDENT.** *(You may omit mental or emotional disabilities unless you attribute any mental or emotional injury to the **INCIDENT.**)*

☐ 10.3 At any time after the **INCIDENT,** did you sustain injuries of the kind for which you are now claiming damages? If so, for each incident giving rise to an injury state:

(a) the date and the place it occurred;

(b) the name, **ADDRESS,** and telephone number of any other **PERSON** involved;

(c) the nature of any injuries you sustained;

(d) the name, **ADDRESS,** and telephone number of each **HEALTH CARE PROVIDER** who you consulted or who examined or treated you; and

(e) the nature of the treatment and its duration.

11.0 Other Claims and Previous Claims

☐ 11.1 Except for this action, in the past 10 years have you filed an action or made a written claim or demand for compensation for your personal injuries? If so, for each action, claim, or demand state:

(a) the date, time, and place and location (closest street **ADDRESS** or intersection) of the **INCIDENT** giving rise to the action, claim, or demand;

(b) the name, **ADDRESS,** and telephone number of each **PERSON** against whom the claim or demand was made or the action filed;

(c) the court, names of the parties, and case number of any action filed;

(d) the name, **ADDRESS,** and telephone number of any attorney representing you;

(e) whether the claim or action has been resolved or is pending; and

(f) a description of the injury.

☐ 11.2 In the past 10 years have you made a written claim or demand for workers' compensation benefits? If so, for each claim or demand state:

(a) the date, time, and place of the **INCIDENT** giving rise to the claim;

(b) the name, **ADDRESS,** and telephone number of your employer at the time of the injury;

(c) the name, **ADDRESS,** and telephone number of the workers' compensation insurer and the claim number;

(d) the period of time during which you received workers' compensation benefits;

(e) a description of the injury;

(f) the name, **ADDRESS,** and telephone number of any **HEALTH CARE PROVIDER** who provided services; and

(g) the case number at the Workers' Compensation Appeals Board.

12.0 Investigation—General

☐ 12.1 State the name, **ADDRESS,** and telephone number of each individual:

(a) who witnessed the **INCIDENT** or the events occurring immediately before or after the **INCIDENT;**

(b) who made any statement at the scene of the **INCIDENT;**

(c) who heard any statements made about the **INCIDENT** by any individual at the scene; and

(d) who **YOU OR ANYONE ACTING ON YOUR BEHALF** claim has knowledge of the **INCIDENT** (except for expert witnesses covered by Code of Civil Procedure section 2034).

☐ 12.2 Have **YOU OR ANYONE ACTING ON YOUR BEHALF** interviewed any individual concerning the **INCIDENT?** If so, for each individual state:

(a) the name, **ADDRESS,** and telephone number of the individual interviewed;

(b) the date of the interview; and

(c) the name, **ADDRESS,** and telephone number of the **PERSON** who conducted the interview.

☐ 12.3 Have **YOU OR ANYONE ACTING ON YOUR BEHALF** obtained a written or recorded statement from any individual concerning the **INCIDENT?** If so, for each statement state:

(a) the name, **ADDRESS,** and telephone number of the individual from whom the statement was obtained;

(b) the name, **ADDRESS,** and telephone number of the individual who obtained the statement;

(c) the date the statement was obtained; and

(d) the name, **ADDRESS,** and telephone number of each **PERSON** who has the original statement or a copy.

☐ 12.4 Do **YOU OR ANYONE ACTING ON YOUR BEHALF** know of any photographs, films, or videotapes depicting any place, object, or individual concerning the **INCIDENT** or plaintiff's injuries? If so, state:
(a) the number of photographs or feet of film or videotape;
(b) the places, objects, or persons photographed, filmed, or videotaped;
(c) the date the photographs, films, or videotapes were taken;

Case No. 34-2022-80004019 **DEFENDANT SACRAMENTO MUNICIPAL UTILITY DISTRICT'S RESPONSE TO PLAINTIFFS' FORM INTERROGATORIES-GENERAL, SET THREE** *Action Filed:* *September 21, 2022* *Trial Date:* *None Set*

PROPOUNDING PARTY: Plaintiffs, ASIAN AMERICAN LIBERATION NETWORK; KHURSHID KHOJA; ALFONSO NGUYEN

RESPONDING PARTY: Defendant, SACRAMENTO MUNICIPAL UTILITY DISTRICT

SET NO.: Three (3)

Pursuant to California Code of Civil Procedure sections 2030.210 *et seq.*, Defendant, SACRAMENTO MUNICIPAL UTILITY ("Defendant" and/or "Responding Party"), hereby responds to Form Interrogatories-General, Set Three propounded by Plaintiffs, ASIAN

LEWIS BRISBOIS BISGAARD & SMITH LLP ATTORNEYS AT LAW

AMERICAN LIBERATION NETWORK; KHURSHID KHOJA; ALFONSO NGUYEN (collectively "Plaintiffs" and/or "Propounding Party"), as follows:

RESPONSES TO FORM INTERROGATORIES-GENERAL, SET THREE

FORM INTERROGATORY NO. 15.1:

Identify each denial of a material allegation and each special or affirmative defense in your pleadings and for each:

(a) state all facts upon which you base the denial or special or affirmative defense;

(b) state the names, **ADDRESSES**, and telephone numbers of all **PERSON**S who have knowledge of those facts; and

(c) identify all **DOCUMENTS** and other tangible things that support your denial or special or affirmative defense, and state the name, **ADDRESS**, and telephone number of the **PERSON** who has each **DOCUMENT**.

RESPONSE TO FORM INTERROGATORY NO. 15.1:

Objection. Responding Party objects to this Interrogatory on the grounds that it is overbroad and unduly burdensome with its request to identify each denial of a material allegation, and on the grounds that it calls for Responding Party to prove a negative when the law places the burden on Plaintiff to prove each element of its claims. Responding Party objects to this Interrogatory on the grounds that the term "material allegation" is vague and ambiguous, and Propounding Party's verified complaint contains 85 paragraphs, many of which are comprised of sweeping narratives and legal conclusions, rendering this Interrogatory unintelligible and unanswerable and further unduly burdensome and so harassing as to be oppressive.

Responding Party further objects to this Interrogatory on the grounds that, while Responding Party has filed an Answer to Plaintiffs' First Amended Complaint and responded to initial, blanket discovery requests from Plaintiffs, this Interrogatory is premature, as Responding Party has not had reasonable opportunity to conduct an investigation or discovery of Propounding Party's allegations or assertions of harm. Cal. Code Civ. Proc. § 421.30(b) requires an answer to a complaint to contain whatever defenses a defendant may have that would not otherwise be put at issue by way of a general denial; answering a verified complaint with affirmative defenses simply places the defenses at issue,

pending further discovery and investigation. It is anticipated that further discovery will supply facts necessary to respond to this Interrogatory at the appropriate time.

Responding Party further objects to this Interrogatory to the extent it seeks to have Responding Party prepare Propounding Party's case. A party is not required to prepare the case of their opponent. (*See Sav-On Drugs, Inc. v. Sup. Ct. of Los Angeles County* (1975) 15 Cal.3d 1, 5; *see also Ryan v. Sup. Ct. of Los Angeles County* (1960) 186 Cal.App.2d 813, 819.) Responding Party objects to this Interrogatory to the extent that it could be construed to seek confidential information protected by the attorney-client privilege or attorney work product doctrine, or expert information.

Without waiving any foregoing objection, Responding Party responds as follows:

1. Answering Paragraph 1 of the First Amended Verified Complaint, Defendants deny the allegations.

(a) Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) On information and belief, Joe Devlin, Deputy Chief Dave Peletta, Officer Kelli Streich, Lindsey Mendoza, Robert Duggan, Michael Wolff, Daniel Miller; responding fully to this Interrogatory is so overly broad and unduly burdensome, harassing, and oppressive, that fully responding to this Interrogatory is impossible. Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) Documents related to disclosures of information exchanged between Responding Party and law enforcement, including request forms, communications, SMUD's Privacy Policy, Terms and Conditions of Service; responding fully to this Interrogatory is so overly broad and unduly burdensome, harassing, and oppressive, that fully responding to this Interrogatory is impossible. Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

2. To the extent a response is required, Defendants deny the allegations therein.

(a) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) The allegations are conclusions of law to which no response is required; Responding

Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

3. Except as so admitted, Defendants deny the allegations.

(a) Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) On information and belief, Joe Devlin, Deputy Chief Dave Peletta, Officer Kelli Streich, Lindsey Mendoza, Robert Duggan, Michael Wolff, Daniel Miller; responding fully to this Interrogatory is so overly broad and unduly burdensome, harassing, and oppressive, that fully responding to this Interrogatory is impossible. Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) Documents related to disclosures of information exchanged between Responding Party and law enforcement, including request forms, communications, SMUD's Privacy Policy, Terms and Conditions of Service; responding fully to this Interrogatory is so overly broad and unduly burdensome, harassing, and oppressive, that fully responding to this Interrogatory is impossible. Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

4. Answering Paragraph 4 of the First Amended Verified Complaint, the phrase, "For the 60% to 70% of Californians who get service from private utilities like PG&E and Southern California Edison, the California Public Utilities Commission's ("CPUC") rules allow disclosure to law enforcement only on a search warrant or a judicially approved subpoena," contains conclusions of law to which no response is required. To the extent a response is required, Defendants lack information sufficient to form a belief as to the veracity of the allegations in the Paragraph, and on that basis deny them.

(a) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

5. To the extent a response is required, Defendants deny the allegations.

(a) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

6. To the extent a response is required, Defendants deny the allegations.

(a) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

7. To the extent a response is required, Defendants deny the allegations.

(a) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

8. Answering Paragraph 8 of the First Amended Verified Complaint, Defendants deny the allegations that a "a SMUD analyst excluded homes in a predominately white neighborhood." Except as so denied, Defendants lack information sufficient to form a belief as to the veracity of the allegations in Paragraph 8 and deny on that basis.

(a) Responding Party lacks sufficient personal knowledge to respond fully to this

Interrogatory.

(b) On information and belief, Joe Devlin, Deputy Chief Dave Peletta, Officer Kelli Streich, Lindsey Mendoza, Robert Duggan, Michael Wolff, Daniel Miller; responding fully to this Interrogatory is so overly broad and unduly burdensome, harassing, and oppressive, that fully responding to this Interrogatory is impossible. Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) Documents related to disclosures of information exchanged between Responding Party and law enforcement, including request forms, communications, SMUD's Privacy Policy, Terms and Conditions of Service; responding fully to this Interrogatory is so overly broad and unduly burdensome, harassing, and oppressive, that fully responding to this Interrogatory is impossible. Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

9. To the extent a response is required, Defendants deny the allegations. Except as otherwise stated, Defendants deny the allegations.

(a) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

10. Answering Paragraph 10 of the First Amended Verified Complaint, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them.

(a) Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

///

(c) Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

11. To the extent a response is required, Defendants deny the allegations.

(a) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

12. Answering Paragraph 12 of the First Amended Verified Complaint, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them.

(a) Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

13. Answering Paragraph 13 of the First Amended Verified Complaint, Defendants lack information sufficient to form a belief as to the veracity of all the allegations and on that basis deny them.

(a) Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

14. Answering Paragraph 14 of the First Amended Verified Complaint, as to the

allegation, "targeting of the Asian community," Defendants deny. Except as so denied, the allegations are conclusions of law to which no response is required. To the extent a response is required, Defendants, deny the allegations.

(a) Defendants do not participate or have any knowledge of any targeting of the Asian community as alleged. The remaining allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

15. Answering Paragraph 15 of the First Amended Verified Complaint, as to the phrase "Respondents are public officials who are engaged in purposeful and systematic violations of their public duties," Defendants deny. Except as so denied, the allegations are conclusions of law to which no response is required. To the extent a response is required, Defendants deny the allegations.

(a) Defendants do not engage in or have knowledge of the alleged purposeful or systematic violations of their public duties. The remaining allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

16. Answering Paragraph 16 of the First Amended Verified Complaint, as to the phrases, "and on information and belief, have also paid, in the one year prior to this Complaint, one or more taxes that fund SMUD," and "Lau […] [is] expending public funds," "expenditure of public fund," Defendants deny. Further, as to allegations regarding other Parties' use of public funds, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis

deny them. Except as otherwise stated, the allegations are conclusions of law to which no response is required. To the extent a response is required, Defendants deny the allegations.

(a) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(a) The allegations are conclusions of law to which no response is required; Responding

Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(b) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

(c) The allegations are conclusions of law to which no response is required; Responding Party lacks sufficient personal knowledge to respond fully to this Interrogatory.

First Affirmative Defense

(a) On information and belief, the First Amended Verified Petition, in its entirety and through each and every purported count thereof, fails to state a claim for which relief can be granted against Responding Party, because Responding Party does not unlawfully disclose customer information, does not participate in unlawful targeting of any alleged community, or conduct any unlawful search of customer privacy. Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(b) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(c) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

Second Affirmative Defense

(a) On information and belief, the First Amended Verified Petition, and each allegation therein, is barred by applicable statutes of limitations, and cannot support any tolling or delayed discovery theories which might overcome those statutes. Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(b) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(c) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

Third Affirmative Defense

(a) On information and belief, Plaintiffs failed and have continued to fail to exhaust administrative remedies available to them, including those mandated by law before bringing such

claims as alleged in the instant First Amended Verified Petition. Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(b) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(c) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

Fourth Affirmative Defense

(a) On information and belief, Plaintiffs do not have standing to bring any action against either of these answering Defendants, or both of them. Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(b) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(c) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

Fifth Affirmative Defense

(a) On information and belief, Plaintiffs, by their own acts and/or omissions, have waived their rights, if any, to relief against Responding Party, and have acted in concert with Responding Party to knowingly and willingly consent to Responding Party's Conduct, such that the First Amended Verified Complaint, and each count therein, are therefore barred in whole and in part by the Doctrines of Waiver and Consent. Each SMUD customer agrees to SMUD's terms and conditions of service and Privacy Policy, which discloses that SMUD may share or use customer and personal information internally and with government authorities, including law enforcement agencies.

(b) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(c) SMUD's Privacy Policy. Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

///

Sixth Affirmative Defense

(a) All of Responding Party's conduct was within the scope of rights, duties, and obligations of certain statutes, including those in the Public Utilities and Government Code, and Responding Party's statutory compliance precludes the relief sought by Plaintiffs.

(b) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(c) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

Seventh Affirmative Defense

(a) On information and belief, the First Amended Verified Complaint, in whole and through each separately stated count contained therein, fails to allege any actual injury upon which any relief may be granted, including any violation of law or illegal expenditure of taxpayer funds attributable to Responding Party, and Responding Party further alleges that Plaintiffs have not suffered any damages or costs recoverable upon judgment, if any, for any writ sought, including but not limited to those identified in Cal. Code Civ. Proc. Part 3 Tit. 1, *et seq*. Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(b) Plaintiffs, and each of them. Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(c) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

Eighth Affirmative Defense

(a) On information and belief, Plaintiffs waited an unreasonable period of time before asserting their claims, if any, against Responding Party, and are therefore barred from asserting such claims under the Doctrine of Laches. For example, the First Amended Verified Petition alleges illegal conduct by SMUD's originating from smart meters installed over ten years ago, attributing alleged police conduct to data "supplied by SMUD" "in the 2015 – 2017 period," and SMUD has made its Privacy Policy freely available, including online, since at least 2015, which, like every subsequent version, the current version having been last updated in 2018, disclose the information

collection, use, and sharing in which SMUD engages. Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(b) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(c) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

Ninth Affirmative Defense

(a) On information and belief, the First Amended Petition fails to state any factual or legal bases to support any claim for attorney fees, including but not limited to those recoverable under Cal. Code Civ. Proc. § 1021.5 or any other provision of law. Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(b) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(c) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

Tenth Affirmative Defense

(a) On information and belief, Plaintiffs' prayer for "declaratory judgment" is barred because Plaintiffs have failed to allege any justiciable controversy, and thus there is no declaratory relief as Petitioners pray. Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(b) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(c) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

Eleventh Affirmative Defense

(a) On information and belief, if Responding Parties are subjected to any liability by Plaintiffs, it will be due in whole or in part to the acts and/or omissions of other parties or parties unknown at this time, including law enforcement agencies or agents, for example, because SMUD

simply provides information upon law enforcement request or relative to a law enforcement investigation, and any relief obtained should be barred or reduced according to law, up to, and including, the whole thereof. Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(b) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(c) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

Twelfth Affirmative Defense

(a) On information and belief, Plaintiffs assert claims which are barred in whole or in part by the Tort Claims Act and/or the Doctrine of Sovereign Immunity. Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(b) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(c) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

Thirteenth Affirmative Defense

(a) Responding Party alleges that it may have additional defenses that cannot be articulated due to Plaintiffs' failure to particularize their claims, due to the fact that Defendants do not have copies of certain documents bearing on Plaintiffs' claims, and due to Plaintiffs' failure to provide more specific information concerning the nature of the claims for which Plaintiffs allege Responding Party may share some responsibility. Responding Party therefore reserves the right to assert additional defenses upon further particularization of Plaintiffs' claims, upon examination of the documents provided, upon discovery of further information concerning the claims and prayer for relief, or upon the development of other pertinent information.

(b) Responding Party does not have personal knowledge sufficient to respond fully to this Interrogatory.

(c) Responding Party does not have personal knowledge sufficient to respond fully to

this Interrogatory.

Case No. 34-2022-80004019 **ANSWER TO FIRST AMENDED VERIFIED PETITION FOR WRIT OF MANDATE AND COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF** Assigned to Dept. 21 Action Filed: September 21, 2022 Trial Date: None Set

Defendants SACRAMENTO MUNICIPAL UTILITY DISTRICT and PAUL LAU ("Defendants") by and through their undersigned attorneys, hereby submit their Verified Answer and Affirmative Defenses to Complainants ASIAN AMERICAN LIBERATION NETWORK and KHURSHID KHOJA's ("Plaintiffs") First Amended Verified Petition For Writ of Mandate and Complaint as follows:

INTRODUCTION

1. Answering Paragraph 1 of the First Amended Verified Complaint, Defendants deny

the allegations.

2. Answering Paragraph 2 of the First Amended Verified Complaint, the phrase "disclosure eviscerates their reasonable expectations of privacy and violates California law," contains conclusions of law to which no response is required. To the extent a response is required, Defendants deny the allegations therein.

3. Answering Paragraph 3 of the First Amended Verified Complaint, as to the allegations, "But with the adoption of smart utility meters, the data provides a picture that is clearer and more detailed than was possible before[,]" and "Today, smart meters provide usage information in 15-minute […] increments," Defendants admit. Except as so admitted, Defendants deny the allegations.

4. Answering Paragraph 4 of the First Amended Verified Complaint, the phrase, "For the 60% to 70% of Californians who get service from private utilities like PG&E and Southern California Edison, the California Public Utilities Commission's ("CPUC") rules allow disclosure to law enforcement only on a search warrant or a judicially approved subpoena," contains conclusions of law to which no response is required. To the extent a response is required, Defendants lack information sufficient to form a belief as to the veracity of the allegations in the Paragraph, and on that basis deny them.

5. Answering Paragraph 5 of the First Amended Verified Complaint, the allegations are conclusions of law to which no response is required. To the extent a response is required, Defendants deny the allegations.

6. Answering Paragraph 6 of the First Amended Verified Complaint, the allegations are conclusions of law to which no response is required. To the extent a response is required, Defendants deny the allegations.

7. Answering Paragraph 7 of the First Amended Verified Complaint, Defendants admit that SMUD has given customer data to Sacramento Police Department. As to the phrase that "protected customer data," the characterization as "protected" is a legal conclusion to which no response is required. To the extent a response is required, Defendants deny the allegations. Except as otherwise stated, Defendants deny.

8. Answering Paragraph 8 of the First Amended Verified Complaint, Defendants deny the allegations that "a SMUD analyst excluded homes in a predominately white neighborhood," Except as so denied, Defendants lack information sufficient to form a belief as to the veracity of the allegations in Paragraph 8 and deny on that basis.

9. Answering Paragraph 9 of the First Amended Verified Complaint, the phrase, "SMUD is supposed to prevent the disclosure of electricity usage and customer data because of its potential for abuse" contains conclusions of law to which no response is required. To the extent a response is required, Defendants deny the allegations. As to the phrase, "SMUD's policies say that 'privacy is fundamental,' that it 'strictly enforce[s] privacy safeguards,' and that it discloses to law enforcement only as allowed by law," Defendants admit the allegations contained therein. Except as otherwise stated, Defendants deny the allegations.

10. Answering Paragraph 10 of the First Amended Verified Complaint, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them.

11. Answering Paragraph 11 of the First Amended Verified Complaint, the phrase, "Sacramento Police and SMUD's data-sharing practices and policies violate mandatory duties imposed on both under the California Constitution, Public Utilities Code § 8381, and Government Code § 6254.16" contains conclusions of law to which no response is required. To the extent a response is required, Defendants deny the allegations. Except as so stated, Defendants admit.

THE PARTIES

12. Answering Paragraph 12 of the First Amended Verified Complaint, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them.

13. Answering Paragraph 13 of the First Amended Verified Complaint, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them.

14. Answering Paragraph 14 of the First Amended Verified Complaint, as to the allegation, "targeting of the Asian community," Defendants deny. Except as so denied, the

allegations are conclusions of law to which no response is required. To the extent a response is required, Defendants deny the allegations.

15. Answering Paragraph 15 of the First Amended Verified Complaint, as to the phrase "Respondents are public officials who are engaged in purposeful and systematic violations of their public duties," Defendants deny. Except as so denied, the allegations are conclusions of law to which no response is required. To the extent a response is required, Defendants deny the allegations.

16. Answering Paragraph 16 of the First Amended Verified Complaint, as to the phrases "and on information and belief, have also paid, in the one year prior to this Complaint, one or more taxes that fund SMUD," and "Lau […] [is] expending public funds," "expenditure of public funds" Defendants deny. Further, as to allegations regarding other Parties' use of public funds, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them. Except as otherwise stated, the allegations are conclusions of law to which no response is required. To the extent a response is required, Defendants deny the allegations.

