{Section A: General Provisions}

Article QQ.A.1: {Definitions}

For the purposes of this Chapter:

Intellectual property² refers to all categories of intellectual property that are the subject of Sections 1 through 7 of Part II of the TRIPS Agreement [³].

Article QQ.A.2: {Objectives}⁴

[NZ/CL/PE/VN/BN/MY/SG/CA⁵/MX⁶ propose; US/JP oppose: The objectives of this Chapter are:

- a. Enhance the role of intellectual property in promoting economic and social development, particularly in relation to the new digital economy, technological innovation, the [PE: generation,] transfer and dissemination of technology and trade;
- b. reduce impediments to trade and investment by promoting deeper economic integration through effective and adequate creation, utilization, protection and enforcement of intellectual property rights, taking into account the different levels of economic development and capacity as well as differences in national legal systems;

¹ Section and Article titles and headings appear in this text on a without prejudice basis. Parties have agreed to defer consideration of the need for, and drafting of, Section and Article titles and headings. Such titles or headings that appear in braces (i.e., "{ }") are included for general reference and information purposes only.

² Negotiators' Note: NZ/SG supports a definition for Intellectual Property which mirrors TRIPS Article 1.2 subject to confirmation of treatment of plant varieties rights.

³ [AU/PE: For the purpose of this Chapter "intellectual property" also includes rights in plant varieties.]

⁴ Negotiators' Note: AU supports including objectives but is still considering the drafting and scope of this article.

⁵ Negotiators' Note: CA supports this provision in principle, but is reviewing the proposal.

⁶ Negotiators' Note: MX will reflect further on the additional subparagraphs (g) and (h).

- c. maintain a balance between the rights of intellectual property holders and the legitimate interests of users and the community in subject matter protected by intellectual property.
- d. protect the ability of Parties to identify, promote access to and preserve the public domain;
- e. Ensure that measures and procedures to enforce intellectual property rights do not themselves become barriers to legitimate trade;
- f. Promote operational efficiency of intellectual property systems, in particular through quality examination procedures during the granting of intellectual property rights.]

[NZ/CA/SG/CL/MY/VN propose. g. The protection and enforcement of intellectual property rights should contribute to the promotion of technological innovation and to the transfer and dissemination of technology, to the mutual advantage of producers and users of technological knowledge and in a manner conducive to social and economic welfare, and to a balance of rights and obligations.

h. Support each Party's right to protect public health, including by facilitating timely access to affordable medicines.]

[Article QQ.A.2bis: {Principles}

[NZ/CA/SG/CL/MY propose: 1. Each Party may, in formulating or amending its laws and regulations, adopt measures necessary to protect public health and nutrition, and to promote the public interest in sectors of vital importance to its socio-economic and technological development, provided that such measures are consistent with the provisions of this Chapter.

2. Each Party may adopt or maintain appropriate measures, provided that they are consistent with the provisions of this Chapter, to prevent the abuse of intellectual property rights by right holders or the resort to practices which unreasonably restrain trade or adversely affect the international transfer of technology.

3. Each Party may adopt or maintain, consistently with the other provisions of this Chapter, appropriate measures to prevent or control practices or conditions that may in particular cases constitute an abuse of intellectual property rights having an adverse effect on competition in the relevant market.]]

Each Party shall give effect to the provisions of this Chapter. A Party may, but shall not be obliged to, provide more extensive protection for, and enforcement of, intellectual property rights under its law than is required by this Chapter, provided that such protection and enforcement does not contravene the provisions of this Chapter. Accordingly, while reiterating their commitment to this Chapter, the Parties affirm that this Chapter can and should be interpreted and implemented in a manner supportive of each Party's right to protect public health and, in particular, to promote access to medicines for all.⁸

Submission of Information or Evidence Concerning the Safety or Efficacy of a New Pharmaceutical Product

[US propose; AU/PE/VN/NZ/CL/MY/SG/BN oppose: 1. (a) If a Party requires or permits, as a condition for granting marketing approval for a new pharmaceutical product, the submission of information concerning the safety or efficacy of the product, the origination of which involves a considerable effort, the Party shall not, without the consent of a person previously submitting such safety or efficacy information to obtain marketing approval in the territory of the Party, authorize a third person to market a same or a similar product based on:

public health in accordance with:

- (a) the Declaration on the TRIPS Agreement and Public Health (WT/MIN(01)/DEC/2) (the “Declaration”);
- (b) any waiver of any provision of the TRIPS Agreement granted by WTO Members in accordance with the WTO Agreement to implement the Declaration and in force between the Parties; and
- (c) any amendment of the TRIPS Agreement to implement the Declaration that enters into force with respect to the Parties.

