

March 13, 2015

Hon. Mark Leno,  
State Capitol, Room 5100  
Sacramento, CA 95814

Dear Senator Leno:

Facebook is pleased to offer its support of SB 178, your bill to safeguard Californians' electronic information by making it clear that a warrant is required to access a person's electronic content.

People deserve to connect with friends and loved ones knowing that their personal photos and messages are well-protected. The Electronic Communication Privacy Act, which codifies Facebook's current practice of requiring a warrant for access to this content, is an important win for all Californians.

We look forward to working with you toward enactment of this proposed new law.

Sincerely,

Ann Blackwood