17. Answering Paragraph 17 of the First Amended Verified Complaint, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them.

18. Answering Paragraph 18 of the First Amended Verified Complaint, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them.

19. Answering Paragraph 19 of the First Amended Verified Complaint, as to the allegation that Plaintiff Kurshid Khoja is a Petitioner in this Action, Defendants admit. As to the phrases, "Respondent's illegal government actions in his capacity as a taxpayer to restrain and prevent their illegal expenditures, "illegal practices to release confidential and sensitive data," and "Respondents' use expenditure of public funds, including their payment of salaries to employees to administer and implement the complained of practices, is an unlawful use of funds and should be enjoined," are legal conclusions or contentions to which no response is required. To the extent a

response is required, Defendants deny the allegations. As to the phrase, "Khoja has paid one or more taxes that fund the City of Sacramento within one year of the date of this Complaint," and as to other Parties' "expenditure of public funds, including their payment of salaries to employees to administer and implement the complained of practices," Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them. As to the phrase, "and on information and belief, has also paid, in the one year prior to this Complaint, one or more taxes that fund SMUD," Defendants deny the allegations.

20. Answering Paragraph 20 of the First Amended Verified Complaint, as to the phrases "Khoja also has a clear, present, and beneficial interest in Respondents' performance of their statutory and constitutional duties, as set forth in this complaint," "Also, Khoja has a substantial public interest in the enforcement of Respondents' duties to safeguard the confidentiality of electricity usage and subscriber data because the disclosure of such sensitive information can be misused to target members of a particular community," "Additionally, Respondents' unlawful practices have led to huge penalties being wrongfully imposed on innocent property owners and undermined the fair administration of the laws," and "Respondents are public officials who are engaged in purposeful and systematic violations of their public duties, so this Court's intervention is the only adequate remedy available to Khoja," are legal conclusions to which no response is required. To the extent a response is required, Defendants deny the allegations. As to all other allegations in the Paragraph, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them.

21. Answering Paragraph 21 of the First Amended Verified Complaint, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them.

22. Answering Paragraph 22 of the First Amended Verified Complaint, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them.

23. Answering Paragraph 23 of the First Amended Verified Complaint, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis

deny them.

24. Answering Paragraph 24 of the First Amended Verified Complaint, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them.

25. Answering Paragraph 25 of the First Amended Verified Complaint, as to the allegation that Alfonso Nguyen is a Petitioner in this Action, Defendants admit. As to the phrases, "Respondents SMUD and Lau's illegal government actions in his capacity as a taxpayer to restrain their illegal expenditures, "Respondent Lau is expending public funds in furtherance of illegal practices that release confidential and sensitive data. Respondent Lau's expenditure of public funds, including payment of salaries to administer and implement the complained of practices, is an unlawful use of funds and should be enjoined," the allegations are legal conclusions or contentions to which no response is required. To the extent a response is required, Defendants deny the allegations. Except as otherwise stated, Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them.

26. Answering Paragraph 26 of the First Amended Verified Complaint, as to the allegation "Nguyen sues," Defendants admit. As to the phrase, "Nguyen has suffered," and "to ensure that no member of the public is ever subjected to the type of law enforcement encounters he has endured" Defendants lack information sufficient to form a belief as to the veracity of the allegations and on that basis deny them. Except as otherwise stated, all other allegations in the Paragraph are conclusions of law to which no response is required. To the extent a response is required, Defendants deny the allegations.

27. Answering Paragraph 27 of the First Amended Verified Complaint, as to the allegations "Each of the Petitioners brings this action," and Petitioners seek "injunctive and declaratory relief" as part of their First Amended Verified Complaint, Defendants admit. As to the allegations "in the public interest and on behalf of the general public, and no Petitioner seeks any individual relief greater than the relief they seek for the general public," and "that would prevent Respondents from unlawfully disclosing or requesting private customer utility data in the manner that Respondents have been doing for years," the allegations are legal conclusions to which no

response is required. To the extent a response is required, Defendants deny the allegations.

28. Answering Paragraph 28 of the First Amended Verified Complaint, as to the phrases "SMUD is the nation's sixth-largest community-owned electric service provider and serves over 600,000 electric subscriber accounts in the Sacramento Valley," and the allegation Paul Lau is a SMUD director, Defendants admit. Except as so stated, the remaining allegations are legal conclusions to which no response is required. To the extent a response is required, Defendants deny the allegations.

29. Answering Paragraph 29 of the First Amended Verified Complaint, Defendants admit that Lau is SMUD's current Chief Executive Officer. Except as so admitted, the allegations in the Paragraph are legal conclusions to which no response is required.

30. Answering Paragraph 30 of the First Amended Verified Complaint, Defendants admit.

31. Answering Paragraph 31 of the First Amended Verified Complaint, as to the phrase "Katherine Lester is the current Chief of Police of the Sacramento Police Department[,]" Defendants admit. All other allegations in the Paragraph are legal conclusions to which no response is required.

32. Answering Paragraph 32 of the First Amended Verified Complaint, Defendants admit.

AFFIRMATIVE DEFENSES

Defendants assert the affirmative defenses below. By alleging these defenses, Defendants do not admit they have the burden of proof or burden of persuasion as to any of these defenses.

FIRST AFFIRMATIVE DEFENSE

(Failure to State a Cause of Action)

As a second separate and distinct affirmative defense, Defendants are informed, believe, and thereon allege the First Amended Verified Petition, in its entirety and through each and every purported count thereof, fails to state a claim for which relief can be granted against these answering Defendants.

SECOND AFFIRMATIVE DEFENSE

(Statute of Limitations)

As a first separate and distinct affirmative defense, Defendants are informed, believe, and thereon allege the First Amended Verified Petition fails to state facts sufficient to support any claim for relief.

THIRD AFFIRMATIVE DEFENSE

(Failure to Exhaust Administrative Remedies)

As a third separate and distinct affirmative defense, Defendants are informed, believe, and thereon Petitioners have failed to exhaust the administrative remedies available to them.

FOURTH AFFIRMATIVE DEFENSE

(Lack of Standing)

As a fourth separate and distinct affirmative defense, Defendants are informed, believe, and thereon allege that Petitioners have no standing to bring any action against either of these answering Defendants, or both of them.

FIFTH AFFIRMATIVE DEFENSE

(Waiver & Consent)

As a fifth separate and distinct affirmative defense, Defendants are informed, believe, and thereon allege that Petitioners, by their own acts and/or omissions, have waived their rights, if any,

to relief against these answering Defendants, and have acted in concert with Defendants and knowingly and willingly consented to Defendants' conduct, such that the First Amended Verified Petition, and each count therein, are therefore barred in whole or in part by the Doctrines of Waiver and Consent.

SIXTH AFFIRMATIVE DEFENSE

(Statutory Compliance)

As a sixth separate and distinct affirmative defense, Defendants are informed, believe, and thereon allege that all conduct of Defendants was within the scope of rights, duties, and obligations of certain statutes, and Defendants' statutory compliance precludes the relief sought by Petitioners.

SEVENTH AFFIRMATIVE DEFENSE

(No Actual Injury)

As a seventh separate and distinct affirmative defense, Defendants are informed, believe, and thereon allege that the First Amended Verified Petition, in whole and through each separately stated count contained therein, fails to allege any actual injury upon which any relief may be granted, including any violation of law or illegal expenditure of taxpayer funds attributable to these answering Defendants, and Defendants further allege that Petitioners have not suffered any damages or costs recoverable upon judgment, if any, for any writ sought, including but not limited to those identified in Cal. Code Civ. Proc. Part 3 Tit. 1, *et seq*.

EIGHTH AFFIRMATIVE DEFENSE

(Laches)

As an eighth separate and distinct affirmative defense, Defendants are informed, believe, and thereon allege that Petitioners waited an unreasonable period of time before asserting their claims, if any, against these answering Defendants, and are therefore barred from asserting such claims under the Doctrine of Laches.

NINTH AFFIRMATIVE DEFENSE

(No Recoverable Attorney Fees)

As a ninth separate and distinct affirmative defense, Defendants are informed, believe, and

thereon allege that the First Amended Verified Petition fails to state any factual or legal bases to support any claim for attorney fees, including but not limited to those recoverable under Cal. Code Civ. Proc. § 1021.5 or any other provision of law.

TENTH AFFIRMATIVE DEFENSE

(No Justiciable Controversy)

As a tenth separate and distinct affirmative defense, Defendants are informed, believe, and thereon allege that the prayer for "declaratory judgment" asserted in the First Amended Verified Petition is barred in that Petitioners have failed to allege any justiciable controversy.

ELEVENTH AFFIRMATIVE DEFENSE

(Acts of Other Parties)

As an eleventh separate and distinct affirmative defense, Defendants are informed, believe, and thereon allege that, if Defendants are subjected to any liability by Petitioners herein, it will be due in whole or in part to the acts and/or omissions of other parties or parties unknown at this time, and any relief obtained by Petitioners against these answering Defendants should be barred or reduced according to law, up to, and including, the whole thereof.

TWELFTH AFFIRMATIVE DEFENSE

(Government Immunity)

As a twelfth separate and distinct affirmative defense, Defendants are informed, believe, and thereon allege that the First Amended Verified Complaint is barred in whole or in part by the Tort Claims Act and/or the Doctrine of Sovereign Immunity.

THIRTEENTH AFFIRMATIVE DEFENSE

(Additional Defenses)

As a thirteenth separate and distinct affirmative defense, Defendants allege that they may have additional defenses that cannot be articulated due to Petitioners' failure to particularize their claims, due to the fact that Defendants do not have copies of certain documents bearing on Petitioners' claims, and due to Petitioners' failure to provide more specific information concerning the nature of the claims for which Petitioners allege Defendants may share some responsibility. Defendants therefore reserve the right to assert additional defenses upon further particularization

of Petitioners' claims, upon examination of the documents provided, upon discovery of further information concerning the claims and prayer for relief, or upon the development of other pertinent information.

PRAYER

WHEREFORE, Defendants pray for judgment as follows:

1. That Petitioners receive no relief sought and recover no fees or costs by the Petition;
2. That the Court enter judgment in favor of Defendants;
3. That Defendants recover their costs of suit;
4. For any such other and further relief as the Court deems just and proper.

lists? 09:48:06
A. Yes. 09:48:06
Q. What time period did you work with her? 09:48:07
A. 2017, when I transferred to the South Patrol 09:48:09
Substation, I would assume, until I left in 2019. But 09:48:14
I -- I believe our relationship continued beyond that. 09:48:19
I just don't recall the specific date that we no 09:48:29

Now, the ZIP code list, is it correct to say 09:54:07
that you request them on a kind of rough quarterly 09:54:10
schedule? 09:54:13
A. Roughly, yes. 09:54:14
Q. And what is that schedule? 09:54:15
A. I don't know the specific months. 09:54:17
Q. But sort of Quarter 1 list, Quarter 2 list, 09:54:22
Quarter 3 list, and Quarter 4 list. Correct? 09:54:27
A. Essentially, yes. 09:54:29
Q. Okay. So when you make the request, it's not 09:54:30
a request in response to a particular event. It's 09:54:32
just kind of, 'it's time now.' Correct? 09:54:34
A. Correct. 09:54:35
Q. And the specific dates or months where you 09:54:36
make that first quarter request might vary. Is that 09:54:42
fair to say? 09:54:46
A. Yes. 09:54:50
Q. Other than these quarterly lists, are there 09:54:50
other specific requests that you have made during your 09:54:52
time as Administrative Analyst where it's not just a 09:54:54
quarterly list, but something different? 09:54:58
A. I do make requests for historical records. 09:55:00
Q. Let me back up for a second. I'm still 09:55:05
talking about the ZIP code list, not the historical or 09:55:07
other types of information you might get from SMUD. 09:55:11

be our back and forth between myself and SMUD. 10:15:14
Q. Other than the MCT teams -- let me back up. 10:15:24
Once you obtained the ZIP code list from 10:15:28
SMUD, you send a request, you get something back from 10:15:31
SMUD, am I correct that it's mostly an Excel 10:15:34
spreadsheet? 10:15:38
A. Yes. 10:15:39
Q. And it had -- that Excel spreadsheet has 10:15:39
names and addresses, et cetera. Correct? 10:15:45
A. Yes. 10:15:46
Q. What do you do with that information? 10:15:47
Let's say, what do you currently do? 10:15:55
A. I take all of the addresses and confirm 10:15:59
whether or not they were within the City of Sacramento 10:16:02
or the County of Sacramento. A lot of our ZIP codes 10:16:05
overlap jurisdictions. So I determine that piece 10:16:08
first. 10:16:13
Q. And how do you determine that piece? 10:16:13
A. I run them through our -- or it's - not our. 10:16:15
It's the Sacramento County Parcel Viewer system. 10:16:18
Q. Do Sac County addresses have Sacramento as 10:16:21
the city address? 10:16:27
A. Yes. 10:16:31
Q. Okay. So there are Sacramento City addresses 10:16:32
that are actually located in this county and not in 10:16:35

the city. 10:16:39
A. That, I don't know, specifically. 10:16:41
Q. Why do you remove the Sac County addresses? 10:16:42
A. Because they're outside of our jurisdiction. 10:16:48
Q. And then once you have removed the Sac County 10:16:57
addresses, what do you do? 10:17:00
A. I send the list back to SMUD. 10:17:01
Q. And so you would send it back to someone like 10:17:05
Jason Burkhalter. Correct? 10:17:07
A. Correct. 10:17:18
Q. Let me back up. 10:17:18
On these requests, do you request all ZIP 10:17:19
codes that cover the entire City of Sacramento? 10:17:20
A. Yes. 10:17:22
Q. So you're really requesting ZIP codes that -- 10:17:23
the entire City of Sacramento, and because the ZIP 10:17:30
codes are not congruent with the City, you obtain 10:17:33
information for addresses outside and in the county. 10:17:36
Correct? 10:17:42
A. Yes. Because there are ZIP codes that 10:17:43
overlap between the City and the County boundaries. 10:17:45
So I do get information that's not applicable to the 10:17:48
City, yes. 10:17:52
Q. And it's not applicable because Sac PD, its 10:17:53
jurisdiction is the Sacramento, not the county. 10:18:03

A. I don't know specifically what's included. 10:21:44
But, yes, names, addresses, usage. I can't recall all 10:21:47
of the information that they include. 10:21:53
Q. There is a pattern or there's not a pattern. 10:21:54
Do they say that? 10:21:59
A. I believe, at one point they did indicate in 10:22:00
some way. But I don't recall without looking back 10:22:03
what specifically that was. 10:22:06
Q. Has that request for patterns -- the practice 10:22:07
of asking for, kind of, these patterns, has that 10:22:12
changed in any way in the last two years? 10:22:16
A. I don't recall, specifically. 10:22:22
Q. How about, do you generally recall? 10:22:25
A. No, I don't recall. 10:22:28
Q. So you get these responsive results with 10:22:31
some -- in response to the request for patterns. And 10:22:36
I should say pattern usage. Is that a fair term? 10:22:40
A. Sure. 10:22:43
Q. Okay. What do you do with those responsive 10:22:44
results? 10:22:49
A. I will put them onto a spreadsheet and add in 10:22:50
the owner -- property owner information from the Sac 10:22:56
County Parcel Viewer. And then I will look back at 10:23:02
our historical records and our records management 10:23:05
system to determine if we have had any sort of prior 10:23:10

contact with those locations. 10:23:14
Q. Why do you -- let me phrase it my way. 10:23:23
What you do is correlate the information that 10:23:25
SMUD gives you with who owns the property, 10:23:28
essentially. Is that correct? 10:23:31
A. Yes. 10:23:32
Q. Okay. And you create a spreadsheet of kind 10:23:33
of what the subscriber's name is for the electricity 10:23:36
at SMUD, and then what -- who owns the property. 10:23:40
A. Correct. 10:23:43
Q. Why do you do that? 10:23:44
MR. KIM: Objection - to the extent it calls 10:23:46
for speculation. 10:23:48
If you know, you can answer. 10:23:50
THE WITNESS: I don't know. 10:23:51
Q. BY MR. AGARWAL: Do you know who would know 10:23:56
why you do that? 10:23:58
A. No. 10:23:59
Q. So it's just something that you do and you 10:24:03
don't know why you do that. 10:24:06
A. Yes. 10:24:10
Q. Does that information help you determine 10:24:13
whether someone is a tenant, possibly? 10:24:16
A. It could. 10:24:21
Q. Meaning, if there is a differentiation 10:24:22

own spreadsheet, what do you do with it? 10:25:28
A. What do you mean, what do I do with it? 10:25:32
Q. You create a spreadsheet. What do you do 10:25:34
with the spreadsheet? 10:25:36
A. That list that I create is maintained for 10:25:38
historical purposes. And then I will take a second -- 10:25:40
it's a secondary version of that spreadsheet and 10:25:46
remove all of the property owner information and 10:25:50
tenant name information. 10:25:54
So, essentially, they were just listed -- or, 10:25:55
excuse me, it's just left with usage and location and 10:25:58
then the notes that we have made on prior contacts and 10:26:01
provide that to the team. 10:26:04
Q. Okay. And why do you remove the name -- I 10:26:06
forgot what you said. You remove the name of the 10:26:12
individual. Correct? 10:26:14
A. We remove the names, yes. 10:26:14
Q. And what is the other thing you remove? 10:26:16
A. I believe it's the property owner address 10:26:18
section. 10:26:21
Q. Let me make sure I understand this. We'll 10:26:23
look at some of these. 10:26:26
You remove the name of the individual who is 10:26:27
the SMUD subscriber on the list. Correct? 10:26:30
A. Yes. 10:26:32

Q. And then do you remove the name of the 10:26:32
property owner? 10:26:34
A. I believe so, yes. 10:26:36
Q. Well, do you remember doing this or not? 10:26:37
A. I don't know what information I specifically 10:26:41
remove without looking at it. 10:26:43
Q. Okay. And then you remove the owner's 10:26:48
property address. 10:26:50
A. Again, I don't remember the specific 10:26:51
information that I remove. 10:26:53
I just know that I do remove information when 10:26:55
I provide it to the team, yes. 10:26:57
Q. And then you upload that to a shared drive; 10:26:59
is that correct? 10:27:02
A. I typically will e-mail it to the respective 10:27:04
Sergeant. 10:27:07
Q. So today, if you were to do that, it would be 10:27:09
Sergeant Vu. 10:27:15
A. Correct. 10:27:20
Q. Do you have those e-mails? 10:27:21
A. I'm sure they're in our archive somewhere, 10:27:22
yes. 10:27:25
Q. And you refer to a records management system. 10:27:26
What is that? 10:27:28
A. The program is Versadex; and it's a records 10:27:33

Q. Is there anything else? 10:29:44
A. That I use it for, for that purpose, no. 10:29:48
Q. What other information are you aware that 10:29:50
Versadex contains? 10:29:55
A. A plethora of information. Property 10:29:56
information, persons information. It's extensive. 10:29:57
Q. Is this Versadex a system used by the City or 10:30:06
just by the Sac PD? 10:30:10
A. That, I don't know. 10:30:12
Q. Okay. All right. You create your 10:30:13
spreadsheet and you said you created a secondary 10:30:20
spreadsheet which you e-mail to the Sergeant. 10:30:23
Correct? 10:30:26
A. Yes. 10:30:26
Q. Why do you remove the names and other 10:30:26
information that you do remove for the secondary 10:30:31
spreadsheet? 10:30:34
MR. KIM: I'll object to the extent it calls 10:30:35
for speculation.
But then if you know, you can answer. 10:30:38
THE WITNESS: So it's double blind for them 10:30:39
to not have name information. It's just simply the 10:30:42
information to begin the investigation. 10:30:44
Q. BY MR. AGARWAL: And am I correct that that 10:30:48
was not always the practice? 10:30:51

A. Yes. 10:30:52
Q. When did that become the practice? 10:30:52
A. I do not recall. 10:30:55
Q. How did you become aware that you were 10:30:56
supposed to do this double blind secondary 10:30:58
spreadsheet? 10:31:02
A. I don't recall how it happened. 10:31:05
Q. Did it happen because of accusations of 10:31:06
discriminatory conduct by Sac PD? 10:31:09
MR. KIM: Same objection. Calls for 10:31:13
speculation.
But if you know, you can answer. 10:31:16
THE WITNESS: That, I don't know. 10:31:16
Q. BY MR. AGARWAL: How were you informed that 10:31:17
you were to remove names and create this double blind 10:31:19
spreadsheet? 10:31:24
A. I don't recall. 10:31:24
Q. Did a particular person tell you that? 10:31:25
A. I don't recall. 10:31:33
Q. Sitting here today, you don't know why you 10:31:33
created the double blind spreadsheet -- excuse me -- 10:31:36
you don't know how it is you came to create the double 10:31:39
blind spreadsheet. 10:31:42
A. Correct. I don't recall. 10:31:44
Q. Do you know when that double blind 10:31:45

is. I simply request historical information. And I 10:58:36
don't know what that means to SMUD. 10:58:40
They just provide the information. 10:58:42
Q. Okay. Am I correct that you request it 10:58:44
because the City Attorney requested it? 10:58:47
A. Correct. 10:58:50
Q. Is there any other reason you would request 10:58:51
historical information, other than the City Attorney 10:58:53
requested it? 10:58:56
A. For myself, not that I can think of, no. 10:58:58
Q. So in a way, you're kind of a conduit for the 10:59:01
City Attorney. Correct? 10:59:05
A. Yes. 10:59:06
Q. And just to be clear for the record, 10:59:06
historical information is name, account, subscriber, 10:59:13
and how much a person - a particular address has used 10:59:17
over time, years. Is that right? 10:59:22
A. I believe that all that information is 10:59:25
included, yes. 10:59:26
Q. And it could include things like every month 10:59:27
in a year or for multiple years. Correct? 10:59:30
A. I believe so, yes. 10:59:34
Q. You referred to using the list, I think, to 10:59:35
send letters sometimes. 11:00:26
A. Yes. 11:00:28