3. A Party that requires or permits an applicant to obtain approval for marketing a new pharmaceutical product in its territory by relying, in whole or in part, on the prior approval of the pharmaceutical product by the regulatory authority in another territory may, as a condition for providing the period of data protection specified in subparagraph 2(b) or 2(d), require an applicant that has submitted an application for marketing approval consistent with said subparagraphs to commence the process of obtaining marketing approval for that pharmaceutical product within [X] years of the date of first marketing approval of the same pharmaceutical product in another Party.

Article QQ.E.17:

1. Where a Party requires or permits, as a condition of approving the marketing of a pharmaceutical product, persons, other than the person originally submitting safety or efficacy information, to rely on that information or on evidence concerning safety or efficacy information for a product that was previously approved, such as evidence of prior marketing approval in another territory, each Party shall:¹¹⁴

- (a) provide a transparent and effective system to:
 - (i) identify a patent or patents covering an approved pharmaceutical product or its approved method of use; and
 - (ii) provide notice to a patent holder of the identity of another person who intends to market, during the term of the identified patent or patents, a product that is the same as, or similar to, the approved pharmaceutical product referenced in subparagraph 5(a)(i).

¹¹⁴ For greater certainty, the Parties recognize that this paragraph does not imply that the marketing approval authority should make patent validity or infringement determinations.

- (b) unless such other person agrees to defer the marketing of the product until after the expiration of an identified patent, ensure that a patent holder may seek, prior to granting of marketing approval to an allegedly infringing product, available remedies by providing:
 - (i) an automatic delay of the grant of marketing approval that remains in place for a period of time designed to ensure sufficient opportunity to adjudicate¹¹⁵ disputes concerning the validity or infringement of allegedly infringed patents; and
 - (ii) judicial or administrative procedures, including effective provisional measures, to allow for the timely adjudication of disputes concerning the validity or infringement of an allegedly infringed patent.
- (c) If such other person's product has been found to infringe a valid patent identified pursuant to subparagraph (a), provide measures that operate to prohibit the unauthorized marketing of that product prior to the expiration of the patent.
- (d) when a Party delays the grant of marketing approval consistent with subparagraph 5(b)(i), provide an effective reward, consistent with the provisions of this Agreement, for the successful challenge of the validity or applicability of the patent.¹¹⁶

2. In implementing subparagraph 5(b)(i), and as a condition for providing the automatic delay of the grant of marketing approval specified in subparagraph 5(b)(i) for a new pharmaceutical product approved consistent with subparagraph 2(b) or 2(d), a Party may require that an applicant that has submitted an application for marketing approval consistent with subparagraph 2(b) or 2(d) to commence the process of obtaining marketing approval for that new pharmaceutical in the Party within [X] years of the date of first marketing approval of the pharmaceutical product in another Party.

Article QQ.E.19: Where a Party chooses to apply subparagraph 6(e) of Article 8 and paragraphs 4 and 6 of this Article, the following provisions shall apply:

- (a) a Party shall permit an applicant to commence the process of obtaining marketing approval by providing the regulatory authority of the Party information supporting approval of the new pharmaceutical product in the Party that is available to the person at the time the request is made, such as evidence of the prior approval of the product in another Party. It is understood that, while a Party may impose reasonable additional requirements or deadlines as a condition of authorizing the person to market the pharmaceutical product in its territory, satisfaction of those additional requirements or deadlines or the granting of approval shall be recognized by the Party as necessarily occurring after the commencement of the marketing approval process within the meaning of subparagraph 6(e) of Article 8 and paragraphs 4 and 6 of this Article; and
- (b) a Party may not refuse to grant approval of a new pharmaceutical product on the basis of a failure of an applicant for marketing approval to satisfy the requirements of subparagraph 6(e) of Article 8 or paragraphs 4 and 6 of this Article.

