I decided to stay late and finish reviewing all the IOBs you gave me because so many are missing.

\* I did not review #s [redacted] as they were not in the 3 folders you gave me. I only reviewed [redacted] [redacted] with [redacted] omissions. The [redacted] omissions are listed at the bottom of this email.

\* There were [redacted] reportable NSL IOBs and [redacted] non-reportable NSL IOBs.

\* The main inconsistency for NSLs was with reporting 3rd party errors. [redacted] were not reported and [redacted] were reported. So, based on today's guidance, all those would be non-reportable. This would change the numbers to [redacted] reportable and [redacted] non-reportable.

\* I'll work on the percentages once we decide about the missing IOBs.

\* I still need to check on the [redacted] in the first batch.

I'm out of here....