Q. And are those letters -- tell me what those 11:00:28
letters and assets are. 11:00:37
A. They're, essentially, a warning letter, 11:00:38
stating something to the effect -- and I'm 11:00:40
paraphrasing, so please don't quote me. We suspect 11:00:43
that there may be illegal activities occurring. And 11:00:46
we cite sections of the City Code that we're referring 11:00:51
to. And we ask them to contact our team to rectify 11:00:55
the situation. 11:01:02
Q. Okay. I'll show you some of those letters 11:01:03
later. But, in essence, you use this SMUD subscriber 11:01:05
data that you receive to generate those letters. 11:01:09
Correct? 11:01:13
A. Yes, that's one of the things. 11:01:15
Q. Have you ever had any meetings at SMUD? 11:01:21
A. No. 11:01:27
Q. Okay. In front of you, there's some white 11:01:27
binders, and there's one entitled Volume 1, there's 11:02:35
one titled Volume 2. And inside there are tabs. 11:02:39
Would you take the one that has Volume 1 written on 11:02:42
it. 11:02:45
MR. AGARWAL: And, Counsel, I don't have 11:02:47
copies for you in physical form, but I have e-mailed 11:02:49
to you a link to obtain the very same documents that 11:02:51
are tabbed here. 11:02:55

Q. Now, earlier we talked about a form. Is this 11:06:34
the form that you used, typically? 11:06:37
A. Yes, some version of this form. 11:06:42
Q. Okay. And this form comes as a form to you 11:06:45
from SMUD. Correct? 11:06:50
A. Yes. 11:06:51
Q. In one way, shape, or form, you obtained it 11:06:51
from SMUD. Right? 11:06:55
A. Yes. 11:06:56
Q. And then you fill out the boxes. For 11:06:56
example, you put your name under the name field. 11:06:58
Correct? 11:07:00
A. Yes. 11:07:00
Q. Do you see the language at the top? It says: 11:07:01
"This request is being made by law enforcement," et 11:07:04
cetera, et cetera. 11:07:07
A. Yes. 11:07:09
Q. Okay. That comes pre-printed to you from 11:07:10
SMUD. Correct? 11:07:12
A. Yes. 11:07:15
Q. Okay. And have you ever read -- there are 11:07:16
some citations to what's called the Government Code. 11:07:17
Have you ever read any of these sections? 11:07:19
A. No. 11:07:21
Q. Okay. And it says here: "This request is 11:07:22

1 made by law enforcement as part of an ongoing 11:07:24
2 investigation, and documents associated herewith are 11:07:27
3 protected from production." 11:07:31
4 Do you have any guidance in terms of what is 11:07:34
5 and is not an ongoing investigation? 11:07:37
6 A. I do not. 11:07:39
7 Q. Have you ever been given oral instruction as 11:07:40
8 to what qualifies as an ongoing investigation? 11:07:43
9 A. Not that I recall, no. 11:07:46
10 Q. Have you had discussions with anyone 11:07:47
11 internally about what is or is not an ongoing 11:07:49
12 investigation? 11:07:53
13 A. Not that I can specifically recall, no. 11:07:54
14 Q. When you request a ZIP code list, do you do 11:07:56
15 anything to -- do you do anything to assess whether or 11:08:00
16 not the request is being made in an ongoing 11:08:05
17 investigation? 11:08:07
18 A. Can you rephrase, please? 11:08:10
19 Q. Do you apply any specific criteria to asses 11:08:12
20 whether the request is made in an ongoing 11:08:16
21 investigation? 11:08:19
22 A. No. 11:08:20
23 Q. Have you ever received any guidance from 11:08:20
24 anybody at SMUD as to what is and is not an ongoing 11:08:23
25 investigation? 11:08:27

1 You can answer if you know. 11:40:40
2 THE WITNESS: I don't know specifically what 11:40:41
3 I was referencing to with that statement. 11:40:43
4 Q. BY MR. AGARWAL: Okay. Forget about 11:40:45
5 specifically. 11:40:47
6 Generally, in that time period, do you recall 11:40:48
7 learning that things were uncertain because there was 11:40:51
8 a lawsuit pending? 11:40:54
9 MR. KIM: Same objection. 11:40:55
10 THE WITNESS: And I still don't know exactly 11:40:56
11 what I was referring to, generally or specifically. 11:40:58
12 Q. BY MR. AGARWAL: Okay. Then it says: "Not 11:41:02
13 getting SSN and DL isn't necessarily problematic, but 11:41:03
14 they cycle/pattern piece could be." 11:41:08
15 And your testimony is you don't know what 11:41:12
16 cycle and pattern is. Right? You don't know what 11:41:16
17 cycle and pattern is. You don't know what you're 11:41:18
18 talking about there. Right? You just copy data. Is 11:41:19
19 that correct? You don't remember specifically what 11:41:26
20 you meant by cycle/pattern piece. Correct? 11:41:28
21 A. It's my understanding that cycle and pattern 11:41:31
22 refers to whatever SMUD can see on their end of 11:41:36
23 things. They can see in the data information that 11:41:41
24 leads them to believe that there are cycles and 11:41:45
25 patterns. 11:41:47

Q. And why was it problematic, if you didn't 11:41:48
receive cycle and pattern information? 11:41:52
MR. KIM: Objection to the extent it calls 11:41:56
for speculation. 11:41:58
Q. BY MR. AGARWAL: Well, let's look at your 11:41:59
words. "Not getting the SSN and DL isn't necessarily 11:42:00
problematic, but they" -- 11:42:04
And is it correct "they" means "the" here? 11:42:05
It's a typo. 11:42:08
A. Yes. 11:42:09
Q. -- "but the cycle/pattern piece could be." 11:42:10
Why did you say in December of 2022 that not 11:42:13
getting cycle and pattern information could be 11:42:17
problematic? 11:42:20
Let me guess, you don't know, you don't 11:42:21
remember, you just copy data. Is that correct? 11:42:23
A. I can't specifically recall why I said that 11:42:27
at the time. But we don't -- I don't use the Social 11:42:30
Security and driver's license information, so that's 11:42:38
why that piece is not problematic. 11:42:40
That's not part of what I need to proceed in 11:42:42
my role of this. 11:42:45
In terms of the cycle/pattern usage, it could 11:42:47
be problematic, and this is -- based on how I'm 11:42:51
understanding, how I'm interpreting this back two 11:42:57

1 years ago, the cycle and pattern piece could be 11:43:01
2 problematic because that's how -- that's some of the 11:43:03
3 information that we utilize to begin an investigation. 11:43:07
4 Q. Thank you. 11:43:11
5 Looking at -- looking at the second page of 11:43:15
6 Exhibit 5, it's sort of at the bottom, there's an 11:43:34
7 e-mail of September 14th. Do you see that? 11:43:44
8 A. Yes. 11:43:46
9 Q. And it's an e-mail from Jason Burkhalter. He 11:43:47
10 says: "We got clarification from legal and our boss." 11:43:50
11 It kind of goes on. I'm paraphrasing. "You can start 11:43:53
12 sending over requests for residential high users. As 11:43:57
13 of now, we can give you pattern usage as long as it's 11:44:01
14 on the request form." 11:44:05
15 Do you see that? 11:44:06
16 A. Yes. 11:44:07
17 Q. Did you modify the language on the form in 11:44:07
18 response to Mr. Burkhalter's e-mail? 11:44:10
19 A. Yes. 11:44:13
20 Q. And you started requesting pattern usage. 11:44:13
21 Right? 11:44:16
22 A. Yes. 11:44:16
23 Q. And you didn't really understand what that 11:44:17
24 was, but it was something SMUD could give you. 11:44:19
25 Correct? 11:44:21

What is Arden-Arcade? 11:54:56
A. An area within Sacramento. 11:54:57
Q. And it has big houses? 11:55:01
A. I don't know for certain. 11:55:02
Q. Did you understand his e-mail to be saying 11:55:04
that the names on here who have this amount of 11:55:07
electrical usage might be the result of just having a 11:55:10
big house? 11:55:14
A. That's what he suspected, it appears, yes. 11:55:15
Q. Did you challenge him on that assertion? 11:55:18
A. No. 11:55:22
Q. Do you agree that having a big house might be 11:55:23
a reason for having electrical -- electricity usage 11:55:26
above 2800 kilowatt hours per month? 11:55:33
A. It can; it can be, yes. 11:55:38
Q. Do you agree that having electric heat can be 11:55:39
a reason why a residential user might have more usage 11:55:42
than 2800 kilowatt hours per month? 11:55:47
A. It can be, yes. 11:55:50
Q. Do you agree that having AC, air 11:55:51
conditioning, be a reason for a residential customer 11:55:55
of SMUD to have more electrical usage than 2800 11:55:59
kilowatt hours per month? 11:56:03
A. It can be, yes. 11:56:05
MR. AGARWAL: Take a look at Tab 12, then 11:56:10

we'll take a break. 11:56:13

(Whereupon Exhibit 12 was marked.) 11:56:14

11:56:15

Q. BY MR. AGARWAL: This one is -- do you agree 11:56:17

that these are -- this is an e-mail in January and 11:56:18

December between you and Mr. Burkhalter? 11:56:25

A. Yes. 11:56:31

Q. Okay. And in this e-mail, is it correct that 11:56:32

he is transmitting to you some ZIP code list 11:56:38

information of electrical usage or electrical 11:56:42

consumption data from the SMUD systems? 11:56:46

A. I'm sorry. Say that one more time. 11:56:49

Q. In this string of e-mails, did Mr. Burkhalter 11:56:50

transmit to you the attached electrical consumption 11:56:57

ZIP code information? 11:57:01

A. Yes. It looks like there's an attachment 11:57:02

included. 11:57:04

Q. The e-mails kind of span the new year, late 11:57:06

December '22, beginning of 2023 period. And looking 11:57:09

at the top e-mail, he says: "I got to 95819, but only 11:57:20

came away with a few accounts. With the kilowatt hour 11:57:32

force so low, there could be multiple reasons for 11:57:39

pattern usage. Electric heat, space heaters." 11:57:42

Do you see that? 11:57:47

A. Yes. 11:57:47

Q. Do you agree that electric heat can be a 11:57:47
reason for pattern usage? 11:57:50
A. It could be, yes. 11:57:52
Q. Do you agree that space heaters can be a 11:57:53
reason for pattern usage? 11:57:57
A. It could be, yes. 11:57:58
MR. AGARWAL: Take a look at tab -- actually, 11:58:15
let's take five minutes -- five, ten minutes. 11:58:15

(Whereupon a short break was taken.)

12:09:08
MR. AGARWAL: We're back on the record. 12:09:11
Q. Ms. Mendoza, take a look at Tab 13 in the 12:09:12
binder in front of you. 12:09:16
Will you mark that as Exhibit 13. 12:09:18
12:09:20
(Whereupon Exhibit 13 was marked.)

Q. And is Exhibit 13 an e-mail exchange you had 12:09:27
with Jason Burkhalter on or about January 18th, 2023? 12:09:33
A. Yes. 12:09:37
Q. And does the attachment there include ZIP 12:09:37
code electrical consumption data that you received? 12:09:42
A. Yes, that's what it looks like. 12:09:49
Q. And that's information that SMUD provided to 12:09:50

you? 12:09:53
A. Yes. 12:09:53
Q. And in this e-mail, it says: "There's a lot 12:09:54
more accounts above 2800 hours this month. I guess 12:10:01
everyone who had Christmas lights put them over the 12:10:04
top." 12:10:07
Do you see that? 12:10:07
A. Yes. 12:10:08
Q. Do you agree with me that Christmas lights 12:10:08
can cause residential users to use more than 2800 12:10:14
kilowatt hours per month? 12:10:22
A. It could be, yes. 12:10:24
Q. Take a look at Tab 14. Just before we do 12:10:26
that, in Tab 13, there's always a -- is this the list 12:10:37
that you get from which you remove County information? 12:10:42
A. Without further context, yes, I believe this 12:10:52
would be the initial set of data, that SMUD -- 12:10:55
Q. Do you see where at the top and the 12:10:59
attachments line it says "raw data" in Exhibit 13? 12:11:01
A. Yes. 12:11:07
Q. So does "raw" indicate anything to you? 12:11:07
A. Yes. 12:11:11
Q. That's the pre- -- that's the list from which 12:11:11
you would remove county data. Right? 12:11:15
A. Correct. 12:11:17

SMUD's Jason Burkhalter in the January 2023 period. 12:29:04
Correct? 12:29:09
A. Yes. 12:29:11
Q. Okay. And then is the last page of that 12:29:12
exhibit the pattern list that Mr. Burkhalter provides 12:29:14
to you? 12:29:20
A. Yes, that's what it looks like. 12:29:20
Q. And it has some names. And, again, has these 12:29:22
kind of notations about pattern usage. Right? 12:29:27
A. Yes. 12:29:30
Q. And this is the end result of first you get 12:29:31
the list for every ZIP code that covers Sacramento, 12:29:37
then you remove the county, you send back the list and 12:29:43
then Mr. Burkhalter sends back to you the pattern 12:29:46
list. Correct? 12:29:50
A. Correct. 12:29:50
Q. Do you agree that crypto currency mining can 12:29:51
be a reason for usage that exceeds 2800 kilowatts per 12:30:04
month? 12:30:12
MR. KIM: Objection. Calls for speculation. 12:30:12
If you know and understand, you can answer. 12:30:13
THE WITNESS: It could be, yes. 12:30:14
Q. BY MR. AGARWAL: Have you found instances 12:30:15
where officers have shown up at addresses because of 12:30:17
appearance on one of these SMUD ZIP lists and found 12:30:21

crypto currency miners? 12:30:25
A. Yes. 12:30:27
Q. Is there anything unlawful in the city of 12:30:27
Sacramento about finding crypto currency? 12:30:30
MR. KIM: Objection. Calls for a legal 12:30:33
conclusion. 12:30:34
You can answer. 12:30:34
MR. AGARWAL: To your knowledge. To your 12:30:34
knowledge. 12:30:36
THE WITNESS: Not that I'm aware of. 12:30:36
Q. BY MR. AGARWAL: When -- to your knowledge, 12:30:39
when officers show up at, let's say, a crypto currency 12:30:41
miner's residential home who's using high amounts of 12:30:46
electricity, do they shut that crypto currency mining 12:30:50
operation down? 12:30:54
A. I don't know what they do when they're there. 12:30:55
Q. Have you ever been -- do you keep track of 12:30:58
any of the results of the -- you know, how the 12:31:01
information is eventually used to send officers to 12:31:06
particular locations, like, 'I track what happened at 12:31:10
the inspection'? 12:31:17
A. The officers will write a report. 12:31:18
Q. Do you keep a spreadsheet, ma'am, where you 12:31:22
track, informally, the results of various activities 12:31:24
by the teams? 12:31:27

A. Yes. 12:45:10
Q. And you look at the spreadsheet. Right? 12:45:10
A. Yes. 12:45:12
Q. You try to understand what's in there. 12:45:13
Right? 12:45:15
A. Yes. 12:45:18
Q. And you understood and understand today that 12:45:19
when it says no evidence of grow, it means no evidence 12:45:22
of a grow was found up on the address that's listed in 12:45:26
Column C. Correct? 12:45:29
A. Yes. 12:45:30
Q. Okay. On this one, it says: "Not grow. 12:45:30
Hoop tent with veggies." 12:45:34
Do you see that? 12:45:36
A. Yes. 12:45:38
Q. Do you agree with me that someone might have 12:45:38
pattern usage because they're using a hoop tent with 12:45:40
veggies to grow veggies? 12:45:44
A. It could be, yes. 12:45:49
Q. Do you know what a hoop tent is? 12:45:51
A. I don't know what the official definition is, 12:45:52
but I know my understand of what a hoop tent is. 12:45:59
Q. What is your understanding? 12:46:00
A. It's a hoop-shaped tent that is used as a 12:46:01
greenhouse of sorts. 12:46:04

Q. What criteria did you use to certify that the 14:04:25
request is made as part of an ongoing investigation? 14:04:32
A. It's not my determination, in terms of what 14:04:38
is an ongoing investigation. 14:04:41
I am asked to request the list, and so I 14:04:43
request the list. 14:04:46
Q. It says here the requester certifies. Are 14:04:48
you the requester? 14:04:51
A. I am. 14:04:52
Q. Okay. So you don't use any specific 14:04:53
definition of ongoing investigation, right, when you 14:04:55
do this? 14:04:58
A. I am not the one that's doing the 14:04:59
investigation, no. 14:05:01
Q. You're not certifying this then. 14:05:02
A. I am certifying it. I am not doing the 14:05:04
investigation of it. 14:05:07
Q. What is the term that you have been told to 14:05:08
use, if any? What is the definition of ongoing 14:05:11
investigation that you've used in you certifying this 14:05:18
document? 14:05:19
A. I have not been provided any definitions. 14:05:19
Q. Did you even notice the change in language at 14:05:22
the top here? 14:05:26
A. I knew a language change was made at one 14:05:27

1 determines. Correct? 14:23:04
2 A. Yes. 14:23:05
3 Q. Do you know why they put a column called "PV 14:23:06
4 Flag"? 14:23:11
5 A. No. I don't know what that column means. 14:23:11
6 Q. What will you do with the information about 14:23:13
7 whether an account has or has not -- does not have 14:23:17
8 solar? 14:23:20
9 A. With an account that what? 14:23:21
10 Q. That is flagged here as having solar. 14:23:22
11 A. I wouldn't change anything in my process. 14:23:28
12 Q. Did you have an understanding of why SMUD is 14:23:31
13 flagging solar? 14:23:36
14 A. No. 14:23:37
15 Q. Would you agree with me that a residential 14:23:38
16 consumer in the City of Sacramento with a swimming 14:23:41
17 pool might use electricity in excess of 2800 kilowatts 14:23:44
18 per month because of the swimming pool? 14:23:55
19 A. I would agree it's a factor, yes. 14:23:58
20 Q. And could someone have a swimming pool and 14:23:59
21 have a pattern usage? 14:24:02
22 A. It would be possible, I'm sure, yes. 14:24:03
23 Q. Let's look at -- I asked you earlier -- 14:24:06
24 you've testified to and you have shown me the 14:24:18
25 documents or I've shown you the documents as to the 14:24:21

A. Correct. 14:44:56
Q. Did you ever send them in any language other 14:44:57
than Chinese? 14:45:00
A. No. 14:45:02
Q. Why was -- why were they sent in Chinese? 14:45:03
MR. KIM: Objection. Calls for speculation. 14:45:06
If you know. 14:45:08
THE WITNESS: I do not know. 14:45:09
Q. BY MR. AGARWAL: And you say they no longer 14:45:11
send this version, I think your testimony was. Right? 14:45:13
A. Correct. 14:45:16
Q. What version -- what is the difference now? 14:45:16
A. We no longer send the Chinese version. 14:45:20
Q. You only send it in English? 14:45:23
A. We send the English version. 14:45:25
Q. And when did that change occur? 14:45:27
A. I don't recall the specific time frame. 14:45:28
Q. This letter is dated 2022. The prior letter 14:45:31
is dated February 1, 2023. But I will tell you that I 14:45:34
get -- I have a spreadsheet that is either labeled 14:45:38
English or labeled something else.
Is at some point after August of 2022 that 14:45:43
you ceased to use and -- or cease to generate a 14:45:47
Chinese language version? 14:45:51
MR. KIM: If you know. 14:45:53

THE WITNESS: I don't recall the specific 14:45:54
date that we changed. I don't know -- 14:45:56
Q. BY MR. AGARWAL: That you changed, because 14:46:00
you generate the letters. Right? You generated these 14:46:02
letters. Right? 14:46:03
A. I generate these letters, yes. 14:46:03
Q. If I wanted to know what date you stopped 14:46:05
generating Chinese letters, how would I figure that 14:46:07
out from your documents? 14:46:10
A. I would have to look back at the letters that 14:46:13
were sent between August of 2022 date and maybe the 14:46:16
February '23 dates, since those are the two examples 14:46:25
you provided, and see if that's within that time 14:46:28
period is when we stopped. 14:46:31
Q. Did someone tell you to stop? 14:46:33
A. Yes. 14:46:35
Q. Who? 14:46:35
A. I do not know. I do not recall who 14:46:36
specifically told me. 14:46:39
Q. Is there any records that would tell me who 14:46:39
told you to stop? 14:46:42
MR. KIM: If you know of any. 14:46:45
Q. BY MR. AGARWAL: Did you get an e-mail 14:46:46
saying: 'Stop printing the Chinese version and 14:46:48
sending it out'? 14:46:52

A. Unless there was an e-mail, no, I do not have 14:46:52
any records. 14:46:55
Q. Who would you communicate about the letters 14:46:56
and things? It would be your Sergeants, right, on 14:47:00
your teams? 14:47:01
A. It would be my Sergeants or my Lieutenants. 14:47:02
I don't recall if Peletta was still there at the time. 14:47:07
He could have still had involvement. 14:47:10
Q. Okay. Lieutenant Vu. And is it Robert 14:47:16
Young? 14:47:31
A. Sergeant Vu is my current Sergeant. He's 14:47:31
only been there for a handful of months, so he was not 14:47:34
a part of either of these timeframes. 14:47:36
I don't know who the Lieutenant was during 14:47:38
these specific -- the date ranges that we're referring 14:47:40
to. I don't know who my responsible Lieutenant was. 14:47:42
Q. Well, you gave me a list. So it was -- it's 14:47:46
not Vu. So I have to take the deposition of -- I'm 14:47:49
trying to figure out who I have to take the deposition 14:48:02
of to answer this question. It sounds like you're 14:48:04
telling me it's a Lieutenant or one of the sergeants. 14:48:06
Right? 14:48:10
A. I don't recall who made that decision, at 14:48:11
what level, whether it was a Sergeant, Lieutenant, 14:48:13
Captain, Deputy Chief. I don't know who made the 14:48:17

decision. 14:48:20
Q. So I need to take the deposition of every 14:48:20
single person in that chain, so let's talk about who 14:48:23
they are.
In between -- you're telling me it might have 14:48:24
been Peletta. He retired some years back. So 14:48:27
somewhere between August of 2022 and February of 2023, 14:48:31
I don't know, sometime after August of 2022, who was 14:48:37
your Lieutenant? Who had been your Lieutenants? 14:48:40
A. I would have to look back at records to 14:48:50
figure out who was -- who I was reporting to at that 14:48:52
time. 14:48:54
Q. And what records would you have to look at? 14:48:54
A. Transfer orders of some kind from our 14:48:57
Personnel Department. 14:48:58
Q. Is that a paper record? 14:48:58
A. I don't know if they keep paper copies or if 14:49:00
they're electronic copies. 14:49:03
Q. How do you keep that? And how do you keep 14:49:04
track of all of these transfers? 14:49:05
A. I don't keep track of them. It's not my -- 14:49:07
it's not in my job duties. 14:49:10
Q. All right. Let's go through the list. 14:49:13
Mr. Vu is your Lieutenant currently, but 14:49:16
you're saying he's been on the job a couple of months? 14:49:19