Each Party shall ensure that enforcement procedures as specified in this section, are available under its law [CL/SG/CA/BN/PE/MX/VN propose: and its legal system] so as to permit effective action against any act of infringement of intellectual property rights covered by this Chapter, including expeditious remedies to prevent infringements and remedies which constitute a deterrent to future infringements. These procedures shall be applied in such a manner as to avoid the creation of barriers to legitimate trade and to provide for safeguards against their abuse.

2. Each Party shall ensure that its procedures concerning the enforcement of intellectual property rights shall be fair and equitable. These procedures shall not be unnecessarily complicated or costly, or entail unreasonable time-limits or unwarranted delays.

[CL/VN/PE/AU/MY/BN/NZ/SG/MX/CA propose: 3. This Section does not create any obligation:

- (a) to put in place a judicial system for the enforcement of intellectual property rights distinct from that for the enforcement of law in general, nor does it affect the capacity of each Party to enforce their law in general, or
- (b) with respect to the distribution of resources as between the enforcement of intellectual property rights and the enforcement of law in general.]

[US/SG propose¹⁸⁸; BN/VN/PE/MY/NZ/MX/CA oppose: 4. The Parties understand that the distribution of enforcement resources shall not excuse that Party from complying with this Section¹⁸⁹.]

Article QQ.H.2: {Presumptions}

¹⁸⁷ [CL propose: For greater certainty, law may include enforcement procedures established under Parties legal systems.]

3. Each Party [US/AU/PE/NZ/CL/MX/CA/JP/SG/BN/VN propose: shall] [MY propose: may] publish or otherwise make available to the public information on its efforts to provide effective enforcement of intellectual property rights in its civil, administrative and criminal systems, such as statistical information that the Party may collect for such purposes.

¹⁹⁶ For the purposes of this Article, the term “right holder” shall include those authorized licensees, federations and associations that have the legal standing and authority to assert such rights. The term “authorized licensee” shall include the exclusive licensee of any one or more of the exclusive intellectual property rights encompassed in a given intellectual property.

¹⁹⁷ Negotiators' Note: AU/US/JP would like to consider this proposal in tandem with the definition of intellectual property rights in this Chapter.

¹⁹⁸ [AU/NZ/MY/CA/JP/SG propose: A Party may also provide that the right holder may not be entitled to either of the remedies set out in 2 and 2bis in the case of a finding of non-use of a trademark] [JP/AU/SG/CA/MY propose: it is understood that there is no obligation for a Party to provide for the possibility of the remedies in 2 and 2bis to be ordered in parallel.]

¹⁹⁹ [US propose: In the case of patent infringement, damages adequate to compensate for the infringement shall not be less than a reasonable royalty.] [Negotiators' note: JP can go along with consensus.]

- (c) in regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed shall not be sufficient, other than in exceptional circumstances, to permit the release of goods into the channels of commerce.

11²¹². Without prejudice to its law governing privilege, the protection of confidentiality of information sources, or the processing of personal data, each Party shall provide that, in civil judicial proceedings concerning the enforcement of intellectual property rights, its judicial authorities have the authority, upon a justified request [VN: propose²¹³] of the right holder, to order the infringer or, in the alternative, the alleged infringer, to provide to the right holder or to the judicial authorities, at least for the purpose of collecting evidence, relevant information as provided for in its applicable laws and regulations that the infringer or alleged infringer possesses or controls. Such information may include information regarding any person involved in any aspect of the infringement or alleged infringement and regarding the means of production or the channels of distribution of the infringing or allegedly infringing goods or services, including the identification of third persons alleged to be involved

²¹¹ Negotiator's Note: MX supports this in principle but needs to reflect on this pending discussions on paragraph QQ.H.4.13.

²¹² Negotiator's Note: MX is still considering this proposal.

²¹³ VN propose: A request for an order under this paragraph may be considered as unjustified in case such order would be out of proportion to the seriousness of the infringement.

12. Each Party shall provide that in relation to a civil judicial proceeding concerning the enforcement of intellectual property rights, its judicial or other authorities have the authority to impose sanctions on a party, counsel, experts, or other persons subject to the court's jurisdiction, for violation of judicial orders concerning the protection of confidential information produced or exchanged in connection with such a proceeding.²¹⁴

13. To the extent that any civil remedy [VN propose; MX oppose:²¹⁵] can be ordered as a result of administrative procedures on the merits of a case, each Party shall provide that such procedures conform to principles equivalent in substance to those set out in this Article (civil and administrative proceedings)

14. In the event that a Party's judicial or other authorities appoint technical or other experts in civil proceedings concerning the enforcement of intellectual property rights and require that the parties to the litigation bear the costs of such experts, that Party should seek to ensure that such costs are reasonable and related appropriately, *inter alia*, to the quantity and nature of work to be performed and do not unreasonably deter recourse to such proceedings.

