Dear Aircraft Owner:

The Federal Aviation Administration has established a requirement to re-register all aircraft issued registration before October 1, 2010, by amending 14 Code of Federal Regulations, Part 47, as published in the Federal Register on July 20, 2010, page 41968. The amendment also provides that aircraft registrations issued on and after October 1, 2010, will expire after three years. These changes will keep the U.S. Civil Aircraft Register up-to-date, to provide reliable support to users of the registration system.

The registration of the aircraft shown above expired on June 30, 2011. The aircraft's registration and airworthiness certificates no longer support operation of the aircraft. The assigned N-number is no longer authorized for use and cancellation of its assignment to this aircraft is scheduled for 60 days from the date of this notice.

In order to return the aircraft to a valid registration status, you may apply to re-establish the expired registration in accordance with §47.31(a) at any time prior to the end of this 60-day period by filing an acceptable Aircraft Registration Application, AC Form 8050-1, and the \$5.00 registration fee. At any time after the N-number assignment is cancelled, the aircraft may be reinstated and registered in your name by submitting an Aircraft Registration Application and the \$5.00 registration fee. Please note, the temporary (pink copy) authority to operate the aircraft provided for in §47.31(c) is unavailable in both cases as no transfer of ownership has occurred.

If you choose not to re-register the aircraft, you may reserve the N-number in your name by filing, prior to scheduled cancellation, written correspondence that both requests cancellation of the assignment of the N-number and asks that the number be reserved in your name, along with the \$10.00 reservation fee. The request must be signed in ink, with title shown, if appropriate. If no acceptable request is made, the N-number will be cancelled and designated as unavailable for the next five years.

Sincerely,

Walter Binkley, Manager

RE-REGISTRATION INSTRUCTIONS

NO CHANGES: If 1) the ownership and the registration addresses are unchanged; 2) the aircraft owner(s) still meet the citizenship requirements in 14 CFR §47.3; and 3) the aircraft is not registered under the laws of any foreign country, then:

Complete the Aircraft Re-registration Application, AC Form 8050-1A, on our web site, print it, sign it, and mail it with the \$5.00 re-registration fee to the FAA Aircraft Registration Branch (Registry) at the address shown below. ADDRESS CHANGES: Unreported address changes must be included on the Aircraft Re-registration Application. This form is available and may be filled out on our web site. When all information is entered, print the form then sign and send it, with the \$5.00 fee, to the address shown below. The Registry will mail a form to the owner upon receipt of a request by telephone, FAX, or letter.

OTHER CHANGES: Aircraft owners are still required to notify the Registry when their aircraft have been sold, exported, or destroyed. These reports may be made with the Aircraft Re-registration Application.

EXPIRED AIRCRAFT: When aircraft registration is allowed to expire, the assigned N-number is no longer authorized for use and will be scheduled for cancellation. The aircraft owner may mail a request to both cancel and reserve the N-number in their name with the \$10 reservation fee to the Registry before the scheduled cancellation. If no request is made, the N-number will be cancelled and become unavailable for five years.