A. He is my Sergeant currently. 14:49:21
Q. Okay. Who is the Lieutenant currently? 14:49:23
A. Gerald Landberg. 14:49:25
Q. Landberg. And how long has he been around? 14:49:27
A. I would have to look at the date that he 14:49:31
transferred to his current assignment which includes 14:49:33
my supervision. 14:49:35
Q. How you would look at the dates? 14:49:38
A. I would have to contact our Personnel 14:49:39
Department for the transfer information. 14:49:42
Q. Who would you contact in Personnel? 14:49:43
A. I would make a phone call. I don't know who 14:49:45
I would speak with. 14:49:47
Q. All right. Your testimony is you don't know 14:49:49
when you got rid of the Chinese letters. Correct? 14:49:51
A. Correct. 14:49:54
Q. And you don't know why. 14:49:54
A. Correct. 14:49:55
Q. Somebody told you to get rid of the Chinese 14:49:56
letters. 14:49:58
A. Correct. 14:49:59
Q. But you don't know who. 14:49:59
A. Correct. 14:50:02
MR. KIM: Asked and answered. 14:50:03
Q. BY MR. AGARWAL: Is it correct you got rid of 14:50:11

the Chinese letters after this lawsuit was filed? 14:50:13
A. I can't speak to why or when we got rid of 14:50:16
the letter. 14:50:20
Q. My question was: Did you get rid of sending 14:50:23
the Chinese letters after this lawsuit was filed? 14:50:25
MR. KIM: Asked and answered. 14:50:29
THE WITNESS: I don't know. 14:50:30
Q. BY MR. AGARWAL: Is it correct that you sent 14:50:38
the Chinese letters for the better part of six to 14:50:39
seven years? 14:50:44
A. I can speak for the time that I was involved. 14:50:47
So from 2017, yes, those two versions were sent. 14:50:49
Q. Any other foreign language ever sent? 14:50:55
A. Not that I know of. 14:50:58
Q. And you're the person who generated the 14:50:59
letters. Correct? 14:51:05
A. I was not the only one, but, yes, I did. 14:51:05
Q. Who else generated letters? 14:51:08
A. I don't know specifically if officers created 14:51:13
them, if they had their admin staff at their 14:51:17
respective stations. I don't know how each team was 14:51:19
handling their process prior to these teams coming 14:51:23
into effect. 14:51:26
Q. Between the years of 2017 and currently, 14:51:27
anybody else you know of that generates these letters 14:51:30

Good, I just want to help as much as I can; I know it's a big ask! Yes, we know that threshold isn't always indicative of a grow, but the team knows to do their due diligence and that's why the pattern info is helpful to us.

I think it would be best if have Dustin reach out to you directly regarding what can/can't be discussed – don't want to misspeak or cause issues; is that OK with you?

Thank you!

Yeah, that works and I'll send data so you can remove County addresses. Also, 2,800 KWH is very low so you guys are going to have to do your homework. 2,800 KWH and pattern usage will probably include a lot of accounts with electric heat.

I know you are going to have some new team members in January so please remind them that when talking to the customer, leave SMUD out of it or we'll be right back here again.

Good morning!

Awesome; I'm so glad we finally have our direction! Is this verbiage sufficient for the request form: *"I am requesting a list of SMUD customers and addresses using 2,800kWh and above per month for the zip code 95811; please include meter/pattern/usage/consumption information?"*

Will you still be able to send me the 'raw' data before looking for pattern/usage so I can at least remove county locations and hopefully decrease the workload a little bit?

Thank you!

Good Morning Lindsey!

We got clarification from legal and our boss. You can start sending over requests for residential high users. As of now, we can give you pattern usage as long as it's on the request form.

However, the lower the kwh the request the longer it will take to get back to you. We don't have the manpower anymore to work on lists for hours.

Ha, I had a feeling things were still uncertain which is why I wanted to reach out to you first. Not getting the SSN and DL isn't necessarily problematic, but they cycle/pattern piece could be. I would hope if they say it's okay to provide for a single location, they wouldn't have a problem with you providing for the zip code. At this point, I agree it's best to check as it doesn't appear we're all on the same page.

Thank you for getting clarification!

Hi Lindsey,

Mike met with our attorney and gave me an update. That sounds like what they talked about which is confusing because that's what they told us to stop doing.

Unfortunately, we still can't give SSN and DL. I don't think we can go through lists and provide accounts with pattern usage but I think you can request single account pattern usage as long as it's on the request. I'll get everything clarified and get back to you.

Jason,

It sounds like our City attorney met with your SMUD attorney last week and we were told to proceed as normal with our how we make our requests (no court orders are needed); did you receive the same update?

Thank you!

I know we're still waiting for the official answer on this but I've been starting to think since a court order is required for patterns/cycles on single locations, then it would only make sense that's how our quarterly pulls will be too; right?

Yeah, it's definitely more work for your team. Hopefully, it won't be too much. I guess that's the reward you get for trying to get rid of drug houses in residential neighborhoods. LOL

Agreed, hopefully it won't get too complicated; the direction we're heading now it seems like more work for us on the front end having more locations to sort through, but it could mean more for you on the back end having to run more individual locations as we filter through them :/

Sounds good, they're drafting up a court order now…and no need to apologize, things are changing for us as well so we understand making sure we're doing things the right way to avoid any potential issues in the future. We'll get there ☺

If it's a single request, I think we'll be able to provide it but pretty much everything is on hold at the moment.

I'll try to get clarification for single requests.

Sorry, I know this makes it difficult for the team.

I can understand their reservations and assumed that will be the likely outcome as well; hopefully we'll hear back soon since we need to pull out last list for the year.

Also, I overheard the team discussing a court order now being needed in order to get cycle/pattern info on the singular requests they submit; is that correct or did I misunderstand something?

Thanks!

Good Morning Lindsey,

As of yesterday, my boss said he hasn't heard anything definite on the high user list. However, he did say that in talks with our attorneys it didn't sound like they wanted us to go through anything.

He reached out to them again yesterday so hopefully he will get a concrete answer in the next few days.

Morning Jason,

Did you ever hear back from your legal team about whether you'd be able to 'filter' the quarterly high user list for patterns/cycles if we requested through a court order/subpoena? Or will you only be able to provide the query regardless?

Hi Lindsey,

Sorry that it has taken a while but we've been working crazy hours because of the storms. I got through 95819 but only came away with a few accounts. With the KWH floor slow low, there could be multiple reasons for pattern usage, electric heat, space heaters etc.

Jason,

Hope you had a great Christmas. I wanted to check in since I should be done removing county from this first half by tomorrow; do you want me to send it back or wait until I get the next half from you so it can be done all at once?

Thank you!

Hi Lindsey,

Here is the first dump of raw data for about 12 zips. You want this in order to remove County addresses, right?

Good morning to you both!

Attached are our requests for high users within the City; please send me the initial query results so I can remove County locations for you and let me know if there's anything else you need from me.

Thank you!

Ok, here ya go. I'll have the list finished next week, maybe sooner if the weather is bad so I can spend more time working inside. ☺

Now that I think about it, feel free to send me the list from the first book if you get a chance…that way at least I can start building the list with those while you're finishing up the 2nd part.

Thank you!

Me either. Just in 64,31&23 there are 2,388 accounts.

In the previous list I sent without zips, 95864 had 227 accounts, now it has 713. The floor is very low (2,800 kwh) so it doesn't take much to for a big house to get there, especially if it has electric heat.

Umm, wow…I have never seen this many locations before and it's only 1/3 of the zips. This is going to take me a while…

Thank you!

Hi Lindsey,

I think I got it this time,LOL. There's a lot more accounts above 2800 this month. I guess everyone who had Christmas lights put them over the top.

Good Morning Lindsey,

Yes, that should work. Send it over on a request form and I'll get started. There will be a ton of accounts in the raw data if you are requesting 2800kwh because it's summer.

Jason,

I will be sure to pass the new form along to the team. If I understand correctly, I just need to update the verbiage on my requests, you will send the raw data so I can remove county and the list I send back to you is what you'll look for patterns on? Would something like this work:

"I am requesting a list of SMUD customers and addresses using 2,800kWh and above per month for the zip code 95811; please include total usage for prior month and any with 12-hr or 18-hr consumption patterns."

Thank you!

Hi Lindsay,

Yes, we have direction from our legal team. It's pretty much the same process but there's one major change. If you want pattern usage, you must be specific (i.e.,12-hour 18-hour usage patterns). They are trying to get away from anything that would require our opinion.

Also, we have a new/revised request form. If you could distribute to the team, that would be greatly appreciated.

Thanks,

Alright, we have a couple of questions:

1. As an example, this last list from April had 1,866 locations after I removed County; if I were to attach that to a subpoena, would the list you return be similar to ones you've provided in the past – meaning we would only be left with those ones showing patterns/cycles?
2. For the requests you get from the team, do you also need a subpoena to provide them anything other than name and usage?

Thank you!

Hi Lindsey,

It's funny that you reached out because we just received guidance from our legal department this morning. From now on, we can only provide name, address and KWH usage. They don't want us going through accounts and picking out pattern usage. I think they want to eliminate any perception of us providing law enforcement with too much customer information.

I know it's lame but that's all I can do for now unless you guys subpoena the info.

Jason,

I'm not sure if you were able to touch base with your boss last week but we've discussed internally and think it's probably best if we forego this list and request a new one – it's pretty outdated now and we would have been requesting in July again anyway. Is the process still the same or has your legal department made changes?

Whoa, that's a lot of accounts to look up. We are going to have to raise the KWH next list because it will be triple this amount with everyone's A/C going.

I'll send some to Mike and we'll get started on it as soon as we can. However, we are in the middle of manually disconnecting all of the commercial properties that are using power but don't have anyone on service. I'm not sure how quickly we can get this back to you but we'll get it done.

Wow, I just find that hard to believe but OK. I'll have to confirm with management (especially since this list is so small) but it's about time for our final high user request so you could be getting another round later this month.

Thank you!

Jason,

Funny, I was going to email you earlier about this and forgot to hit send…seriously, out of all those locations, there are only (4) showing high usage/patterns?

Thank you!

Lindsey,

Out of 4,800, here are the lucky winners with pattern usage.

Jason,

Well, the good news is I was able to cut the list by over half, but the bad news is there's over 4,800 locations left for you to check patterns on; please let me know if you need anything additional.

Thank you!

I don't see 95814 or 95824, just confirming there were no results for either of those areas?

5770 Freeport Blvd., Suite 100
Sacramento, CA 95822-3516

February 1, 2023

Property Owner: [redacted]
For the Property Located at: [redacted]

The Sacramento Police Department is concerned that your above-referenced property might be being used for indoor cultivation of marijuana in a manner inconsistent with the requirements of section Sacramento City Code (S.C.C.) 8.132.040.

8.132.040 Residential cultivation of cannabis reads as follows:

No person shall cultivate cannabis within a private residence or upon the grounds of a private residence unless it is conducted in accordance with this section.

A. All cultivation of cannabis must take place indoors within a single room of an allowable structure, as defined in section S.C.C. 8.132.020.

B. Regardless of how many people reside in the private residence, no more than six living cannabis plants may be cultivated within the private residence or upon the grounds of the private residence, pursuant to California Health and Safety Code section 11362.1.

C. All equipment used to cultivate cannabis, such as indoor grow lights, irrigation systems, and air filtration systems, must comply with the city building code and fire prevention code.

D. All alterations or improvements to any building or structure to accommodate cannabis cultivation must comply with the city building code and fire prevention code.

E. No cannabis, at any stage of growth or cultivation, and no evidence of cultivation occurring at the premises, may be visible from outside of the grounds of the private residence.

F. All cannabis odors must be ventilated, treated, or filtered, such that the odor cannot be detected by a reasonable person of normal sensitivity outside the of the grounds of the private residence.

G. Cannabis cultivation must not create excessive dust, heat, light, noise, smoke, traffic, or other impacts that are disturbing to people of normal sensitivity residing or present on adjacent or nearby residences, properties or areas open to the public; and must not be hazardous due to the use or storage of materials, processes, products, or wastes.

H. Cannabis cultivation areas, whether in a detached building or inside a residence, must be kept locked when not occupied.

I. Cannabis cultivation must be conducted in compliance with all other applicable state and local laws, including California Health and Safety Code sections 11362.1 through 11362.3, and the Compassionate Use Act of 1996 (California Health and Safety Code section 11362.5). (Ord. 2018-0009 § 3; Ord. 2017-0047 § 1)

Please note the following excerpts from section S.C.C. 8.132.050 Violations:

A. In addition to any other remedy allowed by law, any person who violates a provision of this chapter is subject to criminal sanctions, civil actions, and administrative penalties pursuant to chapter 1.28.

C. Civil penalties for violations of this chapter.
   1. Any person who violates a provision of this chapter is liable for civil penalties of not less than $250 or more than $25,000 for each day the violation continues, except as provided in subsection C.2.
   2. Any person who violates sections 8.132.030 or 8.132.040(B) is liable for civil penalties of an aggregate amount calculated at $500 per cannabis plant in excess of the number of plants allowed on the property.

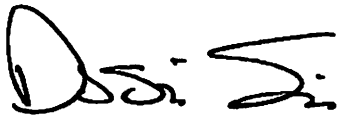
D. Any person who violates any provision of this chapter is guilty of a misdemeanor.

E. Administrative penalties for violations of this chapter are governed by chapter 1.28, except for the following:
   1. Notwithstanding the provisions of section S.C.C. 1.28.010.D.3, the amount of an administrative penalty to be imposed for a violation of sections S.C.C. 8.132.030 or 8.132.040 is an aggregate amount calculated at $500 per plant that is in excess of the number of plants allowed.

Please voluntarily correct any violation(s) that may be occurring at the property within thirty (30) days of the date of this letter. In the event of a failure to correct the violation(s), the Property Owner and/or Current Occupant may be subject to criminal prosecution, administrative penalties, and/or a civil action filed by the City of Sacramento.

The Sacramento Police Department thanks you in advance for your cooperation. Once you have corrected the above violation(s) or should you have any questions about the contents of this letter, please contact Sergeant Dustin Smith at (916) 808-0448 or dsmith@pd.cityofsacramento.org.

Thank you,



Sergeant Dustin Smith

A. Twenty-two years. 09:37:40
Q. What is your current position with SMUD? 09:37:44
A. As a revenue protection representative, also 09:37:48
known as power theft rep. 09:37:50
Q. And how long have you been in that position? 09:37:52
A. Approximately nine years, I believe. 09:37:54
Q. And before you were in the revenue 09:38:01
protection group, where were you prior to that? 09:38:02
A. A few places. Started at SMUD as a meter 09:38:04
reader, worked my way up into a customer service 09:38:10
field rep. Then I went to a senior field 09:38:17
representative, then a -- I think a senior customer 09:38:20
service field rep, which is a claims adjuster, and 09:38:25
then to power theft. 09:38:29
Q. Okay. Where is your office located? 09:38:30
A. On S Street, 6301 S Street, I believe, is 09:38:35
the address. 09:38:40
Q. So you mentioned that you are part of the 09:38:42
revenue protection group; is that correct? 09:38:45
A. Correct. 09:38:47
Q. What is the revenue protection group? 09:38:48
A. Our job is to find power theft and 09:38:52
investigate it. 09:38:57
Q. Is there anything else that is -- that you 09:39:00
are tasked with as a revenue protection group? 09:39:03

Q. What do you use Voltron for? 09:49:43
A. For detecting theft. 09:49:45
Q. Anything else? 09:49:50
A. For making those lists. 09:49:51
Q. Anything else? 09:49:56
A. Not that I can think of, off the top of my 09:50:00
head. 09:50:01
Q. Is Voltron the -- the same software as 09:50:05
Detectent? 09:50:08
A. No. 09:50:09
Q. Okay. 09:50:10
A. Completely different. 09:50:10
Q. Let's talk a little bit about Detectent, 09:50:11
then. 09:50:14
What do you use Detectent -- do you use 09:50:14
Detectent? 09:50:16
A. No. 09:50:18
Q. You don't use Detectent? 09:50:18
A. No. 09:50:22
We got rid of Detectent years ago. 09:50:23
Q. Do you remember when you got rid of it? 09:50:26
A. I don't know. It's been years. 09:50:28
Q. Do you know who the manufacturer of Voltron 09:50:36
is? 09:50:39
A. It was an engineer from SMUD -- 09:50:40

1 Q. So it's SMUD's? 09:50:43
2 A. -- who created it. 09:50:44
3 Uh-huh. 09:50:45
4 Q. Okay. So you mentioned that Voltron -- you 09:50:45
5 use Voltron -- 09:51:10
6 A. Uh-huh. 09:51:11
7 Q. -- to detect theft -- 09:51:11
8 A. Correct. 09:51:13
9 Q. -- to make lists of high energy users; is 09:51:14
10 that correct? 09:51:16
11 A. Correct. 09:51:17
12 Q. And if you wanted to view a customer's 09:51:17
13 energy usage information, would you also use -- 09:51:19
14 A. Yeah. 09:51:22
15 Q. -- Voltron for that? 09:51:22
16 THE COURT REPORTER: Can I just ask you to 09:51:27
17 pause and let her finish the question, please. 09:51:28
18 THE WITNESS: Oh, I'm sorry. 09:51:30
19 BY MS. HUSSAIN: 09:51:30
20 Q. What's the granularity of information that 09:51:35
21 you can view within Voltron? Specifically, the -- 09:51:39
22 the interval data? 09:51:44
23 MR. SCHULTZ: Vague and ambiguous as to 09:51:47
24 "granularity" and "interval data." 09:51:49
25 But you can answer, if you understand the 09:51:50

1 question. 09:51:52
2 THE WITNESS: I'm not positive I understand 09:51:52
3 what "granularity" means. 09:51:53
4 BY MS. HUSSAIN: 09:51:53
5 Q. Okay. Are you able to view smart meter data 09:51:55
6 using Voltron? 09:51:59
7 A. Yes. 09:52:00
8 Q. What is the granularity of smart meter data 09:52:02
9 that you're able to view? 09:52:04
10 A. Can you define "granularity"? 09:52:07
11 Q. What is the minimum interval you're able to 09:52:11
12 view on Voltron? 09:52:13
13 A. Interval, as in usage or -- 09:52:17
14 Q. As in duration. 09:52:20
15 A. I do not know the duration that it reports, 09:52:22
16 to be honest. 09:52:25
17 Q. Okay. When somebody is using a certain 09:52:26
18 number of kilowatt hours -- 09:52:34
19 A. Uh-huh. 09:52:35
20 Q. -- how does it break down into a time 09:52:36
21 period? How -- how narrowly can you view what 09:52:42
22 somebody -- the energy somebody is using? 09:52:46
23 A. Well, Voltron is always two days out. So 09:52:49
24 the data you're looking at is two days old. 09:52:54
25 Q. And when you're looking at the two-day-old 09:53:01

1 data, can you view it by hour? 09:53:03
2 A. Yes. 09:53:06
3 Q. Can you view it by increments less than an 09:53:08
4 hour? 09:53:11
5 A. I think there may be a way, but I -- we only 09:53:14
6 use hours. 09:53:28
7 Q. And do you use -- are you able to view 09:53:29
8 residential smart meter data using Voltron? 09:53:30
9 A. Just usage and voltage. 09:53:33
10 Q. And what about for an apartment complex? 09:53:35
11 Can you view -- 09:53:39
12 A. Same thing. 09:53:40
13 Q. Okay. And what about for a commercial 09:53:40
14 enterprise, a business? 09:53:44
15 A. Same. 09:53:46
16 Q. And so the -- the duration -- the interval 09:53:48
17 you're able to see at an hourly basis, that's for any 09:53:51
18 customer for SMUD; is that right? 09:53:56
19 A. Correct. 09:53:59
20 Q. How far back does the interval data go? 09:54:06
21 A. Thirty days. 09:54:09
22 Q. And then after 30 days, you can view -- you 09:54:13
23 cannot view any more smart meter data; is that right? 09:54:18
24 A. Correct. 09:54:20
25 Q. Okay. So we've spoken a little bit about 09:54:21