Article QQ.H.5: {Provisional Measures}

1. Each Party's authorities shall act on requests for relief *inaudita altera parte* expeditiously in accordance with the Party's judicial rules.

2. Each Party shall provide that its judicial authorities have the authority to require the applicant, with respect to provisional measures, to provide any reasonably available evidence in order to satisfy themselves with a sufficient degree of certainty that the applicant's right is being infringed or that such infringement is imminent, [VN//PE: and that any delay in the issuance of such measures is likely to cause irreparable harm to the right holders, or there is a demonstrable risk of evidence being destroyed,] and to order the applicant to provide a security or equivalent assurance set at a level sufficient to protect the defendant and to prevent abuse. Such security or equivalent assurance shall not unreasonably deter recourse to such procedures.

Article QQ.H.6: {Special Requirements Related to Border Enforcement²¹⁸ / Special Requirements related to Border Measures} [²¹⁹]

²¹⁷ Negotiator's Note: This will be discussed in relation to provisions regarding TPM and RMI.

²¹⁸ Negotiators Note: The scope of border measures in this section will be confined to counterfeit trademark goods, pirated copyright goods. The US proposal for inclusion of, confusingly similar trademark goods is still under negotiation and Parties have different views on this proposal.

²¹⁹ [CA propose: It is understood that there shall be no obligation to apply the procedures set forth in this Article to goods put on the market in another country by or with the consent of the right holder.]

1. Each Party shall provide that any right holder initiating procedures for its competent authorities to suspend release of suspected counterfeit [SG/BN/MY/VN/CA oppose: or confusingly similar] trademark goods, or pirated copyright goods²²⁰ into free circulation is required to provide adequate evidence to satisfy the competent authorities that, under the law{s} of the [CA/NZ/MX/US/PE/AU oppose: country of importation] [CA/NZ/MX/US/PE/AU²²¹ propose: Party providing the procedures], there is *prima facie* an infringement of the right holder's intellectual property right and to supply sufficient information that may reasonably be expected to be within the right holder's knowledge to make the suspected goods ²²²reasonably recognizable by its competent authorities. The requirement to provide such information shall not unreasonably deter recourse to these procedures.

1bis. Each Party shall provide for applications to suspend the release of, or to detain, any suspect goods ²²³ [SG/VN oppose: under customs control ²²⁴ in its territory.] [SG/VN propose: that are imported into the territory of the Party²²⁵] A Party may provide that, at the request of the right holder, an application to suspend the release of, or to detain, suspect goods may apply to selected points of entry [US/CA/JP/MX²²⁶ propose; CL/SG/VN oppose: and exit] under customs control.]²²⁷ ²²⁸ [US/AU/CA/JP/NZ propose; MX /PE/CL/MY/SG/VN/BN oppose: Each Party shall provide that applications [NZ oppose: shall] remain in force [NZ propose: for the period requested by the right holder but not exceeding five years, or] for a period of not less than one year from the date of application, or the period that the good is protected by copyright or the relevant trademark registration is valid, whichever is shorter.[NZ propose: A Party may provide that its competent authorities have the authority to suspend or invalidate an application when there is due cause.]

²²⁰ For purposes of Article 14:

- (a) **counterfeit trademark goods** means any goods, including packaging, bearing without authorization a trademark that is identical to the trademark validly registered in respect of such goods, or that cannot be distinguished in its essential aspects from such a trademark, and that thereby infringes the rights of the owner of the trademark in question under the law of the country of importation; and
- (b) **pirated copyright goods** means any goods that are copies made without the consent of the right holder or person duly authorized by the right holder in the country of production and that are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the country of importation.

²²¹ Negotiators' Note: AU supports this ad referendum.

²²² Negotiators' Note: Need to clean up terminology in H.6 relating to 'goods' and 'merchandise'.

²²³ Negotiators' Note: MY/CA/SG/AU/VN/BN: suspect goods need to be defined and revert back.

