

## Lost Communications Procedures

In the event of lost radio communications between the LRE and TJBQ air traffic control or San Juan CERAP the aircraft will squawk IFF Mode 3A code 7600 and maintain last assigned heading and altitude while the PIC establishes telephonic contact with the controlling agency to coordinate recovery and landing.

In the event of lost radio communications between the MCE and either TJBQ air traffic control or San Juan CERAP the aircraft will squawk IFF Mode 3A code 7600 and maintain last assigned heading and altitude while the PIC establishes telephonic contact with the controlling agency to coordinate recovery and handoff of the aircraft to the LRE for landing.

If the aircraft is recovering from outside the San Juan FIR the aircraft will squawk IFF Mode 3A code 7600 and proceed no further than Waypoint 3 until the PIC establishes telephonic communication with San Juan CERAP for recovery and handover to the LRE.