A. Correct. 10:07:47
Q. And then you went to the Voltron icon on 10:07:48
your bookmarks? 10:07:52
A. Correct. 10:07:53
So then I just go to the home screen, then 10:07:55
the search bar, and then usually the list that 10:08:00
Lindsey send over -- sends over are for, you know, 10:08:08
for residential. It's 2800 kilowatts and above is 10:08:13
what they're looking for. 10:08:18
So this -- this bar right here is some 10:08:21
kilowatt over 30 days. So this is a month cycle. So 10:08:25
I just enter 2800, and then whatever ZIP codes she's 10:08:29
requesting, that's just what was in there. You can 10:08:34
pick multiple. I'll just pick the first two just 10:08:40
because. 10:08:42
MR. SCHULTZ: I don't want to interrupt you, 10:08:47
but the court reporter still has to take down 10:08:48
everything you're saying -- 10:08:49
THE WITNESS: Oh, I'm sorry. 10:08:51
MR. SCHULTZ: -- word for word; so if you 10:08:53
can just remember to speak slowly. 10:08:54
THE WITNESS: Yes. 10:08:56
MR. SCHULTZ: Thanks. 10:08:57
BY MS. HUSSAIN: 10:08:57
Q. So what you've done is you have -- we're now 10:08:58

in a screen. And remind me: What was the previous 10:09:04
button that you pressed in order to get to this 10:09:08
screen? 10:09:10
A. So it was just a search function, right down 10:09:10
here. This just is the sum kilowatt over 30 days 10:09:16
means the total for 30 days, the kilowatts are over 10:09:21
2800, and I put the amount, which is over 2800. 10:09:25
Q. And then you can select from the upper 10:09:30
left-hand corner -- sorry, right-hand corner. 10:09:32
A. Right-hand corner. You can select ZIP 10:09:34
codes. 10:09:37
Q. And you can select ZIP codes? 10:09:37
A. Yes. 10:09:39
Q. And ZIP codes span all of SMUD's -- 10:09:40
A. Yes. 10:09:42
Q. -- jurisdiction? 10:09:43
A. Territory. 10:09:44
MR. SCHULTZ: Let her finish the answers. 10:09:44
THE WITNESS: I know. 10:09:46
MR. SCHULTZ: I know. You're doing multiple 10:09:46
things. 10:09:47
THE WITNESS: I realized it as I said it. 10:09:51
BY MS. HUSSAIN: 10:09:51
Q. Okay. What we have shown -- what was 10:09:52
attached in the Exhibit A -- 10:09:59

1 Q. And the attached list is of individuals who 10:13:21
2 are both in city and county who are using above 2800 10:13:26
3 kilowatt hours; is that right? 10:13:30
4 A. That's correct in requested ZIP codes. 10:13:32
5 Q. What does it indicate if someone is on this 10:13:37
6 list? 10:13:39
7 A. Nothing. 10:13:39
8 Q. Nothing. 10:13:40
9 A. Just that they're using over 2800 kilowatts. 10:13:43
10 That's it. 10:13:45
11 Q. What kinds of activities could someone be 10:13:47
12 engaging in to hit the 2800 kilowatt-hour threshold? 10:13:49
13 MR. SCHULTZ: Calls for speculation. 10:13:53
14 BY MS. HUSSAIN: 10:13:53
15 Q. You can go ahead and answer. 10:13:56
16 A. In the summertime, you don't have to do a 10:13:58
17 whole lot to hit 2800. 10:14:00
18 Q. What do you mean by that? 10:14:02
19 A. People who have big houses and 10:14:04
20 air-conditioning and pool. 10:14:06
21 Q. And the majority of the people on this list 10:14:13
22 are not engaged in marijuana grows; is that correct? 10:14:14
23 A. That's -- 10:14:17
24 MR. SCHULTZ: That calls -- 10:14:18
25 THE WITNESS: -- correct. 10:14:18

A. Depending on when I do the list. 10:18:36
Q. So from whenever you -- you begin on the 10:18:40
list, it's from that date and -- to the previous 30 10:18:44
days; is that correct? 10:18:47
A. Correct. Like if this list right here, if I 10:18:48
was doing it right now, would be from today 30 -- and 10:18:50
30 days back. 10:18:52
Q. Okay. So you would enter 2800 in the sum 10:18:53
kilowatt hours over 30 -- 10:19:01
A. Yes. 10:19:03
Q. -- days; is that correct? 10:19:03
A. That is correct. 2800. 10:19:05
Q. And I see that the -- the heading is 10:19:07
titled "Sum kilowatt hours over 30 days." 10:19:08
A. Yep. 10:19:12
Q. Can you change that time -- 10:19:12
A. No. 10:19:14
Q. -- limit at all? 10:19:14
A. Nope. 10:19:15
Q. Can you make it less than 30 days? 10:19:16
A. Nope. 10:19:18
Q. And you cannot make it greater than 30 days? 10:19:18
A. Nope. 10:19:21
Q. Okay. Is that a limitation of the software? 10:19:21
A. Yes, as far as I know. 10:19:25

Q. 95829. 10:22:22
A. Okay. 10:22:25
Q. 95831. 10:22:26
A. Okay. 10:22:29
Q. 95832. 10:22:30
A. Okay. 10:22:32
Q. 95834. 10:22:33
A. Okay. 10:22:34
Q. 95835. 10:22:35
A. Okay. 10:22:37
Q. 95838. 10:22:38
A. Okay. 10:22:41
Q. And 95864. 10:22:41
A. There we go. 10:22:48
Q. How many accounts have been identified? 10:23:00
A. Looks like 11 -- over 11,000. 11,057 it 10:23:05
looks like. 10:23:13
Q. Are there any other steps you would take in 10:23:20
responding to Ms. Mendoza's request before sending 10:23:23
this list back to her? 10:23:29
A. So if you -- they're all separated by 10:23:32
default by kilowatt usage. And you can see, for 10:23:35
whatever reason, like, some of the top, they're all 10:23:39
mobile home parks, because they only have one meter, 10:23:42
and it's considered residential, though. 10:23:45

1 I would just remove -- remove those that are 10:23:50
2 commercial, that's it, after I export it. 10:23:54
3 Q. So does this list include both residential 10:24:00
4 and commercial properties? 10:24:02
5 A. It's -- it does, but it's almost all 10:24:05
6 residential. The only commercials that are on there 10:24:07
7 are very small commercial or, like, this right here, 10:24:10
8 all of the mobile home parks that are master metered. 10:24:14
9 Q. So you would go through and manually remove 10:24:21
10 the ones that you know are commercial? 10:24:24
11 A. Yes. 10:24:26
12 Q. After you remove the ones that you know are 10:24:31
13 commercial, would you do anything else before sending 10:24:33
14 the list back to Ms. Mendoza? 10:24:36
15 A. Nope. 10:24:37
16 Q. So can you walk me through again -- 10:24:38
17 A. Sure. 10:24:41
18 Q. -- what steps you take in order to export 10:24:41
19 the list? 10:24:43
20 A. I export this data -- would you like me to 10:24:43
21 export it? 10:24:49
22 Q. Yes, please. 10:24:49
23 So you have clicked on the upper right 10:24:50
24 hand -- there are three dots, and you -- and you've 10:24:54
25 scrolled down to the dropdown menu and clicked on 10:24:56

1 export data; is that right? 10:24:59
2 A. Correct. 10:25:01
3 Export data, and I keep it with the same 10:25:02
4 layout. I just click export. 10:25:04
5 Q. And this exports into an Excel file? 10:25:09
6 A. Correct. 10:25:11
7 And I believe it's this one. 10:25:21
8 So this is it right here. So I would -- 10:25:38
9 would you like me to walk through what I do right 10:25:43
10 before I send it to her? 10:25:45
11 Q. Yes, please. 10:25:47
12 A. So I just clean it up a little bit. At the 10:25:48
13 bottom, for whatever, is always just the filters that 10:25:56
14 I use. So I get rid of those. 10:25:59
15 Q. Why do you get rid of the filters? 10:26:02
16 A. Because there's -- they serve no purpose, 10:26:04
17 and it makes for a long first row. 10:26:09
18 Q. What else do you do? 10:26:19
19 A. Then I clean up the commercial, and then I 10:26:23
20 send it to her. 10:26:27
21 Q. And so when you clean up the commercial, you 10:26:32
22 just go through manually all 11,000? 10:26:34
23 A. And -- yep, as quickly as possible. 10:26:38
24 Q. Okay. 10:26:39
25 A. There are -- there's also a few of these 10:26:43

1 rows that I take out that are just, like, SMUD data, 10:26:45
2 like these transformers. These are all transformer 10:26:49
3 SMUD data. I get rid of those. 10:26:54
4 Q. So what you just did was on Columns I and J, 10:26:56
5 that was transformer data? 10:26:59
6 A. Yep. 10:27:01
7 Q. And you removed it? 10:27:02
8 A. Correct. 10:27:03
9 Q. And so the data you leave in are customer 10:27:07
10 name? 10:27:10
11 A. Customer name, meter, ZIP code, address. 10:27:10
12 Max kilowatt I get rid of, because that's just how 10:27:14
13 the -- that is their max per day that they use, not a 10:27:18
14 total, and I don't want her to get confused. 10:27:21
15 Q. So you delete -- 10:27:27
16 A. Total -- 10:27:32
17 Q. -- that column as well? 10:27:28
18 A. Yep. 10:27:29
19 The total is what she's concerned with. 10:27:29
20 And then PV flag stands for photovoltaic, 10:27:36
21 which is solar. I leave that there. 10:27:40
22 Q. There is one column to the left of PV flag 10:27:42
23 that says average kilowatt hours; is that right? 10:27:45
24 A. Yes. I usually -- I usually get rid of that 10:27:50
25 one also. 10:27:52

A. Yes. 10:31:09
Q. On the first page the email body states, 10:31:12
"Here is the list without county locations. 500 10:31:15
remain." 10:31:18
Did I read that correctly? 10:31:20
A. Yes, you did. 10:31:22
Q. And in the attachment, Ms. Mendoza removed 10:31:24
the County addresses, leaving 500 addresses within 10:31:29
the city of Sacramento; is that correct? 10:31:33
A. That looks correct, yes. 10:31:36
Q. After you received this list of city 10:31:39
addresses, what did you do? 10:31:42
A. Then I go through the list one address at a 10:31:44
time and check usage. 10:31:51
Q. Would you be able to demonstrate how you do 10:31:55
that? Why don't we try with one ZIP code, if that 10:31:58
makes sense, and you can kind of go through, and we 10:32:02
can get a sense of what you do. 10:32:05
Why don't we pick a ZIP code that's 10:32:09
completely within the city of Sacramento. 10:32:11
Is there any that come to mind? 10:32:13
A. Off the top of my head, no. 95833. Is that 10:32:16
Natomas? I believe that's Natomas. 10:32:27
Q. Let's try 95833, then. 10:32:35
A. Perfect. 10:32:38

1 MR. SCHULTZ: Calls -- calls for speculation 10:38:33
2 and an expert opinion. 10:38:35
3 But you can answer. 10:38:36
4 THE WITNESS: I can answer? 10:38:38
5 MR. SCHULTZ: Uh-huh. 10:38:39
6 THE WITNESS: Okay. I wouldn't know what 10:38:40
7 they're using it for. It's the middle of summer. 10:38:41
8 Probably a lot of A/C would be my guess. 10:38:43
9 BY MS. HUSSAIN: 10:38:43
10 Q. Is this person exhibiting a 12-hour cycle? 10:38:46
11 A. It does not look like it. 10:38:50
12 Q. What -- how would you determine if the 10:38:52
13 person was using a 12-hour cycle? 10:38:53
14 A. There would be very known 12-hour usage 10:38:56
15 blocks, and you can do that by every hour. You can 10:39:00
16 see by my -- where it scrolls over, my mouse, does 10:39:03
17 every hour. So you can easily see that those are 10:39:09
18 12 hours. 10:39:13
19 Q. Okay. As somebody who is not an expert in 10:39:14
20 reading graphs like this, if somebody were using a 10:39:19
21 12-hour energy usage block, what would that -- what 10:39:23
22 would that look like, in terms of what you could see? 10:39:28
23 A. It would look like columns, usage columns, 10:39:32
24 basically, on a graph. 10:39:37
25 Q. When you say "usage columns," do you mean 10:39:42

that it would -- it wouldn't look like the up and 10:39:47
down that the current graph is displaying? 10:39:49
A. Correct. 10:39:51
Q. So it -- 10:39:52
A. It would be very pronounced usage. 10:39:52
Q. So it would be -- 10:39:56
A. Very straight lined. Sorry. 10:39:57
Q. Okay. So it would be like a spike followed 10:40:00
by a flat pattern, and then a dip; is that right? 10:40:03
A. That is correct. 10:40:07
Q. Okay. So this individual does not appear to 10:40:07
be using 12-hour cycles of power? 10:40:13
A. No. 10:40:16
Q. And they do not appear to be using 18-hour 10:40:17
cycles of power? 10:40:20
A. No. 10:40:21
Q. Is that correct? 10:40:21
A. Correct. 10:40:23
Q. Okay. Would you be able to go back to the 10:40:23
previous page? 10:40:36
So you have to go through each one of these 10:40:46
addresses in order to determine if somebody is 10:40:48
displaying a 12-hour or 18-hour cycle; is that right? 10:40:52
A. Yes. It is a painstaking process. 10:40:57
Q. I was going to ask how long does such a 10:40:59

process take? 10:41:01
A. Months. It's very tedious. Not one of my 10:41:02
favorite parts of the job. 10:41:07
Q. How long would you estimate it would take 10:41:09
you to get through 420 meters? 10:41:11
A. 420, I could try to get it done in a couple 10:41:15
weeks, but these are all done on our separate time. 10:41:24
It's not part of buying three hours in the morning. 10:41:28
This is all done like above and beyond of what our 10:41:31
normal work scope is. 10:41:33
Q. Is there a directive within your unit to 10:41:38
compile this information for law enforcement? 10:41:43
MR. SCHULTZ: Vague and ambiguous as 10:41:48
to "directive." 10:41:48
But go ahead. 10:41:49
THE WITNESS: There's a directive from the 10:41:50
Public Records Act. We have to. 10:41:52
BY MS. HUSSAIN: 10:42:01
Q. I am now going to show you what has been 10:42:08
identified as Exhibit 32 in the Mendoza deposition. 10:42:10
And I'm going to ask you to please keep 10:42:50
those separate from the other exhibits. I know we 10:42:52
are getting a lot of paper. We will try to clean 10:42:55
that up. 10:42:57
This document is an email thread with one 10:43:00

1 Q. Okay. And the -- there were two homes on 10:46:01
2 this list that say PVN -- excuse me, three homes on 10:46:08
3 this list that say PVN. Were those the ones that you 10:46:12
4 were referring to that were solar? 10:46:17
5 A. I believe so, yes. 10:46:19
6 Q. So going back to the email on the first 10:46:34
7 page, why did you warn Ms. Mendoza to make sure you 10:46:36
8 guys are -- to make sure you guys do your due 10:46:39
9 diligence? 10:46:41
10 A. Because I don't want them to ever take my 10:46:43
11 word for anything. I want them to actually go 10:46:44
12 investigate. 10:46:47
13 Q. And when you say "go investigate," you mean 10:46:51
14 investigate in person to determine if somebody is 10:46:54
15 growing marijuana -- 10:47:00
16 A. Yes. 10:47:01
17 Q. -- is that correct? 10:47:00
18 Is it possible for somebody to be on this 10:47:03
19 list of ten, for instance, and not be engaged in a 10:47:05
20 marijuana grow operation? 10:47:10
21 A. Yes. 10:47:11
22 Q. What kinds of activities may render a false 10:47:12
23 positive? 10:47:14
24 MR. SCHULTZ: Calls for speculation. Vague 10:47:15
25 and ambiguous as to "false positive." 10:47:16

But go ahead. 10:47:19
THE WITNESS: I wouldn't know every 10:47:20
activity, to be honest, but lots of air-conditioning 10:47:21
in the summertime, big pools, but many different 10:47:25
things. 10:47:31
BY MS. HUSSAIN: 10:47:31
Q. Besides air-conditioning usage and besides 10:47:33
pools, have you ever seen anything else where 10:47:39
somebody may indicate pattern usage, but not be 10:47:44
growing marijuana? 10:47:48
MR. SCHULTZ: Misstates prior testimony. 10:47:49
But go ahead. 10:47:51
THE WITNESS: I can't think of any off the 10:47:57
top of my head, no. 10:47:58
BY MS. HUSSAIN: 10:47:58
Q. And have you seen instances in which 10:48:00
somebody was on a list for pattern usage that was 10:48:03
engaged in -- that had air-conditioning, for 10:48:09
instance? 10:48:14
A. Not that I'm aware of. 10:48:15
Q. What about somebody having a big pool? 10:48:19
A. Not that I'm aware of. 10:48:22
Q. Have you ever heard of somebody who was on a 10:48:24
list like this, indicating pattern usage who, in 10:48:27
fact, was not engaged in a marijuana grow operation? 10:48:30

A. I think there have been some, yes. 10:48:33
Q. And do you know what those individuals were 10:48:36
engaged in instead? 10:48:38
A. I do not. 10:48:40
Q. Let's go back to Voltron for a second. You 10:48:56
mentioned that this was custom developed for SMUD; is 10:49:03
that right? 10:49:05
A. Correct. 10:49:06
Q. And it was developed in-house at SMUD? 10:49:06
A. Yes, it was. 10:49:09
Q. Do you know when you started using Voltron? 10:49:12
A. I do not know the exact time, but it's been 10:49:15
a few years now. 10:49:18
Q. When you say "a few years," do know if it 10:49:21
was prior to the pandemic? 10:49:25
A. I believe it was, but I don't know for sure. 10:49:29
I think that's around the time we were trying to roll 10:49:36
it out, but I don't remember if it was rolled out by 10:49:38
then. 10:49:41
Q. Were you all -- were you trained on Voltron? 10:49:42
A. Yes. 10:49:47
Q. And do you remember what that training 10:49:47
consisted of? 10:49:48
A. Yes. The engineer who wrote it trained us 10:49:50
all on how to use it. 10:49:53

A. So same. Hour intervals. 11:52:35
Q. And if you are viewing this, what would -- 11:52:41
what does this tell you with regard to whether 11:52:43
somebody is using -- displays a pattern usage or not? 11:52:47
A. Not pattern usage, just using a lot of 11:52:51
energy. 11:52:53
Q. You mentioned that there are other features 11:52:59
that you use on Itron besides meter read reports; is 11:53:01
that correct? 11:53:04
A. That is correct. 11:53:04
Q. Can you go back to the screen that shows 11:53:05
those functions? 11:53:07
So you're clicking on -- 11:53:08
A. Actually, let me go back -- 11:53:11
Q. To the meter? 11:53:14
So we're back to the page where it has the 11:53:26
meters device details. We've clicked on read report. 11:53:28
What other functions do you use here? 11:53:34
A. I use the on-demand read. 11:53:37
Q. Can you click on that? 11:53:40
A. Yep. 11:53:41
Q. What does on-demand read mean? 11:53:50
A. Gives you, like I stated before, the read of 11:53:53
the meter itself. 11:53:55
Q. The read of the meter at this moment? 11:53:57

A. At this moment, yes. 11:53:59
Q. Okay. 11:54:00
A. Realtime read. 11:54:01
Q. Can we generate a report for that? 11:54:01
A. It's just numbers. 11:54:07
Q. And this dropdown, the -- it says read type, 11:54:11
and what are you clicking? 11:54:16
A. This we just want an instantaneous read. 11:54:17
There is one other that I use, and it's a strictly 11:54:21
for theft related. [redacted]. 11:54:23
Q. What does the power quality read tell you? 11:54:28
A. [redacted] 11:54:30
Q. And the other one that you use is -- 11:54:33
A. Like total kilowatts on the meter, a meter 11:54:37
read. 11:54:41
Q. Let's look at total kilowatt usage. 11:54:42
A. Would you like me to read it? 11:54:45
Q. Yes, please. 11:54:47
What is this report showing? 11:55:03
A. Somewhere it has a read in here. Oh, right 11:55:12
here. 11:55:15
Q. There's a chart that says read time, 11:55:19
collected time, tier. I think it says regular, is 11:55:21
that right, the column next to that? 11:55:28
A. Register. 11:55:30

Q. And why would that be important for you to 11:56:52
know? 11:56:56
A. It's not usually, because it will -- I could 11:56:57
look for the previous month's read and get the -- if 11:56:59
the billing cycle is not out yet and look at this 11:57:04
read, and then get a total, like, number of kilowatts 11:57:07
for the month. 11:57:11
Q. So you would get that by looking at this 11:57:13
month's -- subtracting the months before? 11:57:15
A. Correct. 11:57:19
Q. That's correct. 11:57:20
I'd also like to notice that the read time 11:57:20
says 11:54 AM; is that correct? 11:57:23
A. It looks like it. 11:57:27
Q. And that's for July 10, 2024, which is 11:57:28
today? 11:57:30
A. That is correct. 11:57:31
Q. So when you say that it is realtime, it very 11:57:32
much is, in fact, tracking the exact time of the 11:57:37
meter; is that correct? 11:57:42
A. Yes, it is actually literally pulling it 11:57:43
right off the meter. 11:57:46
Interval -- I'm sorry, interval data is 11:57:52
different, the usage graph. You can only do that, 11:57:55
like, realtime with reads. 11:57:57

1 expensive, and our IT people did not want us updating 13:09:55
2 that often. 13:09:59
3 Q. Do you know why the IT people did not want 13:10:00
4 to upgrade -- 13:10:02
5 A. I do not. 13:10:04
6 Q. -- as often? 13:10:04
7 Do you think it had to do with the expense? 13:10:05
8 A. Partly, yeah. 13:10:07
9 Q. Did you hear of any other reason why the IT 13:10:08
10 department did not want to send -- did not want to 13:10:11
11 upgrade Detectent so often? 13:10:14
12 A. No. 13:10:16
13 Q. Before Voltron, was the system that the 13:10:22
14 revenue protection group was using Detectent? 13:10:25
15 A. Yes, it was. 13:10:28
16 Q. Was there any other system, apart from 13:10:29
17 Detectent, that the revenue protection group used? 13:10:33
18 A. Same Itron. The Itron that we went through 13:10:37
19 already. 13:10:40
20 Q. In terms of Detectent, what -- would it 13:10:42
21 reveal the same type of information that Voltron did? 13:10:45
22 A. As far as lists? Yes. 13:10:49
23 Q. And so it was a similar functionality in 13:10:52
24 which you could winnow down based on kilowatt hours; 13:10:56
25 is that correct? 13:11:03