²²⁴ Negotiators' Note: CA/MY/AU: Customs controls need to be defined and revert back.

²²⁵ [SG propose: the requirement to provide for such application is applicable to the obligation to provide procedures referred to in Article QQ.H.6.1.]

²²⁶ Negotiators' Note: AU/PE can support consensus.

²²⁷ Negotiators' Note: MY/SG/VN/BN are considering this first clause.

²²⁸ Negotiators' Note: Parties are considering the need for a footnote to deal with the scope of this clause.

2. Each Party shall provide that its competent authorities have the authority to require a right holder initiating procedures to suspend the release of suspected counterfeit [BN/SG/MY/VN/CA oppose: or confusingly similar] trademark goods, or pirated copyright goods, to provide a reasonable security or equivalent assurance sufficient to protect the defendant and the competent authorities and to prevent abuse. Each Party shall provide that such security or equivalent assurance shall not unreasonably deter recourse to these procedures. A Party may provide that such security may be in the form of a bond conditioned to hold the defendant harmless from any loss or damage resulting from any suspension of the release of goods in the event the competent authorities determine that the article is not an infringing good.

3. Without prejudice to a Party's laws pertaining to privacy or the confidentiality of information, where its competent authorities have detained or suspended the release of goods that are suspected of being counterfeit or pirated, a Party may provide that its competent authorities have the authority to inform the right holder [CA/VN propose: who has filed a request for assistance] [MY/CA/BN/PE/VN oppose: promptly] [MY/CA/PE²²⁹ /BN/SG/VN propose: within a reasonable period] of the names and addresses of the consignor, exporter, consignee or importer, a description of the merchandise, quantity of the merchandise, and, if known, the country of origin of the merchandise.: Where a Party does not provide such authority to its competent authorities when suspect goods are detained or suspended from release, it shall provide [US/VN propose: , at least in cases of imported goods,] its competent authorities with the authority to provide the foregoing information to the right holder [SG/VN oppose: within 30 days²³⁰] [SG/VN propose: within a reasonable period] of the seizure or determination that the goods are counterfeit or pirated, whichever is earlier.

[US/PE/AU/SG/MY/CL/CA/BN/JP propose; NZ/VN/MX oppose: 4. 5. Each Party shall adopt or maintain a procedure by which its competent authorities may determine, within a reasonable period of time after the initiation of the procedures described under Article QQ.H.6(1)²³³ whether the suspect goods infringe an intellectual property right. Where a Party provides administrative procedures for the determination of an infringement, it [VN²³⁴ propose: may] [VN oppose: shall] also provide its authorities with the authority to impose administrative penalties, which may include monetary penalties or the seizure of the infringing goods, following a determination that the goods are infringing.

6. Each Party shall provide that its competent authorities have the authority to order the destruction [VN propose: , or disposal outside the channel of commerce,] of goods following a determination that the goods are infringing. In cases where such goods are not destroyed, each Party shall ensure that, except in exceptional circumstances, such goods are disposed of outside the channels of commerce in such a manner as to avoid any harm to the right holder. In regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed shall not be sufficient, other than in exceptional cases, to permit the release of the goods into the channels of commerce.

7. Where a Party establishes or assesses, in connection with the procedures described in this section [article], an application fee, storage fee, or destruction fee, such fee shall not be set at an amount that unreasonably deters recourse to these procedures

8. Each Party shall include in the application of this Article goods of a commercial nature sent in small consignments. A Party may exclude from the application of this Article small quantities of goods of a non-commercial nature contained in travellers' personal luggage.²³⁵

Article QQ.H.7: {Criminal Procedures and Remedies / Criminal Enforcement}

7. With respect to the offences described in Article QQ.H.7[1]-[4] above, each Party shall provide:

[US/AU/SG propose; CL/MY/NZ/VN/BN/CA/MX/PE oppose: Annex to Article QQ.I.1.3(b)(ix)]

In meeting the obligations of Article **QQ.I.1.3(b)(ix)**, each Party shall adopt or maintain requirements for: (a) effective written notice to service providers with respect to materials that are claimed to be infringing, and (b) effective written counter-notification by those whose material is removed or disabled and who claim that it was disabled through mistake or misidentification, as set forth in this letter. Effective written notice means notice that substantially complies with the elements listed in section (a) of this letter, and effective written counter-notification means counter-notification that substantially complies with the elements listed in section (b) of this letter.

