Just a quick heads up - since this seems like a lot has to happen in a short period of time - such as -determine what size system, and get it there etc...

Subject: [redacted] JTTF Offsite

UNCLASSIFIED
NON-RECORD

As you are aware, [redacted] is currently involved with establishing a JTTF Offsite location. Occupancy of the offsite is scheduled for approximately 08/15/04. Last November, with input from ERF, the TTAs submitted a proposed monitoring plant which included all the requirements. Nothing happened until a couple of weeks ago. We were then advised our proposal was not possible and we had to substantially reduce our horizons.

[redacted] provided us with infrastructure information and provided a drawing of an [redacted] monitoring plant. The attached plans depict what [redacted] was able to adapt to the limited space. I submitted an RMS to both of you today, requesting equipment. I also sent a request for [redacted] assistance. I am not sure who will be the point on that one at your end.

TS [redacted] is the [redacted] POC for technical needs concerning DCS matters. I know you have frequent contact with her, [redacted] She is the best.

[redacted] you will have to put up with me on the RedWolf stuff, and [redacted] of course.

Please let [redacted] or I know of any possible problems or for any additional info you need. We don't have space for any of our [redacted] at the offsite. So we won't have to address that matter. The monitoring plant will be a remote from the [redacted] HQ office. The DCS might be another matter, beyond me.. [redacted] has ideas.

The RMS's are as follows:

- [redacted] CMP Buildout
- [redacted] DCS 3000
- [redacted]

Hope to hear from you soon!
Thanks,

[redacted]