1 right? 13:44:46
2 A. Not to put together the list. To go through 13:44:46
3 the list. 13:44:48
4 Q. To go through the list. 13:44:49
5 And you said it can take months; is that 13:44:50
6 correct? 13:44:52
7 A. It can take a few months, yeah. 13:44:53
8 Q. You've shown us how you analyze pattern 13:44:57
9 usage to determine if somebody's potentially engaged 13:45:00
10 in -- in usage of 12- or 18-hour cycles of energy; is 13:45:03
11 that correct? 13:45:11
12 A. Yes. 13:45:11
13 Q. And sometimes that is correlated with 13:45:11
14 marijuana grow operations; is that correct? 13:45:13
15 A. Yes. 13:45:15
16 Q. Have you ever shown the pattern usage data 13:45:16
17 to anyone outside of SMUD? 13:45:19
18 A. Not to my knowledge, no. 13:45:22
19 Q. So how do you communicate pattern usage data 13:45:26
20 to law enforcement agencies? 13:45:28
21 A. Just the list. 13:45:30
22 Q. Outside of the list itself, there -- there 13:45:34
23 has been no other way in which you've communicated 13:45:37
24 pattern usage data to law enforcement; is that 13:45:40
25 correct? 13:45:43

A. Okay. 13:56:35
Q. So looking at the chart in Exhibit 32, it 13:56:40
has the information of customer name, meter, ZIP 13:56:45
code, address, total kilowatt hours, and PV flag; is 13:56:48
that correct? 13:56:53
A. Correct. 13:56:53
Q. Now, between the information that's in this 13:56:54
chart in Exhibit 32 -- 13:56:58
A. Uh-huh. 13:57:00
Q. -- and that -- that's on the chart in 13:57:01
Exhibit 14, the only difference is the information 13:57:03
conveyed in the final column; is that correct? 13:57:09
A. That's correct. 13:57:11
Q. But in both charts, the information conveys 13:57:13
that somebody may be -- that somebody is displaying a 13:57:18
pattern usage consumption; is that -- 13:57:22
A. Correct. 13:57:25
Q. -- correct? 13:57:25
The information that's conveyed in the final 13:57:29
column of each chart, that is not a determination 13:57:31
about what somebody is engaged in; is that correct? 13:57:35
A. Not at all. 13:57:40
Q. What is it, if it's not a determination? 13:57:42
A. That their using pattern in -- or they're 13:57:46
using power in patterns. 13:57:49

Q. It's not a determination that somebody is 13:58:04
engaged in a marijuana grow operation, is it? 13:58:06
A. Not to be certain, no. 13:58:09
Q. Let's talk a little bit about what happens 13:58:19
after you hand off the list of pattern usage 13:58:21
information to SMUD. 13:58:25
A. To SMUD? 13:58:27
Q. Excuse me. To the police. 13:58:28
So once you hand over this information to 13:58:30
the police, your understanding is that police conduct 13:58:33
their own investigation; is that correct? 13:58:36
A. Correct. 13:58:38
Q. And, ultimately, the police may identify 13:58:39
somebody who has -- who is engaging -- who they 13:58:42
suspect is engaging in a marijuana grow operation; is 13:58:45
that correct? 13:58:48
A. If they do their own investigation and find 13:58:50
out that they're growing, yes. 13:58:52
Q. And in those instances, are you -- you know 13:58:54
that the police at times seek a warrant; is that 13:58:58
correct? 13:59:03
A. Yes. 13:59:03
Q. So when the Sacramento Police Department 13:59:06
identifies someone as a potential grow operation, 13:59:08
have you gone to the scene during the execution of a 13:59:14

warrant? 13:59:18
A. Yes. Well, by the time they get the 13:59:18
warrant, they know that it's a grow operation. 13:59:20
Q. Have there been instances in which they have 13:59:22
obtained a warrant, and it is not a grow operation? 13:59:28
A. Not that I have been on. 13:59:31
MR. SCHULTZ: I'm going to interpose. Calls 13:59:32
for speculation. 13:59:33
BY MS. HUSSAIN: 13:59:33
Q. When you say not that you have been aware 13:59:36
of, do you mean for those that you have been on scene 13:59:38
of? 13:59:41
A. Correct. 13:59:41
Q. Okay. Are there any instances in which you 13:59:46
have heard there is a warrant that's been obtained, 13:59:47
but the residence turned out not to be a grow 13:59:49
operation? 13:59:52
A. I have heard of one. 13:59:53
Q. What was that instance? 13:59:55
A. I don't -- I'm not very familiar with it, 13:59:58
because I don't -- I was not doing this at this 14:00:00
point, but I think it was a bitcoin miner. 14:00:03
Q. Do you have any other information about that 14:00:11
warrant execution that was not a grow operation? 14:00:14
A. No. 14:00:18

1 Q. Why don't you share those graphs with law 14:08:03
2 enforcement in response to? 14:08:06
3 A. It's an extra step. More work. 14:08:08
4 Q. Have you ever been guided by anyone at SMUD 14:08:12
5 not to provide those graphs to law enforcement? 14:08:17
6 A. Maybe at some point, but I don't remember. 14:08:22
7 Q. Do you know if there's any policies that 14:08:32
8 govern the sharing of graphs through Itron or Voltron 14:08:33
9 with law enforcement in response to -- 14:08:39
10 A. I believe there's policy -- there's probably 14:08:42
11 privacy policies, I would imagine. 14:08:48
12 MR. SCHULTZ: Sorry. Let her finish, and I 14:08:50
13 cut you off. 14:08:51
14 THE WITNESS: And they've never requested a 14:08:57
15 graph; so I don't not hand them info. 14:08:59
16 BY MS. HUSSAIN: 14:08:59
17 Q. If you were to receive a request for a graph 14:09:13
18 related to, let's say, a list of users who display 14:09:19
19 pattern usage, would you provide that to law 14:09:26
20 enforcement? 14:09:31
21 MR. SCHULTZ: Incomplete hypothetical and 14:09:31
22 calls for a legal conclusion. 14:09:35
23 But go ahead. 14:09:37
24 THE WITNESS: I would have to get approval 14:09:38
25 first probably. 14:09:40

A. Just the usage data? 14:17:48
Q. Customer energy usage data? 14:17:50
A. I'm -- those words, I have no -- I don't 14:17:52
remember off the top of my head. 14:17:56
If you're talking about just usage, I don't 14:18:09
know. 14:18:11
Q. Does SMUD consider customer data to be 14:18:11
sensitive or revealing? 14:18:14
A. Customer data, yes. 14:18:15
Q. Does SMUD have any policy about how much 14:18:21
energy a customer can use? 14:18:23
A. Not that I'm aware of. 14:18:25
Q. Does SMUD have any policy against customers 14:18:31
using energy in a pattern? 14:18:33
A. No, not that I'm aware of. 14:18:36
Q. Does SMUD have any policy against customers 14:18:40
using energy to grow cannabis? 14:18:42
A. I do not know what their policy is. 14:18:44
Q. Have you ever seen a SMUD policy regarding 14:18:48
customers using energy to grow cannabis? 14:18:50
A. Actually seen an official policy? I don't 14:18:55
believe so. 14:18:58
Q. When you provide information about pattern 14:19:03
usage, are you making a determination that the 14:19:05
address is violating a SMUD policy? 14:19:08

A. No, not at all. 14:19:10
Q. Okay. We can get some of this paper out of 14:19:26
our way. 14:19:28
A. Both? Was it both? 14:19:50
Q. Yes, for right now. 14:19:51
I am going to hand what is going to be 14:20:04
marked Exhibit 40 to the court reporter, Ms. Smith. 14:20:06
(Exhibit 40 was identified.) 14:20:30
BY MS. HUSSAIN: 14:20:30
Q. I would like to mark this exhibit as 14:20:32
Exhibit 40. It consists of a form, comprising two 14:20:34
pages. It's dated March 1, 2024. 14:20:39
Have you seen this document before? 14:20:43
A. I have. This looks like an older request. 14:20:47
I don't know if just the formatting is off, but, yes, 14:20:49
I've seen this. 14:20:56
Q. Why does this look like an older request? 14:20:57
A. It looks more like a .pdf, maybe, I guess, 14:20:59
than a -- just the format. That's all. 14:21:05
Q. At the top of the first page, it states, 14:21:07
quote, "By submitting this form, the requester 14:21:10
certifies the request is being made by law 14:21:13
enforcement as part of an ongoing investigation, and 14:21:15
documents associated herewith are protected from 14:21:20
production pursuant to Government Code 7927.410." 14:21:23

1 Did I read that correctly? 14:21:27
2 A. You did. 14:21:28
3 Q. To your knowledge, is this the current form 14:21:29
4 that law enforcement uses to seek information about 14:21:31
5 customers' energy usage consumption? 14:21:34
6 A. It's either this or something just like it, 14:21:39
7 yes. 14:21:41
8 Q. When you say, "This or something just like 14:21:41
9 it," what is -- is there a particular difference that 14:21:43
10 you're thinking of? 14:21:46
11 A. Well, I rarely have a hard copy of it. So 14:21:47
12 it's just digital. 14:21:49
13 Q. Okay. So this is the current form that law 14:21:51
14 enforcement uses -- 14:21:58
15 A. Okay. 14:21:59
16 Q. -- to request use of high energy users by 14:21:59
17 ZIP code as well; is that correct? 14:22:03
18 A. Sure. Yes. 14:22:04
19 Q. And this form has changed over time; is that 14:22:05
20 correct? 14:22:08
21 A. I believe so, yes. 14:22:09
22 Q. So at the top, when law enforcement 14:22:13
23 certifies that, quote, "the request is being made as 14:22:15
24 part of an ongoing investigation," have you ever 14:22:17
25 engaged in any process to determine whether law 14:22:20

1 enforcement is, in fact, engaged in an ongoing 14:22:24
2 investigation? 14:22:26
3 A. No, I'm not a part of those investigations. 14:22:26
4 Q. Do you know if anybody within SMUD has ever 14:22:28
5 determined whether law enforcement is, in fact, 14:22:31
6 engaged in an ongoing investigation when they certify 14:22:35
7 through this form they are? 14:22:37
8 A. I do not know. 14:22:39
9 Q. Do you know what the criteria is for an 14:22:40
10 ongoing investigation? 14:22:42
11 A. No. 14:22:43
12 Q. I want to direct your attention back to the 14:22:52
13 Mendoza exhibits binder Volume I, Exhibit 5. We have 14:22:55
14 looked at this previously. It's Exhibit 5 from the 14:23:13
15 Mendoza deposition. 14:23:15
16 On Page 8, there is an email dated 14:23:17
17 11 -- November 3, 2022, 6:59 AM. 14:23:30
18 A. You said Page 8? 14:23:44
19 Q. I think it's actually Page 7, going into 14:23:52
20 Page 8. 14:23:54
21 A. Okay. 14:23:55
22 Q. Do you see that? 14:23:55
23 A. Is it -- what was the date on it? 14:23:56
24 Q. November 3, 2022, 6:59 AM. 14:23:58
25 A. I see it. 14:24:01

A. Yeah. I don't know if it was an official 14:25:10
court, but it was something signed by a judge. 14:25:15
Q. Have you ever required a court order before 14:25:25
providing a list of high energy users by ZIP code? 14:25:27
A. No. 14:25:30
Q. And to your knowledge, has SMUD ever 14:25:32
required a court order before providing a list of 14:25:34
high energy users by ZIP code? 14:25:37
A. Not to my knowledge. 14:25:38
Q. Have you ever denied a request to provide a 14:25:42
list of high energy users by ZIP code? 14:25:44
A. I've never denied one, no. 14:25:47
Q. Also within this exhibit, I want to direct 14:25:49
your attention to the bottom of Page 1. There's an 14:26:06
email from -- dated December 14, 2022, at 12:08 PM 14:26:19
from you to Ms. Mendoza. 14:26:24
Do you see that? 14:26:25
A. I do. 14:26:26
Q. Did you write this email? 14:26:27
A. Yes, I did. 14:26:36
Q. You state, "I know you're going to have some 14:26:38
new team members in January. So please remind them 14:26:41
that, when talking to the customer, leave SMUD out of 14:26:43
it, or we'll be right back here again." 14:26:47
Did I read that correctly? 14:26:49

A. You did. 14:26:51
Q. Did you write this? 14:26:51
A. I did. 14:26:52
Q. What did you mean by, "When talking to the 14:26:53
customer, leave SMUD out of it, or we'll be right 14:26:55
back here again"? 14:26:58
A. Apparently some of their team members used 14:26:59
to bring our name up when they go into their 14:27:02
investigations. 14:27:04
Q. And what would happen when their team 14:27:05
members would bring SMUD's name up during 14:27:06
investigations? 14:27:09
A. I don't know exactly what would -- what 14:27:10
happened, but -- because it was a lot -- most of it 14:27:12
was before I was doing any of this. 14:27:16
Q. So why would you want to leave SMUD out of 14:27:20
it? 14:27:23
A. Because we're not saying people are doing 14:27:24
anything wrong. We're just giving them a list of 14:27:26
usage. 14:27:30
Q. And so when you're providing the list of 14:27:32
usage information, do you -- does SMUD not want the 14:27:34
customer to know that's SMUD is providing that 14:27:36
information to law enforcement? 14:27:39
A. That's not why. They were using it as, I 14:27:40

1 Q. So based on your testimony today, on a 15:05:03
2 regular basis, Ms. Mendoza sends ZIP code -- ZIP code 15:05:07
3 requests for high energy users for the entire city of 15:05:11
4 Sacramento; is that correct? 15:05:17
5 MR. SCHULTZ: Misstates prior testimony. 15:05:18
6 But go ahead. 15:05:19
7 THE WITNESS: Correct. 15:05:21
8 BY MS. HUSSAIN: 15:05:21
9 Q. And when you receive these requests, you use 15:05:24
10 SMUD's custom software, Voltron, to generate lists of 15:05:28
11 customers who use above a certain threshold of 15:05:33
12 electricity; is that correct? 15:05:36
13 A. That's correct. 15:05:38
14 Q. When you use Voltron, you go into the search 15:05:45
15 functionality to generate these lists of high energy 15:05:47
16 users; is that right? 15:05:51
17 A. Correct. 15:05:53
18 Q. And you use the ZIP code's subfield in order 15:05:54
19 to determine which ZIP codes to generate these lists 15:06:00
20 from; is that correct? 15:06:04
21 A. Yes. The ZIP codes I got the request for, 15:06:06
22 yes. 15:06:08
23 Q. And you also use the sum total kilowatt hour 15:06:10
24 field to designate a threshold for high energy users; 15:06:13
25 is that correct? 15:06:21

A. That is correct, according to the threshold they put on the request. 15:06:21 15:06:23

Q. Do you use the ZIP codes field for any other purpose for your work within Voltron? 15:06:30 15:06:34

A. Yes. 15:06:37

Q. What do you use it for? 15:06:38

A. Theft, if I just go look -- I want to look at a specific ZIP code, it's easier to narrow down by ZIP code than to try to go through the whole city of Sacramento. 15:06:39 15:06:43 15:06:46 15:06:49

Q. So when you're investigating theft, sometimes you go into Voltron and you try to identify theft by ZIP code; is that correct? 15:06:50 15:06:52 15:06:57

A. That is correct. 15:07:00

Q. Do you use the sum total kilowatt hour field for any other purpose except for generating lists of high energy users for law enforcement? 15:07:03 15:07:07 15:07:10

A. No, not that I'm aware of. 15:07:12

Q. So the only reason that you use the sum total kilowatt hour field is to generate lists of high energy users for law enforcement? 15:07:16 15:07:17 15:07:20

MR. SCHULTZ: Asked and answered. 15:07:22

THE WITNESS: For myself, yes. 15:07:23

BY MS. HUSSAIN: 15:07:23

Q. Once you use these two fields, the ZIP codes 15:07:29

1 Q. When you get that list back from 15:08:35
2 Ms. Mendoza, you have to go through each address 15:08:36
3 individually to determine if they exhibit a 12- or 15:08:40
4 18-hour pattern usage; is that correct? 15:08:42
5 A. That is correct. 15:08:45
6 Q. The creation of that list is a painstaking 15:08:45
7 process; correct? 15:08:49
8 A. That is correct. 15:08:51
9 Q. It takes months; correct? 15:08:52
10 A. Correct. 15:08:54
11 Q. It's tedious; correct? 15:08:55
12 A. Very. 15:08:57
13 Q. It's not one of your favorite parts of the 15:08:59
14 job; is that correct? 15:09:01
15 A. That is absolutely correct. 15:09:02
16 Q. And you do this under separate time above 15:09:05
17 and beyond investigating power theft; is that 15:09:09
18 correct? 15:09:11
19 A. Correct. 15:09:11
20 Q. And the only reason that you engage in this 15:09:12
21 practice is because of the California Public Records 15:09:16
22 Act; is that correct? 15:09:19
23 MR. SCHULTZ: Misstates prior testimony. 15:09:21
24 Calls for speculation. Calls for a legal conclusion. 15:09:22
25 But you can answer, to the best of your 15:09:25

knowledge. 15:09:27
THE WITNESS: To my knowledge, that is why 15:09:28
we have to do it, yes. 15:09:29
BY MS. HUSSAIN: 15:09:29
Q. And you've never said no to any request from 15:09:32
law enforcement to generate a list of high energy 15:09:36
users by ZIP code; correct? 15:09:39
MR. SCHULTZ: Asked and answered. 15:09:41
But go ahead. 15:09:42
THE WITNESS: Correct. 15:09:43
MS. HUSSAIN: I think we'll take one final 15:09:54
break. 15:09:55
THE WITNESS: Okay. 15:09:56
MR. SCHULTZ: Yeah. 15:09:57
THE VIDEOGRAPHER: The time is 3:09, and 15:09:57
we're off the record. 15:09:59
(Recess taken.) 15:09:59
THE VIDEOGRAPHER: We're on the record. The 15:14:47
time is 3:15. 15:15:03
BY MS. HUSSAIN: 15:15:06
Q. Is there any other reason you respond to 15:15:07
these requests from law enforcement to generate lists 15:15:10
of high energy users other than the California Public 15:15:13
Records Act? 15:15:16
MR. SCHULTZ: Asked and answered. And, 15:15:16

DEPOSITION OF MICHAEL WOLFF
August 21, 2024

PAGES 1 - 187, inclusive
PAGES 24 - 187 CONFIDENTIAL PORTION
Stenographically Reported by:
Leticia A. Ralls, RPR, CSR No. 10070

Job No. LitCA.6852468

have you held at SMUD?

A. I was a Customer Service Office Specialist, an Office Specialist II, and a Customer Representative II.

Q. Okay. All right. I may, during the course of our day today, refer to some of these positions, ask you a bit more of what you did.

But let me back up to your current position which you've had since roughly 2015, for nine years, in revenue protection.

Is it correct that revenue protection as a department, its fundamental job is to find power theft in SMUD's service area?

A. Yeah, discover, investigate, and eliminate power theft.

Q. Now, thinking back to the job that you had prior to the current one, what was your job then? This was senior customer service rep?

A. M-hm. The primary function was to conduct accident and damage claim investigations. So we broke your stuff or you broke our stuff is the easiest way to explain it.

Q. "You broke our stuff"?

A. You broke our stuff or we broke your stuff, and I need to investigate to see who's actually responsible.

Q. A car runs into a telephone pole, knocks down a

power line?

A. Something like that, yeah.

Q. Okay. So your prior job did not involve revenue protection in the sense of discover, investigate, and eliminate power theft, correct?

A. No, that wasn't the primary function, no.

Q. When you joined the revenue protection -- let me ask a different question.

Do you call that a division? A department? An office? What do you call your current revenue protection group?

A. I don't really know.

Q. Okay. I'm just going to refer to it as the revenue protection department.

A. All right.

Q. Okay. There are a number of you in the revenue protection department today, correct?

A. Yes.

Q. Whose job is to discover, eliminate, investigate those things that you've identified with respect to power theft, correct?

A. Sure.

Q. One person is Mr. Burkhalter, correct?

A. Yes, correct.

Q. Is Lisa Santos part of that group?

Q. Okay. And was there any other reasons that you can remember as to what, I'll call, the holdouts?

MR. POULOS: Other than stealing their tin foil hats?

THE WITNESS: I wasn't going to say that, but...

Not -- not that came up, you know. I mean, it's -- it's been a long time ago, so I'm trying to think of -- but, yeah, it was mostly just that, "The government is after me," and -- or, "The RF was making me sick," as they have a phone in their pocket like I do right here right now.

BY MR. AGARWAL:

Q. All right. Thank you.

A. M-hm.

Q. The data that is collected, are you able to access -- the data that comes -- the electrical usage data that comes from smart meters, are you able to access that data as part of revenue protection?

A. Yes.

Q. Am I correct that SMUD, as part of implementing smart meters, also implemented software that you could use to investigate power theft?

A. Yes.

Q. Okay. What was the name of that software?

A. Detectent.

Q. And is it correct that Detectent -- let me back up.

In your own words, would you describe what the Detectent software did?

A. It was an analytic platform built around revenue protection -- analytics or models -- to give you different views to help find leads, you know, to investigate for power theft.

Q. So the software was designed for the purpose of finding people who were stealing power?

A. Yes.

Q. All right. And it [redacted]

A. [redacted].

Q. Okay.

A. It was consumption only, and other -- [redacted]

Q. Okay. So it was how much -- "consumption" meaning just how many kilowatt per hour used?

A. Yes.

Q. And what is it about how much of kilowatt hours are used that identifies power theft?

Let me ask a question.

If a home is stealing power, that power does not

my arrival.

Q. Okay. Was Mr. -- did you receive training on how to use the Detectent software?

A. Yes.

Q. And was it just on-the-job training?

A. They -- we actually had one of Detectent's people come out and give us training -- I don't know, a while after I was in the job.

Q. Okay. Am I correct that the Detectent software is no longer -- that you used back when you first started is no longer something that you use?

A. Correct.

Q. Okay. Was there a period after which the Detectent was phased out and some new tool was introduced?

A. Yes.

Q. Okay. And when was that?

A. End of 2020.

Q. Okay. And what was the tool that sort of replaced the Detectent platform?

A. SMUD calls it Voltron.

MR. POULOS: I'll let you know when we'll mark the end of the confidential portion of the transcript.