(a) Effective Written Notice, by a Copyright²⁸⁹ Owner or Person Authorized to Act on Behalf of an Owner of an Exclusive Right, to a Service Provider's Publicly Designated Representative²⁹⁰

In order for a notice to a service provider to comply with the relevant requirements set out in Article **QQ.I.1.3(b)(ix)**, that notice must be a written communication, which may be provided electronically, that includes substantially the following:

1. the identity, address, telephone number, and electronic mail address of the complaining party (or its authorized agent);
2. information reasonably sufficient to enable the service provider to

²⁸⁸ [CL/MY/SG/NZ/AU/US/PE propose: As used in subparagraph (xii), a Party may provide that network access includes cases in which network access is provided by another provider.]

²⁸⁹ All references to copyright in this letter are understood to include related rights, and all references to works are understood to include the subject matter of related rights.

²⁹⁰ The Parties understand that a representative is publicly designated to receive notification on behalf of a service provider if the representative's name, physical and electronic address, and telephone number are posted on a publicly accessible portion of the service provider's website, and also in a register accessible to the public through the Internet, or designated in another form or manner appropriate for [insert Party name].

3. information reasonably sufficient to permit the service provider to identify and locate the material residing on a system or network controlled or operated by it or for it that is claimed to be infringing, or to be the subject of infringing activity, and that is to be removed, or access to which is to be disabled;²⁹²

4. a statement that the complaining party has a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law;

5. a statement that the information in the notice is accurate;

6. a statement with sufficient indicia of reliability [SG propose:²⁹³] (such as a statement under penalty of perjury or equivalent legal sanctions) that the complaining party is the [SG/AU oppose: holder] [SG/AU propose: owner] of an exclusive right that is allegedly infringed, or is authorized to act on the owner's behalf; and

7. the signature of the person giving notice.²⁹⁴

(b) Effective Written Counter-Notification by a Subscriber²⁹⁵ Whose Material Was Removed or Disabled as a Result of Mistake or Misidentification of Material

In order for a counter-notification to a service provider to comply with the relevant requirements set out in Article **QQ.I.1.3.(b)(ix)**, that counter-notification must be a written communication, which may be provided electronically, that includes substantially the following:

²⁹¹ If multiple copyrighted works at, or linked to from, a single online site on a system or network controlled or operated by or for the service provider are covered by a single notification, a representative list of such works at, or linked to from, that site may be provided.

²⁹² In the case of notices regarding an information location tool pursuant to paragraph (b)(i)(D) of Article 16.3, the information provided must be reasonably sufficient to permit the service provider to locate the reference or link residing on a system or network controlled or operated by or for it, except that in the case of a notice regarding a substantial number of references or links at a single online site residing on a system or network controlled or operated by or for the service provider, a representative list of such references or links at the site may be provided, if accompanied by information sufficient to permit the service provider to locate the references or links.

²⁹³ [SG propose: To satisfy this requirement, the process to be established shall not be costly or cumbersome. An appropriate electronic mechanism may be used or incorporated in this process.]

²⁹⁴ A signature transmitted as part of an electronic communication satisfies this requirement.

²⁹⁵ All referenced to "subscriber" in this letter refer to the person whose material has been removed or disabled by a service provider as a result of an effective notice described in part (a) of this letter.

1. the identity, address, [SG/AU propose: electronic mail address] and telephone number of the subscriber;
2. the identity of the material that has been removed or to which access has been disabled;
3. the location at which the material appeared before it was removed or access to it was disabled;
4. a statement with sufficient indicia of reliability (such as a statement under penalty of perjury or equivalent legal sanctions) that the subscriber [SG/AU propose: is the supplier of the material and] has a good faith belief that the material was removed or disabled as a result of mistake or misidentification of the material;
5. a statement that the subscriber agrees to be subject to orders of any court that has jurisdiction over the place where the subscriber's address is located, or, if that address is located outside the Party's territory, any other court with jurisdiction over any place in the Party's territory where the service provider may be found, and in which a copyright infringement suit could be brought with respect to the alleged infringement;
6. a statement that the subscriber will accept service of process in any such suit; and
7. the signature of the subscriber.²⁹⁶