BY MR. AGARWAL:

Q. Let me back up.

A. Yeah.

Q. With that Detectent system, you could visualize smart meter data for individual residents; is that correct?

A. No.

Q. Could you visualize smart meter data for any properties?

A. No, not in Detectent.

Silver Spring is different than Detectent, though.

Q. Well, okay. So this is where we're going to get a little bit confused here.

So you had a product called Detectent made by Silver Spring and Itron at different points in time, and you had another tool called Silver Spring, right?

A. Yeah.

Q. And what was that?

A. Silver Spring is the platform that the meters operated on.

Q. And what do you call that tool? Just "the Silver Spring"?

A. Yeah.

Q. That's what you call it internally?

A. UIQ.

Q. Utility IQ?

A. Yep.
Q. All right.
A. I guess that's what it stands for. I've never actually known. I just called it UIQ.
Q. All right. UIQ was a software platform that you had access to it, correct?
A. Yes.
Q. And the UIQ -- let me back up. I want to be clear that we're talking about the same thing because Silver Spring is flowing around here.
When I refer to Detectent, I'm referring to that trinity of Silver Spring, Detectent, and Itron.
A. The analytic platform for revenue protection.
Q. Okay. And then you also have access to something called UIQ.
A. Yes.
Q. Let's talk about -- what, in your own brief words, is UIQ?
A. UIQ is how I communicate with meters. I can disconnect meters; I can get the status of a meter; I can read a meter, get it -- power readings off of a meter, like if I'm out at a location I'm investigating, you know, it's -- it's basically everything to do with pulling data from the meter.
Q. All right. Using UIQ, you're able to visualize

the interval data from individual properties, correct?

A. If you -- in a read report, that would be -- and it shows up as a graph.

Q. Okay. I will show you some of those graphs a little bit later.

A. Okay.

Q. And am I correct that that UIQ platform, the data that you're looking at when it's in this graph format is the smart meter data?

A. Yes.

Q. I want to ask you some questions about UIQ.

First of all, is UIQ still a tool that you have access to?

A. It is.

And I still use it for the same exact purpose as I described.

Q. And you also referred to Voltron -- we met with Mr. Burkhalter who gave us a little demonstration of Voltron -- and you said Voltron was created in roughly 2020, 2021?

A. Yes. It was kind of built in 2019 and -- late 2019 and released to our group, as far as I know, in late 2021 -- I'm sorry, late 2020.

Q. And am I correct that you were involved in designing what Voltron is?

A. I was.

Q. Okay. And is it correct that Voltron, it's like an API, a platform that sort of is able to access smart meter data?

A. It's arguably the same thing that Detectent was but with voltage data included. In fact, they really just took most of the same analytical views and put them in there.

Q. Okay. If it was all the same analytic views, why did -- why was Voltron created, to your knowledge?

A. Well, the product that we had was superior to Detectent.

They were using a newer version of theirs called Operations Optimizer that I tested and was finding more theft with our method at the time than what was being found by theirs.

Q. That "theirs" being Detectent?

A. Right, yeah.

And we were at the point where they wanted us to upgrade, so -- for a nominal fee, of course, [redacted]

Q. What was your role in designing Voltron?

A. So as I discussed a few minutes ago about I was

getting files from Silver Spring UIQ, and then downloading them, putting them into Excel spreadsheets, and filtering them.

I proved, by doing that [redacted]

And so it convinced our upper management that it was worth putting the money to actually develop that software --

Q. Okay.

A. -- and kind of automate it.

Q. You'll to have excuse me. I know it's a little disconcerting when people send me notes.

A. That's fine.

Q. What is it about [redacted] is or is not stealing power?

A. It's really [redacted]

So like, say, [redacted]

and this particular document at the bottom is marked "SMUD_008683-CONFIDENTIAL," and this is what we call in the legal trade, I think, a Bates number. It's kind of a control number --

A. Okay.

Q. -- for the litigation. All right?

And the metadata also contains the author of the document and other kinds of information, the date created, modified, accessed.

A. Okay.

Q. And that's your name on there.

A. That is my name.

Q. Okay. Let me ask you, am I looking at screenshots taken from what you have called the UIQ or Utility IQ platform?

A. No.

Q. Okay. What is the platform from which this is taken?

A. This is Detectent.

Q. All right. Earlier I asked you if Detectent allows you to visualize smart meter data, and you said it does not.

Let me ask you again. Does it allow you to -- does Detectent allow you to visualize smart meter interval data?

A. Yes. I -- I was wrong, apparently. I completely forgot that.

Q. All right.

A. It wasn't -- I didn't really use it. We always used UIQ. That's why, I guess, I wasn't really big on this.

Q. And does UIQ display an individual property's interval consumption data in a similar way, a graph?

A. It does. It looks much like that.

Q. Okay. So just to go through this, just so I understand, these are screenshots.

Do you remember taking these screenshots?

A. No.

Q. Okay. And at the very top, there's a little pink -- pink area, and it says, "Analyze Silver Spring Networks."

Do you see that?

A. Yes.

Q. And then there's another tab, and it says, [redacted] and then it looks like another tab with another, I think account number, and then there's a gentleman named [redacted]

Do you see that?

A. M-hm.

Q. So in Detectent, you can open up multiple

account tabs, correct?

A. Yeah, I guess so.

Q. Okay. And we're looking at the [redacted] as what's printed.

And [redacted] would that be the name of a customer?

A. Should be.

Q. Okay. Do you refer to SMUD's customers as customers or subscribers or something else?

A. Just customer.

Q. Customers, all right.

And then at the top, it says "Account" number.

Do you see that?

A. M-hm.

Q. Okay. And that's the SMUD account number of [redacted], right?

A. I don't know for sure.

Detectent had different numbers for different things. They would call out different stuff, but I -- I don't know for sure.

Q. Okay. And on the right-hand side, there's a little box and it's titled "Account," little dialogue box at the top right. Do you see that?

A. Yeah.

Q. And it provides an address, right?

A. M-hm.

Q. And it -- and it gives you some other information, for example, whether a -- whether the property is a residential property, right?

A. Okay.

Q. It says "Revenue Class"?

A. My eyes are going bad.

Q. It's really tiny print, somewhere right around there.

A. Okay.

Q. Do you see that?

And "Revenue Class" means whether it's a commercial- or an agricultural- or residential-type customer, right?

A. That's what I take it to mean.

Q. And then looking on just to the left of that, you see a series of tabs, "Investigations, Account Summary," and you see "Electrical Interval," and the prior ones, "Investigation" and "Account Summary" are not opened.

What -- what's inside the "Investigations" tab, typically?

A. I would -- I'm trying to remember.

I think it's just going to be an open -- like -- I don't even know if it would just open, but anything

where you've created an investigation in the past.

Q. So it would be investigations for what?

A. Power theft.

Q. Okay. And then "Account Summary," would that have kind of the information about the account, like name, address?

A. I would -- I -- it's funny. I really don't remember all the Detectent stuff anymore.

Account -- I'm trying to think of what Account Summary would be.

Because it's -- what's interesting is that this says it's from 2021, but we -- I don't think we were even using Detectent in 2021.

Q. Okay. Let's get some basics on -- on the table.

A. Yeah.

Q. Look at the bottom right -- excuse me.

First of all, this is a Windows platform, right?

A. Yeah.

Q. Okay. And you see the Windows taskbar kind of at the bottom, right?

A. M-hm.

Q. And you see the date at the bottom right, it says "03/09/2021"?

MR. POULOS: I'll take your word for it.

MR. AGARWAL: Yeah, it's a tough one.

THE WITNESS: Yeah.
BY MR. AGARWAL:
Q. It's kind of right there (indicating).
A. Yeah, yeah.
Q. So that date matches the metadata date, right?
A. Yeah -- now I realize where at some point they went from like a program that we have installed on our hard drive or laptop or whatever to the more online version where you would actually log in to their network, I guess, and that's what -- why this -- yeah.
So I was trying to understand why this was showing up like as a Windows kind of like that you're -- like as in you're looking at a bunch of stuff on the Internet and you have a bunch of tabs open or Youtube and everything else, right, so that's what this is.
Q. So when you first started Detectent was a program that was downloadable, and you would use it on your desktop, right?
A. Yeah.
Q. And at some point it became a software service?
A. Yeah, that's -- yeah.
Q. Okay. All right.
A. All this stuff is kind of so far in the past, I'm kind of trying to remember.
Q. But this is still something available to you,

right?

A. No.

Q. You don't use Detectent at all?

A. Not at all.

I don't know that it's available. I would assume that it's not because we stopped paying them years ago.

Q. It was available to you as of 2021?

A. I don't know. I don't use it.

Q. It was available to you as of 2021?

A. Okay, if you say so.

I don't know that. Again, I don't remember this.

Q. Okay. I have a bunch of them, so we'll look at them later.

A. Okay.

Q. But one of the things that the Detectent system has is the address, and it allows you to see like -- you know, you can look it up on a map, like Google Maps that's on the right hand side, correct?

A. M-hm.

Q. And the Account Summary, do you know if it contains the information related to things like driver's license or credit information?

A. I know the old version definitely did not.

Q. So that's the data coming from the smart meter into the servers or the storage or whatever it is at SMUD?

A. That's the -- displaying the electricity that they've used from SMUD.

Q. Okay. And what we're looking at here in the graph in the dark green are how much this particular place, this home, I guess, residence, used every hour over a period of a week, right?

A. Wednesday to Wednesday, yes.

Q. Okay. And if you look at it just underneath the graph that says "Day of Week for" -- "Day of Week 4-4-2018." Do you see that?

A. Yes.

Q. And then if you look at the graph just below, it says 4-11-2018. Do you see that?

A. Yes.

Q. And then if you look at the next page, it says 4-18-2018 on the top graph, and then on the bottom graph, it says 4-25-2018, right?

A. Yeah.

Q. So we essentially have weekly hourly graphs for one -- one-week periods for a month, right?

A. M-hm.

Q. And then it continues on page 3 into two more

do -- have done at SMUD is disclose electrical consumption data to law enforcement officers; is that correct?

A. I have.

Q. When did you first start disclosing electrical consumption data to law enforcement?

A. Probably right when I started in revenue protection.

Q. How -- how is it that you became involved in disclosing electrical consumption data to law enforcement?

A. Through official law enforcement requests.

Q. Were you told at your job that this is part of your job by someone like your supervisor or Mr. Duggan, et cetera, or did you just get a request and fulfill it? How did it start?

A. Both of what you said is correct.

Q. Okay. Who told you that you were to fulfill requests for law enforcement?

A. My supervision and my coworkers, like you just previously said.

Q. Okay. So your supervisor, when you first started back in 2015, would have been Mr. Miller?

A. Correct.

Q. And still your supervisor today?

being Sacramento law enforcement would request individual zip codes, and you would fulfill the requests?

A. Yes.

Q. Did you talk to anybody else about fulfilling those requests, whether it was proper or not proper?

A. Yeah, we had approval prior to that from Dan Miller.

Q. Dan Miller said it would be okay to fulfill these requests?

A. Yeah, if they were requested and under an official capacity by a law enforcement agency.

Q. Okay. So long as the request was made in an official capacity, your understanding was that you could fulfill these zip code requests?

A. Yeah.

Q. Was there any other criteria?

A. I don't know.

Q. Okay, all right. We'll look at some of the documents. I know it's hard to remember everything.

And did they specify what a high user was, or was that something that SMUD was going to determine?

A. No. They wanted everything above 5,000 kilowatts was where I remember they started.

Q. And that was for specific zip codes?

Q. -- that's Exhibit 43.

When you send this list, it has a whole bunch of names on it, right? There's pages of names?

A. Yeah.

Q. And we can take just the second page. There's one on here, [redacted] looks like, [redacted] right?

And you've listed them as using 4,779 --

A. I believe that's [redacted]

Q. Okay. That's a kilowatts reading, right? 4,779?

A. For that month? Yeah.

Q. Not that month. Any month?

A. Yeah.

Q. Since they started service?

A. Yeah.

Q. Right?

A. Yeah.

Q. All right.

A. As I remember it. It could be wrong on that, but that's the way I remember it.

Q. Okay. Now, when you release this list with [redacted], you're not making a determination that [redacted] has violated any rule of SMUD that you're aware of?

A. No.

Q. And you're not making a determination that they violated any rule by using 4,779 kilowatts, whatever the period is?

A. Sure.

Q. You would agree with that?

A. Sure, yes.

Q. And you're not aware of any rule in SMUD that bars someone from using 4,779 kilowatts?

A. I don't know. I -- power theft investigator, so...

Q. Yeah. No one's ever come to you and said -- no one -- I mean, you've had -- no one's ever come to you and said, "Make sure that they're violating a rule of SMUD before you disclose the name"?

A. No.

Q. Okay. Are you aware of any rule that SMUD has that says a certain amount -- if you use X amount over, you are in violation of a rule of SMUD?

Let me give you a concrete example because I sense some hesitating.

A. I'm trying to think of some of our like -- you know, when you sign up to be a SMUD customer, you do so with the understanding that we have the right to come on your property and check our meter or our --

A. It does.
Q. Have you seen requests going down to 2,000?
A. I haven't done any.
Q. Have you seen 2800?
A. I haven't done any.
Q. Would you consider 2,000 to be a high user -- someone who uses 2,000 kilowatts ever in the history of their usage to be a high user?
A. My wife does.
Q. Do you, as someone who --
A. I use my air-conditioner, and I have a pool, and they use a lot of electricity, so I --
Q. Do you have to pay for it?
A. Yeah, unfortunately.
Q. So you can be a high user if you use a lot of AC in the summer.
A. Yeah.
Q. It gets hot up here in Sacramento, right?
A. Right.
Q. You can be a high user if you have a swimming pool because you're heating your swimming pool, and using electricity, right?
A. Well, it's a gas heater.
Q. You could be a high user if you're running a pool pump, right?

A. M-hm.
Q. Right.
You can be a high user if you're charging a car, electrical vehicle, right?
A. You can, m-hm.
Q. You can be a high user if you're running electrical heat in the winter?
A. And, I guess, I would go back to saying it's all relative based on someone's opinion, like if I was going back to my wife saying that she thinks that we're using too much electricity, and I say that we're not.
Q. All right.
A. So it's kind of left up to interpretation.
Q. Before you disclose this list to law enforcement, am I correct that you don't ask the people on the list for permission to disclose it?
A. No.
Q. I'm not correct in that?
A. What? I don't ask for permission.
Q. You don't obtain consent from the people on the list to disclose the list -- to disclose their name?
A. No.
Q. Or their address?
A. No.
Q. Or they're electrical consumption information?

And you send this out to law enforcement.

In this particular case, you've send to Hanspeter Merten, Michael Rinehart, Robert Young, who are all Sacramento Police Department -- I think they were sergeants.

A. That were running three separate marijuana eradication teams in the City.

Q. Yeah.

A. There was three of them at that time.

Q. Yep.

Now, look at the form -- first of all, who told you -- by the time 2019, you've already agreed to give these zip code lists, right?

A. M-hm.

Q. Did anybody ever say, "We shouldn't give out zip code lists"?

A. No.

Q. All right. So by this point, it's established that with zip code lists are something that SMUD is willing to provide, correct?

A. It's been talked about time and time again.

Q. What do you mean, "it's been talked about"?

A. Well, every year SMUD gets an inquiry from public radio or something that -- Scott Rodd trying to shut down the flow of information to law enforcement

from SMUD.

Q. And you believe it's your job to give law enforcement information; is that right?

A. It's -- if it's requested in official capacity, yeah.

Q. And in the official capacity as opposed to what? As opposed to -- I don't know what an unofficial capacity would be.

A. Well, "I need you to look up my girlfriend's account and see if she moved in a new guy." That would be -- yeah.

Q. Understood.

As opposed to, "I just want to harass my girlfriend" type of individual account. Just because it comes from an law enforcement officer is not sufficient; you wouldn't say request for that?

A. Yeah, absolutely.

Q. Even if they send it on a customer request form?

A. If they send a customer request form and they said that, then I wouldn't do it.

Q. Okay. How would you know?

A. Because anything that they send on this form was sent under official capacity under their job coming from their e-mail through Sac PD, Sac Sheriff, whatever the case may be.

Q. I see.

So you get a form; you fulfill the form. That's basically the guidance inside of SMUD?

A. Yeah.

Q. All right. Take a look at the form for a second.

A. Cool.

Q. At the top, it says -- there's some preprinted language. "This request is being made by law enforcement as part of an ongoing investigation," et cetera, et cetera.

Do you see that?

A. It's on page 3?

Q. Page 3, fair point.

A. Yes.

Q. Okay. Do you apply any criteria to what is and is not an ongoing investigation before you fulfill the form -- the form's requested information?

A. No.

Q. Have you ever been given any criteria for what is and is not on ongoing investigation.

Did anybody ever say --

A. I'm not sure how to answer that.

Q. Have you ever had any conversation with anybody inside as to what an ongoing investigation is before you

fulfill a request?

A. Goes back to what I said, that if they're sending in this request, then it's an official ongoing investigation.

Q. Well, you said it was an official request not an official ongoing investigation.

Do you apply any criteria to determine whether or not there actually is an ongoing investigation sufficient to -- for you to fulfill this request?

MR. POULOS: I'm just going to say objection. Lacks foundation; vague and ambiguous.

BY MR. AGARWAL:

Q. Do you even think about what that term means? Have you ever thought about what that term means that's on that form?

A. Well, I don't -- I just kind of look a lot of times at things through my own eyes, and I wouldn't be requesting things of other people or other agencies and organizations or other departments within SMUD if it wasn't something that I was working on.

Q. Okay. What if a police officer -- law enforcement agency came to you and said, "I'd like to have access to entire Utility IQ database"? Would you give it to them?

A. I would give them none of it.

Q. Can you tell if someone is awake -- what time they woke up -- make a reasonable deduction of what time someone woke up on a particular day?

A. Not necessarily, because everybody uses power differently.

Q. But you could -- at night, don't they use power, kind of just the refrigerator running and a few other electronic devices that have background noise?

A. Again, everybody uses power differently, though, so, you know, you might have a pool pump that goes on for an hour. You might set your dishwasher on delay for four hours; you might set it for 3:00 in the morning; you might not run your dishwasher every night. You might have woken up in the middle of the night and you can't sleep, and now you're watching TV and doing laundry.

Q. So you can tell if somebody woke up in the middle of the night and is doing laundry?

A. No. You can tell that power is being used.

Q. Going back to Exhibit 44, just to circle back, you have not -- you do not assess what an ongoing investigation is? As long as you get the form, you do not assess what -- whether there actually is an ongoing investigation?

A. Right.

Q. Now.

A. Because it's on the form that they're sending in to us.

Q. It's on the form that you just sent them and they sent it back. Isn't that the right way to send it -- to say it?

A. Well, I don't necessarily send it to you.

You might have got a copy of that from another officer like a template, and then you're filling that out and sending that in.

Q. The form circulates among law enforcement officers, right?

A. Sure.

Q. And SMUD is the -- is the entity that propagates the form?

A. Sure.

Q. They create the form and send it to law enforcement officers, right?

A. Sure, yeah.

Q. Now, thinking about the zip code list -- I've shown you one example, but there are multiple examples of these lists that you have generated, correct?

A. I think so, yeah.

Q. Not just generated but sent to law enforcement officers?

a physical office space at SMUD's headquarters?

A. I did.

Q. Okay. We're going to take a look at Exhibit 43 in your pile there.

Now, this particular list you sent in in the fall of 2018, and it's sent to Kelli Streich. You had a good relationship with Kelli Streich, right?

A. I really -- as far as -- I'm not really sure what that means.

Q. You knew her; you've known her for years by this point?

A. Yeah.

Q. You had met with her?

A. Yeah.

Q. Did you ever go to a barbecue with her?

Let me give you a different question.

You would be sometimes invited to barbecues that police officers were holding, right?

A. I can recall one time that that occurred.

Q. And do you remember what the occasion was?

A. I think they were doing a team-building thing.

Q. And they considered you part of the team?

A. I don't know if that's what it was, but these were people I was working with every day, yeah.

Q. You were working with law enforcement from

Sacramento Police Department every day?

A. And the sheriff's department and Elk Grove, the daily marijuana eradication for five-plus years.

Q. Okay. On the list, there's a particular example of kind the list you would generate.

And was there any instance where you would kind of take the list down and give it to them face-to-face?

A. No.

Q. You would just e-mail it?

A. Yeah.

Q. Did you ever use like a Dropbox service?

A. No.

Q. On the fourth page -- excuse me, fourth page of the list --

A. So fifth page, fourth page of the list?

Q. Let's put it this way. It's either the fourth or fifth, but the top of page of the list starts with an address it says [redacted]

Do you see that page?

A. Okay. That's the third page of the list?

Q. Yeah. Looks that way.

A. Okay.

Q. Do you see that?

Did you ever take any information about [redacted] and deliver it face-to-face to any of the

officers at Sacramento Police Department?

A. I don't recall doing that.

Q. Would have been unusual if you had?

A. Yeah.

Q. What kind of occasion -- well, can you -- and I think you've already said this. You don't remember ever taking anything face-to-face to Sacramento Police Department officers?

A. No. It was always e-mailed, so there's a record.

Q. So that there's a record?

A. So there's a record of it, yes.

Q. Did you preserve your e-mails of transmissions of information?

A. Preserved the documents that we sent, that I received and sent back.

Q. How did you preserve -- so you would -- when you say "the documents," you really mean the attachments?

A. Yeah, the request that was sent to me, saved, and then the request sent back to them, saved.

Q. Okay. And how would you save them?

A. In -- on our network at work.

Q. Like a special drive?

A. Yeah, whatever -- like my -- my network drive. It's changed over the years, but -- you know, not the

hard drive where if your computer wiped out, it would be gone, kind of thing.

Q. Like a network like an H drive, a letter drive?

A. That was one of them at a point -- I don't know -- it's like Z now.

Q. Did you have folders in that drive?

A. M-hm.

Q. And what were they labeled?

A. "Law Enforcement Requests."

Q. So you have a folder -- do you have access to that today?

A. I don't have my computer with me.

Q. Okay. So you had a folder called "Law Enforcement Requests," and you would put the request and what you sent back?

A. And I'd send it back as a pdf so that they can't change it.

Q. Well, some of these were sent as Excel sheets.

A. The requests for the -- one of these (indicating).

Q. Okay. You're pointing at --

A. Exhibit 46.

Q. I see.

So when you filled out the customer requests with, let's say, a couple of individuals and comps,

It let's you kind of pick a period, day, week, month, year.

And is that true for the Voltron system, too?

A. No.

Q. What's the difference?

A. Voltron is bringing in 45 days -- the most current 45 days.

Q. Can you go back and look at a different set of 45 days?

A. I can, yeah, with a different view of Voltron that I call "historical data."

Q. So is it like a button? I mean, how would I -- how would you access that on Voltron?

A. Well, it's a different sheet under Power BI.

Q. Okay.

A. So it's -- they're -- it's still Voltron; it's just a kind of slightly different -- because we're having to pull data from multiple storage.

Q. Yeah.

Older data being more of a cold storage probably somewhere?

A. Yeah, because it has to be housed somewhere is the way it's been explained to me, so we can only, without completely melting down the system, have so much data in there.

Q. Okay.
A. So that's where that kind of came up with the 45 days.
Q. Okay. But you have a way to look at historical data. And is there any real limit to how far back you could go if you wanted to?
A. Since the meter has been there -- I had a case where I got back to 2015 for a civil litigation that we were using it to prove when somebody started way, way back when stealing rather than three months that was awarded through the court system.
Q. So you can go back many years?
A. As far as I know, back to 2015. But that was kind of a specific need, so I'm not sure that I can do that with everything.
Q. Well, maybe I misunderstood your answer.
You said you had some civil litigation you went back to 2015.
Was that litigation recent?
A. It was about two years ago.
Q. So you can go at least eight years back, roughly?
A. Yeah, I -- I haven't -- I haven't looked at anything that far back, you know, since then.
Q. In terms of the granular interval data, are you

A. Yeah.

Q. All right. So if somebody wants historical data, one of your teammates, they can come to you?

A. Yeah, and hopefully it works.

Q. On the Voltron system -- and I did see it, and I just am having a mental barrier as to what I saw; I have to go back and look at the video -- you can look at 45 days, but it's hourly increments, right?

A. Yes. The -- it's still the hour interval --

Q. Okay.

A. -- for residential, yeah.

Q. When we looked at Exhibit 41, which is the Detectent graph, I showed you that you could click on buttons for day, week, month, et cetera, those kinds of things.

Can you look at the day view in Voltron for a particular --

A. I have a sliding scale, so I can expand and contract up to the 45 days.

Q. But you can go down to a day up to 45 days?

A. Yeah, yeah.

Q. All right. Thank you.

Okay. All right.

MR. AGARWAL: What are we at? Exhibit 47?

MR. POULOS: Yep.

MR. AGARWAL: Exhibit 47.

(Document marked Petitioners'/Plaintiffs' Exhibit 47 for identification.)

BY MR. AGARWAL:

Q. Before you look at that on the Voltron system, when you go back on your sliding scale and just look at one day, it would give you hourly increments for the whole day?

A. I would have to kind of hover over with my cursor to see each individual. It gives you like a dot on that line, right? And then it will give me whatever it is, if it's consumption or voltage or voltage deviation, whatever that number is, and then the date and time and number.

Q. And that's within one-hour increments, those dots?

A. Yes.

Q. Thank you.

All right. Okay. Exhibit 47 is like the Exhibit 41. These are, again -- you recognize these as graphs and data from the Detectent system for a particular customer, right?

A. I do.

Q. Okay. And for the record, this document is file path SMUD 008690, and it says you're the author.

THE WITNESS: Did you take my 48?

MR. AGARWAL: I don't think so. Did I? I hope not.

THE WITNESS: I think you might have.

(Discussion by/with Reporter off record.)

BY MR. AGARWAL:

Q. Okay, all right. Take a look at 36 and 48. This shows high flat usage, right?

A. M-hm.

Q. High levels, [redacted]

A. M-hm.

Q. And that same address on 36 is reported as almost 14,000 kilowatts average, right?

A. Yeah, 13907, okay.

Q. And you're not aware of anybody at SMUD taking action to turn that electricity off because it was dangerous, correct?

A. I don't know that anybody was looking for that.

Q. Right. You're looking at it --

A. SMUD likes it when you use a lot of power.

Q. Thank you.

MR. AGARWAL: What are we at?

THE REPORTER: 53.

MR. AGARWAL: 53.

53, sir.

Q. Do you know for a fact you did not?
A. I don't recall doing it because 2,000 for me was -- I wouldn't do that.
Q. 2,001?
A. Kilowatts.
Q. Why wouldn't you do kilowatts?
A. I used 3500 last month.
Q. For who?
A. My house.
Q. So 2,000 is really a low number?
A. 2,000 kilowatts, you're going to get a lot of accounts, and the majority of them are not going to be marijuana grows.
Q. Was there a policy at Sacramento that you will not fulfill under 3,000 kilowatts?
A. I don't know of any such -- yeah, I don't know.
Q. Well, law enforcement has requested 2,000 kilowatts, you would fulfill it, right?
Whether or not it's -- whether or not it shows -- the data is useless, you would fulfill it because it's a request from an official -- it's an official request, right?
A. But what I would say is I'm not going to do that because it's too many -- it's too much -- the list is too extensive.

Good Morning Kelli,

I just completed the high user lists for the usual zip codes. I found a way to get more current data, or so it seems... I put the entire south together because there is a little bleed over between central and south. I also didn't pull the county stuff out of the zips either. Of course there may be some high users in there that aren't growing too. You might want to consider that before you send out nastygrams.

Can you forward to Kirtlan and the new central sargent? I have met him yet, and I don't have Kirtlan's email.

Subject:	New SMUD Info Request Form
Attachments:	REVISED Law Enforcement Customer Information Request - Template.docx

Hello Guys,

Robert said he emailed out the new form earlier today to some officers… I have a better version where we fixed some of the split cell problems that make it look janky. It's not his fault! Our boss sent us the form without checking it first. Please forward this to the members of your teams and other related people?

If you need to add additional request boxes you can copy and paste the entire "request #2" box to the bottom of the form, then change the request number to 3, and so on.

The "other information requested" box can be used to free form specific requests, such as "high user zip codes. Be specific though!

<Ex. I'm requesting a list of SMUD customers and SMUD locations using above 4000-kwh per month in the 95823 zip code

REQUEST #3: ☐ Comparison (Fill-in address; SMUD will provide usage)

☐Customer's Name:	☐SN:	☐ID:
☐Customer's Address:		
☐Customer's Phone:	☐Email:	
☐Service Start Date:	☐Service End Date:	
☐Last month's usage:

REQUEST #4: ☐ Comparison (Fill-in address; SMUD will provide usage)

☐Customer's Name:	☐SN:	☐ID:
☐Customer's Address:		
☐Customer's Phone:	☐Email:	
☐Service Start Date:	☐Service End Date:	
☐Last month's usage:		
☐Power usage / Notes:		

For your contact info make sure to include your name, agency email, and the date. You'll need to make sure to check the boxes for the info you want, or you won't get it.

That tip looks pretty good. The house at [redacted] just started growing recently and is Asian, but the house at [redacted] is actually under [redacted]. One thing interesting about the [redacted] address is the multiple Asians that have reported there through *Experian* in 2017.

Good morning. Just a heads up on these two addresses. The neighbor next to these homes, stopped me last week to tell me he was concerned we may have two more grow houses on our street.
The homes appear empty however have power lines were dug into [redacted] and both homes have heavy security cameras front and back with double doors.
only two young Asian girls apparently show up late at night stay a bit then leave.
Have not seen any cars going in or out of there. It may be something or not but worth letting you know.
The neighbor that informed me is to the left of [redacted]. His name is [redacted] and he has one of the cleanest well cared for yards on the street. Nice fellow and trustworthy but he is scared.

Sorry to throw this on your plate. I am sure you are swamped.
Happy Halloween, and best always.

DEPOSITION OF ROBERT DUGGAN
Sacramento, California
Friday, October 25, 2024

REPORTED BY: Matthew Sculatti
CSR No. 13558

PORTION DESIGNATED ATTORNEYS' EYES ONLY
Page 66, line 9 to page 97, line 24

transmitted.

I think they are on a ping system. So every so many meters, there's a meter that collects the data, and then it transfers it to another one. Then it bounces off a repeater. Then goes to the office, I guess. Something along that line.

Q But the usage data from any particular meter is basically transmitted -- right? -- electronically to SMUD?

A Correct.

Q There's no person taking that and then putting it into a device, as you talked about earlier, and then bringing it back to SMUD; correct?

A Correct.

Q And do you know, is that accomplished sort of via a Wi-Fi or mesh network?

A I'm not sure.

Q Okay. But it's somehow transmitted digitally?

A I think it's a mesh network. I don't know.

Q Okay. So before retiring, your last position at SMUD was a revenue protection --

A Representative.

Q -- representative. Thank you.

A It was a power theft investigator.

Q Okay. So yeah. What does that job entail?

A Just like it sounds. It is to go out and

actively search for power theft.

Q Okay. Would it be fair to characterize your duties as detecting, investigating, and stopping power theft?

A Yes.

Q Okay. Did you have any other job duties while working as a revenue -- in the revenue protection group?

A Just anything that entails to that.

Q Okay. Did your job duties include responding to law enforcement requests seeking SMUD customers' electrical usage data?

A Yes, it did.

Q So when I talk about electrical usage data, I mean things like a SMUD customer's name, their address, the amount of power that they have used over a period of time. It could be a month. It could be an hour.

Do you understand that definition in terms of electrical usage data?

MR. RANDLE: Objection. Vague and ambiguous.

Are you talking about your definition, or are you saying that that's some definition that has broader meaning?

MR. MACKEY: Essentially what I'm saying is, I'm going to use this definition of electrical usage data. So it includes things like the customer's name, their

California Narcotics Officers Association?

A Yes.

Q In those trainings with the California Narcotics Officers Association, was cannabis growing discussed?

A Yes.

Q And did you receive training about indoor cannabis growing at those conferences?

A Yes.

Q Did you have any other internal training for your position?

A Just on-the-job training, I think.

Q Okay. Any other external training, besides those conferences?

A I don't think so.

Q Okay. So in your 34 1/2 years working for SMUD, did you understand that SMUD is the only electrical utility within the City of Sacramento and the service area outside of Sacramento?

A They were just Sacramento County. Yes.

Q So residents living within SMUD service area -- they do not have a choice for power, besides using SMUD; correct?

A That's correct.

Q Okay. So are there any other personnel who you

Q Okay. So if I'm counting -- one, two, three -- fourth from the right is electric max, and then third from the right is electric base, and second from the right is electric slope. Is that correct?

A Correct.

Q What is electric max?

A I believe -- I mean, I'm not a hundred percent because this was a long time ago. It would be the max they used for that monthly time period.

Q And then what would electric base be?

A I don't -- I really don't -- can't explain. I don't know.

Q Okay. What fields do you believe would have been relevant for law enforcement in the generation of this list? Like, what field would Shaun McGovern have looked at?

MR. RANDLE: Objection. Calls for speculation.

BY MR. MACKEY:

Q If you were trying to -- you were trying to convey information to law enforcement about high energy users in the 95823 ZIP code. Correct?

A Correct.

Q On this list, what information would have indicated high energy use of these customers?

A The electric max.

Q The electric max.

A Remember, this is [redacted]. So all these categories have something to do with the [redacted] and stuff like that.

Q Would that information have been useful to Officer McGovern's investigation of indoor marijuana growth?

MR. RANDLE: Objection. Calls for speculation.

THE WITNESS: No, not that -- I mean, I didn't really understand it back then.

BY MR. MACKEY:

Q Okay. Why would you have disclosed all of this information to Officer McGovern?

A It's just a screenshot out of what would have came back.

Q So the system would have provided all of this information?

A Correct.

Q Okay. So in sending this information to Officer McGovern, what would this list convey to him?

A It would convey high users in that ZIP code.

Q Okay. If you look at the left side -- right -- in the margin, there's handwritten script. There's numbers that are next to many of the names appearing on these lists.

Do you know what these handwritten entries are?

A I believe they are the kWh. I don't know if it's in the max category, or is it the monthly SAP? I don't really remember. Because it's pretty correspondent with some of these, I think.

Q So you would -- you think that these numbers represent the sort of kilowatt hour -- kilowatt per hour usage --

A Monthly.

Q Of a monthly. Per monthly. Okay.

But they relate in some way to the customer names that they appear next to?

A Yes.

Q Okay. And do you know who wrote these entries into the margin?

A It looks like my writing.

Q Okay. And I think we've covered this, but just to be clear: What did these numbers mean?

A I believe that they are the monthly total consumption of kWh.

Q Right.

So again, the request sought information for users -- SMUD customers who were using more than 5,000 kilowatt hours in a month?

A Correct.

Q Does this information show -- does this handwritten information show the amount of electrical usage by kilowatt hours per month?

A Yes.

Q Thank you.

So if you flip one page, you will see, I think, the list continues. And then if you go just one more page over, this list continues again.

And so the third row -- the third entry on this page identifies an address -- a SMUD customer with an address with [redacted].

Do you see that?

A Uh-huh.

Q And then in the left-hand in the handwritten margin, there appears to be "16-plus lights" written.

Do you see that?

A Yes.

Q What does "16-plus lights" mean?

A It was my estimate of how many lights they are possibly using.

Q So you wrote "16-plus lights"?

A Yes.

Q And what do you mean by it was your --

A It's my opinion.

Q Sorry. If you could wait.

What do you mean by it was your estimation that they were using 16-plus lights?

A It was my opinion on looking at the data, what possibly could be running.

Q And so it means that you believe the customer is using 16 or more indoor grow lights to grow marijuana; correct?

A Correct.

Q What information in SMUD's systems would have led you to believe that there were 16-plus lights being used at this address?

A I probably looked at the UIQ graph.

Q So in coming to this determination, you would have had to look at a graph like the UIQ graph we looked at earlier in Exhibit 47?

A Yes.

Q Okay. And so in reviewing that data, you would have looked at the interval data?

A Yes.

Q And that interval data would have shown a pattern, like we discussed earlier, of sort of high energy use for a consistent period of time, followed by a significant drop in energy use?

A Yes.

Q And then, again, sort of the pattern would repeat

itself; correct?

A Correct.

Q All right. And so looking at a UIQ graph like that, how would you have been able to determine that they were using 16-plus lights?

A It would have been roughly 160 amps, 16 kWh an hour.

Q Can you break that down?

Like, can you explain for people who don't know power and don't have 34 1/2 years of experience how you would have actually determined this?

A Remember, this is just my opinion. My estimate.

1,000-watt grow light will pull 1 kWh per hour, which is 10 amps. So if you have 160 amps or 16 kWh, roughly, that would equate to that much equipment. I'm not saying that's what is really there. It's just my opinion, my estimate.

Q Okay. But you would have had independent knowledge that a light would have generated a certain amount -- would have required a certain amount of energy to operate over a certain amount of time. Correct?

A Correct.

Q And then you would have applied that knowledge to your opinion, based on reviewing the UIQ graph of the one-hour intervals of power usage?

Calls for speculation.

You can answer.

THE WITNESS: Looks like a good-paying customer to me.

BY MR. MACKEY:

Q Why is that? Why are they a good-paying customer?

A Well, I don't know if they were good-paying, but a lot of money coming in there.

Q They are paying a lot of money because they are using a lot of energy?

A Yeah. Yeah.

Q Okay. Would every SMUD customer in a given ZIP code who uses above the threshold of energy use that law enforcement is seeking -- would -- would they be automatically suspected of growing marijuana?

A If it had a pattern.

Q Okay. But just the use itself of a large amount of electricity would not be enough to suspect that they were growing marijuana?

A Depending what area you live in. Some areas you have got really big houses. They use a lot of electricity. Some areas have really small houses. They don't use that much electricity. If you have an area that has all-electric heat, they are going to use a lot more

electricity in the wintertime; summertime with the air-conditioning. It varies on location.

There's a lot of factors to it.

Q Right.

So over the course of generating these lists, do you think you became familiar with how people might be using energy to cultivate marijuana indoors?

A Yes.

Q Okay. And you became aware of that by looking at interval data for homes; correct?

A Correct.

Q And as we discussed earlier, your knowledge of that, coupled with outside knowledge about the amount of energy used by a light, allowed you to make opinions about, say, how many lights were being used in an indoor grow?

A Yes.

Q Okay. And one of the features of this would be that a pattern that you're looking for might involve lights being on or energy being used for a certain amount of time; correct?

A 12- or 18-hour cycles.

Q 12- or 18-hour cycles.

And just so I understand that, what you mean by cycles is that a light would be -- lights would be on for

Q Do you know if SMUD had a centralized system that kept track of how many times law enforcement was requesting information?

A I have no idea.

Q So it's correct that you would disclose customer electrical usage data to law enforcement by e-mail. Correct?

A Correct.

Q And you would disclose customer electrical usage data to law enforcement by text message. Correct?

A If it was needed on the fly, as long as they followed it up with a request form.

Q Did you ever disclose customer data to law enforcement by other means than text and e-mail?

A No.

Q So you never disclosed customer data to law enforcement in a face-to-face interaction?

A Not that I am aware of.

Q So, like, if you were in the field and you were with police, you never disclosed it? Like, you queried your system and then relayed that information to them, face to face?

A Not that I'm aware of.

Q Okay. If you had, would there have been any record of the face-to-face disclosures?

MR. RANDLE: Objection. Vague and ambiguous. Calls for a legal opinion.

You can answer, if you understand it.

THE WITNESS: I don't understand it.

BY MR. MACKEY:

Q But you never were asked to disclose in that manner?

A I don't understand the question.

Q Okay. Did you ever disclose ZIP lists to law enforcement after asking for a customer's consent?

A Are you asking me if I asked the customer if I can give it to them? No.

Q No?

So you never sought the consent of a SMUD customer before disclosing their information to law enforcement?

MR. RANDLE: Objection. Vague and ambiguous as to him, versus him as S-M-U-D, is my only objection.

You can go ahead and answer.

THE WITNESS: No.

BY MR. MACKEY:

Q SMUD did not seek the consent of any user whose information was disclosed in response to a law enforcement request?

MR. RANDLE: Objection. Calls for speculation.

would disseminate it to your officers, and that's when --

And would you instruct them in any way in particular or just disseminate it to them?

A. I would just disseminate it to them, and they knew exactly what to do from there.

Q. And that's when they would begin their investigations?

A. Yes.

Q. Thank you.

Now, sometimes you would get search warrants, right, as part of the investigation?

A. It just depends.

Q. Sometimes you would get search warrants?

A. Yes.

Q. You would draft and prepare and apply for a search warrant; right?

A. Correct.

Q. And sometimes there would be these letters sent out by Miss Mendoza, and you would get phone calls from people; right?

A. Correct.

Q. And sometimes you would go inspect the house without a search warrant.

Is that right?

A. Yes. We would do a compliance inspection.
Q. And are those compliance inspections like an administrative subpoena, an administrative compliance inspection, or just kind of showing up, "I'm here to check out your house"?
A. We would make contact with those individuals --
Q. Okay.
A. -- and they would receive the letter.
Q. Okay.
A. Once they received the letter, they would contact us, generally either by phone or e-mail, and explain to us, "I got this letter, I want to talk to you about it, please reach out to me."
Q. Yes. Gotcha.
So you would arrange an inspection?
A. Correct. It wasn't -- it wasn't just showing up and saying we're here.
Q. Okay.
A. It was always arranged.
Q. And in that situation, the letter that goes out says call us, we think you're doing something illegal; right? That's the essence of the letter.
A. In a roundabout, yes.
Q. Not roundabout. It says call us.
A. It says contact us, yeah.

Q. Okay. And then it puts a number and an e-mail; right?
A. Yes, uh-huh.
Q. And typically it was your e-mail; right?
A. It was my e-mail, yes.
Q. Did you get e-mails from people?
A. Most everyone called. From time to time we'd get e-mails or I would receive e-mails, but most of them called.
Q. And sometimes they would leave you voicemails; right?
A. Correct.
Q. Did you save those voicemails?
A. I didn't, no.
Q. Some people were not happy about getting that letter, were they?
A. Correct.
Q. In fact, some people were downright pissed off?
A. Yes.
Q. Some people were pissed off that they were being accused of committing a crime when they were not doing anything wrong?
A. Yes.
Q. And the letters that were sent were the result of, in the first place, receiving information,

electrical consumption data, from SMUD; correct?
A. Correct.
Q. Other than you on the -- I'll give you a fair question. In that two-year -- I'll call it roughly two-year period that you were the sergeant, other than you was there anybody else who was the call, the sergeant number or e-mail address on the letters?
A. No. It was always myself.
Q. When you joined that job as sergeant, the letters went out in English and Chinese; right? Mandarin, specifically.
A. Yes, I recall that.
Q. Did you make a change to that practice?
A. No, I did not.
Q. And did that practice change at some point?
A. It did, yes.
Q. Do you know why it changed? Let me back up.
The change was that you stopped sending it in Mandarin?
A. Yes.
Q. You only sent them in English?
A. Yes.
Q. Do you know why that changed?
A. That was a conversation between Miss Mendoza and the lieutenant.

Does this Exhibit 27.5 prompt your memory whether that kind of information was brought to your memory?

A. You're talking about --

Q. The second one. It says, "It could be A/C usage."

A. So from August of 2021 to the time I retired there were some locations that did have high usage that it turned out not to be cannabis cultivation.

Q. There were lots of locations that didn't have cannabis where their usage exceeded the 2,800 kilowatts that you set; correct?

MR. KIM: Objection. Vague and ambiguous as to "lots."

But you can answer to your understanding.
